SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the ICR title for reference.

Information Collection Request Title: Nurse Anesthetist Traineeship (NAT)

Program Specific Data Forms (Application), OMB Number 0915-0374—Revision.

Abstract: HRSA provides advanced education nursing training grants to educational institutions to increase the numbers of Nurse Anesthetists through the NAT Program. NAT Program is authorized by Section 811 of the Public Health Service (PHS) Act (42 U.S.C. 296j). The NAT Tables request information on program participants such as the total number of enrollees, number of enrollees/trainees supported, total number of graduates, number of graduates supported, projected data on the number of enrollees/trainees, and the distribution of Nurse Anesthetists who practice in underserved, rural, or public health practice settings.

Need and Proposed Use of the Information: Funds appropriated for the NAT Program are distributed among eligible institutions based on a formula, as permitted by PHS Act section 806(e)(1). HRSA uses the data from the NAT Tables to: (1) Determine whether funding preferences or special considerations are met; (2) calculate award amounts; ensure compliance with programmatic and grant requirements; and (3) provide information to the public and Congress. NAT Tables currently collect one year of data, which allows HRSA to calculate award amounts for a single-year project period. For fiscal year 2020, HRSA is revising the forms that previously collected one year of data on prospective students to capture three years of data, thereby allowing HRSA to calculate award amounts for a multi-year project period. Table 1 will add an option to add year 2 and year 3 data for the number of prospective students. Table 2 will not be changed.

Likely Respondents: Respondents will be applicants to HRSA’s NAT program.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train
