DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2019-0047]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this

document provides the public notice that on June 19, 2019, the Everett Railroad Company (EV) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 and 224. Specifically, EV seeks a waiver of compliance for one box car, PRR 571060, for stenciling, reflectorization, and bolster without an identification mark or pattern number. FRA assigned the petition Docket Number FRA-2019-0047.

EV's petition states that the car was built in 1925 and will be operated only as a historic relic in conjunction with EV's tourist and excursion trains. EV operates over approximately 25 miles of track located entirely in Blair County, Pennsylvania, which is generally rural in nature. EV trains operate under restricted speed rules not exceeding 20 miles per hour. When operated, the subject car will be loaded to not more than fifty percent capacity. The subject car will not interchange with any other railroad. EV explains that the car has been inspected and determined to be safe for operation, and last received a single car air brake test on December 7, 2015. EV wishes to maintain the subject car in its historic appearance and identity for photography, film, and purposes of historic interpretation.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
