

(“PRA”) (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget (“OMB”) a request for extension of the previously approved collection of information provided for in Rule 31 (17 CFR 240.31) and Form R31 (17 CFR 249.11) under the Securities Exchange Act of 1934 (15 U.S.C. 78ee) (“Exchange Act”).

Section 31 of the Exchange Act requires the Commission to collect fees and assessments from national securities exchanges and national securities associations (collectively, “SROs”) based on the volume of their securities transactions. To collect the proper amounts, the Commission adopted Rule 31 and Form R31 under the Exchange Act whereby each SRO must report to the Commission the volume of its securities transactions and the Commission, based on those data, calculates the amount of fees and assessments that each SRO owes pursuant to Section 31. Rule 31 and Form R31 require each SRO to provide these data on a monthly basis.

Currently, there are 26 respondents subject to the collection of information requirements of Rule 31: 22 national securities exchanges, one security futures exchange, one national securities association, and two registered clearing agencies that are required to provide certain data in their possession needed by the SROs to complete Form R31, although these two clearing agencies are not themselves required to complete and submit Form R31. The Commission estimates that the total burden for all 26 respondents is 390 hours per year. Based on previous and current experience, the Commission estimates that three additional national securities exchanges will become registered and subject to the reporting requirements of Rule 31 over the course of the authorization period and collectively incur a burden of 18 hours per year. Thus, the Commission estimates the total burden for the existing and expected new respondents to be 408 hours per year.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
