

in their life would want them to do with the training information. At the end of week four, the respondent will return the actigraph. No data collection will occur during weeks five to 10 of the study.

The second post-test period will be weeks 11 and 12 of the study to gather longer-term outcomes. At the beginning of week 11, the respondents will be fitted with an actigraph. The respondent will wear the actigraph and complete the sleep activity diary for the next 14 days. At the end of week 12 of the study, respondent will complete the

Epworth Sleepiness Scale, Pittsburgh Sleep Quality Index, and Changes in Behaviors questionnaires. The combined response time is five minutes. The respondent will return the actigraph and study ends.

The burden table lists three 10-minute meetings during the post-test period when they will return the actigraph at the end of week four, be fitted with an actigraph at the beginning of week 11 and return it at the end of week 12. The respondents will complete the sleep activity diary for 42 days, which will take two minutes each day.

Study staff will use the findings from the pilot test to make improvements to the training program. The research team will reinforce or expand training content that showed less than desired results on the pilot test. Potential impacts of this project include improvements in management practices such as the design of work schedules and improvements in officers' personal behaviors for coping with the demands of shift work and long work hours. The total estimated annualized burden hours is 334. There are no costs to respondents other than their time.

SUPPLEMENTARY INFORMATION:

I. Background

In the June 26, 2019, issue of the Federal Register (84 FR 30123), we

published a Paperwork Reduction Act notice requesting a 60-day public comment period for the information collection request identified under CMS-10328, OMB control number 0938-1106, and titled "Medicare Self-Referral Disclosure Protocol."

II. Explanation of Error

In the June 26, 2019, notice, the information provided in the second column of the notice on page 30125, was published with incorrect information in the "Number of Respondents," the "Total Annual Responses," and the "Total Hours" sections. This notice corrects the language found in the "Number of Respondents," the "Total Annual Responses," and the "Total Hours" sections under the third column in the middle of the column on page 30125 of the June 26, 2019. All of the other information contained in the June 26, 2019, notice is correct. The related public comment period remains in effect and ends August 26, 2019.

III. Correction of Error

In FR Doc. 2019-13608 of June 26, 2019 (84 FR 30123), page 30125, the language in the middle of the second column that begins with "[Number of

Respondents]" and ends with "Total Annual Hours: 194,250.]" is corrected to read as follows:

[Number of Respondents: 100; Total Annual Responses: 100; Total Annual Hours: 5,000.]

Dated: July 3, 2019.
