

Docket No. OSHA–2010–0046 contains all materials in the record concerning QPS’s recognition.

II. Final Decision and Order

OSHA staff examined QPS’s expansion application, the capability to

meet the requirements of the test standards, and other pertinent information. Based on a review of this evidence, OSHA finds that QPS meets the requirements of 29 CFR 1910.7 for expansion of the recognition, subject to the specified limitation and conditions

listed. OSHA, therefore, is proceeding with this final notice to grant QPS’s scope of recognition. OSHA limits the expansion of QPS’s recognition to testing and certification of products for demonstration of conformance to the test standards listed, in Table 1.

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN QPS’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 471	Standard for Commercial Refrigerators and Freezers.
UL 62368–1	Standard for Audio/Video Information and Communication Technology Equipment—Part 1 Safety Requirements.

OSHA’s recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL’s scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, the use of the designation of the standards-developing organization for the standard as opposed to the ANSI designation may occur. Under the NRTL Program’s policy (see OSHA Instruction CPL 1–0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, QPS must abide by the following conditions of the recognition:

1. QPS must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. QPS must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. QPS must continue to meet the requirements for recognition, including all previously published conditions on QPS’s scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of QPS, subject to the

limitation and conditions specified above.

Come learn all about ABLE accounts and the Illinois ABLE program! ABLE

accounts allow individuals with disabilities the opportunity to save and invest money without losing eligibility for certain public benefits programs, like Medicaid, Social Security, and Section 8 housing. Earnings in ABLE accounts are not subject to federal income tax, so long as funds are spent on qualified disability expenses. Deposits can be invested in different options chosen by the participant. While participants can still withdraw and spend money as needed, an ABLE account also allows money to grow for when it is needed for disability expenses.

PUBLIC COMMENT: Your participation during the public comment period provides an opportunity for us to hear from you—individuals, businesses, providers, educators, parents and advocates. Your comments are important in bringing attention to the issues in your community. Priority will be given to in-person attendees. Each person will be given 3 minutes to present comment. If you are presenting as a group and prefer to choose a spokesperson, your group representative will be given 6 minutes to provide comment. Any individual interested in providing public comment is asked to register their intent to provide comment in advance by sending an email to PublicComment@ncd.gov with the subject line “Public Comment” with your name, organization, state, and topic of comment included in the body of your email. Full-length written public comments may also be sent to that email address. To ensure your comments are accurately reflected and become part of the public record, NCD requests electronic submission prior to Friday, July 12, 2019, or immediately after the meeting to PublicComment@ncd.gov.

NUCLEAR REGULATORY COMMISSION

Atomic Safety and Licensing Board

Before Administrative Judges: Ronald M. Spritzer, Chairman, Nicholas G. Trikouros, Dr. Sekazi K. Mtingwa

In the Matter of NEXTERA ENERGY SEABROOK, LLC, (Seabrook Station, Unit 1).

Docket No. 50-443-LA-2

ASLBP No. 17-953-02-LA-BD01

June 25, 2019

Notice of Hearing

(Notice of Evidentiary Hearing and Opportunity To Provide Oral and Written Limited Appearance Statements)

Pursuant to 10 CFR 2.312, the Atomic Safety and Licensing Board (Board) hereby provides notice that it will convene an evidentiary session to receive testimony and exhibits in the contested portion of this proceeding. In addition, the Board gives notice that, in accordance with 10 CFR 2.315(a), it will entertain oral and written limited appearance statements from members of the public in connection with this proceeding.

I. Background of Proceeding

This proceeding arises from a license amendment request (LAR) filed by NextEra Energy Seabrook, LLC (NextEra),¹ concerning the operating

¹ License Amendment Request 16-03, Revise Current Licensing Basis to Adopt a Methodology for the Analysis of Seismic Category I Structures with Concrete Affected by Alkali-Silica Reaction, 1-3 of 73 (unnumbered) (Aug. 1, 2016) (ADAMS Accession No. ML16216A240) [hereinafter Original LAR].

NextEra supplemented the Original LAR on September 30, 2016, (ADAMS Accession No. ML16279A048), October 3, 2017 (ADAMS

license for Seabrook Station, Unit 1 (Seabrook), located in Seabrook, New Hampshire. The LAR sought to revise the Unit 1 Updated Final Safety Analysis Report (UFSAR) to include methods for analyzing the impact of concrete degradation caused by an alkali-silica reaction (ASR) affecting Seismic Category I reinforced concrete structures.² The LAR includes a monitoring program comprised of: (1) “Periodic measurement of ASR expansion” (ASR Expansion Monitoring); and (2) “periodic inspections of ASR-affected structures to identify and trend building deformation” (Structural Deformation Monitoring).³ C-10 Research and Education Foundation (C-10) filed a petition challenging the LAR, which included ten contentions.⁴

In LBP-17-7, the Board concluded that C-10 had standing and admitted five contentions, three of which it narrowed from C-10’s original proposal.⁵ The Board reformulated the contentions into a single contention, finding that the reformulated contention met the NRC’s admissibility requirements.⁶ The contention the Board admitted—comprised of Contentions A, B, C, D, and H—is as follows:

The large-scale test program, undertaken for NextEra at the [Ferguson Structural Engineering Laboratory], has yielded data that are not “representative” of the progression of ASR at Seabrook. As a result, the proposed monitoring, acceptance criteria, and inspection intervals are not adequate.⁷

II. Matters To Be Considered

The evidentiary hearing will concern the Board’s single reformulated contention. Each element of the reformulated contention relates to C-10’s central challenge to the representative nature of the large-scale test program conducted at the Ferguson

Accession No. ML17277A337), October 17, 2017 (ADAMS Accession No. ML17291B136), December 11, 2017 (ADAMS Accession No. ML17345A641), and June 7, 2018 (ADAMS Accession No. ML18158A540). Collectively, the Original LAR and all supplements, plus all enclosures and attachments constitute the “LAR.”
