BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Research and Development Enterprise Committee (RDEC); Public Comment for the NOAA Research and Development Plan

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public comment.

SUMMARY: This notice sets forth a public comment for NOAA's Research and Development (R&D) Plan set for release in 2019. NOAA R&D is an investment in the scientific knowledge and technology that will allow the United States to protect lives and property, adapt to challenges, sustain a strong economy, and manage natural resources. The R&D strategic plan will provide a common understanding among NOAA's leadership, workforce, partners, and constituents on the value and direction of NOAA R&D activities.

DATES: Comments are due by August 26, 2019.

ADDRESSES: Submit public comments via email to noaa.rdplan@noaa.gov. Include "NOAA R&D Plan Public Comment on Draft Plan" in the subject line of the message. All comments received are part of the public record. Please refer to the web page <https://nrc.noaa.gov/CouncilProducts/ResearchPlans.aspx> for the most up-to-date R&D plan draft document.

FOR FURTHER INFORMATION CONTACT: Dr. Gary Matlock, Deputy Assistant Administrator for Science, NOAA, Rm. 11461, 1315 East-West Highway, Silver Spring, Maryland 20910. (Phone: 301-734-1185; Email: gary.c.matlock@noaa.gov); or visit the NOAA RDEC website at <https://nrc.noaa.gov/About/Committees.aspx>.

SUPPLEMENTARY INFORMATION: Key vision statement areas of the plan include: (1) Reduced societal impacts from severe weather and other environmental phenomena; (2) Sustainable use of ocean and coastal resources; and (3) A robust and effective research, development, and transition enterprise.

Comments may address the proposed vision statements, key questions, objectives, document structure, and other content and formatting aspects of the draft R&D Plan.

Authority: NAO 216-115A.

Dated: March 14, 2019.

David Holst,
Chief Financial Officer/Administrative Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

Editorial note: This document was received for publication by the Office of the Federal Register on July 3, 2019.

[FR Doc. 2019-14621 Filed 7-11-19; 8:45 am]

BILLING CODE 3510-KD-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration.

Title: Atlantic Highly Migratory Species (HMS) Recreational Landings and Bluefin Tuna Catch Reports.

OMB Control Number: 0648-0328.

Form Number(s): None.

Type of Request: Regular (Extension, without change, of a currently approved collection).

Number of Respondents: 15,761.

Average Hours per Response: 5-10 minutes per landings report; 1 hour for state reports.

Burden Hours: 1,786.

Needs and Uses: Catch reporting from recreational and commercial handgear fisheries provides important data used to monitor catches of Atlantic highly migratory species (HMS) and supplements other existing data collection programs. Data collected through this program are used for both domestic and international fisheries management and stock assessment purposes.

Atlantic bluefin tuna (BFT) catch reporting provides real-time catch information used to monitor the BFT fishery. Under the Atlantic Tunas Convention Act of 1975 (ATCA, 16 U.S.C. 971), the United States is required to adopt regulations, as necessary and appropriate, to implement recommendations of the

International Commission for the Conservation of Atlantic Tunas (ICCAT), including recommendations on a specified BFT quota. BFT catch reporting helps the United States monitor this quota and supports scientific research consistent with ATCA and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act, 16 U.S.C. 1801 *et seq.*). Recreational anglers and commercial handgear fishermen are required to report specific information regarding their catch of BFT.

Atlantic billfish and swordfish are managed internationally by ICCAT and nationally under ATCA and the Magnuson-Stevens Act. This collection provides information needed to monitor the recreational catch of Atlantic blue marlin, white marlin, and roundscale spearfish, which is applied to the recreational limit established by ICCAT, and the recreational catch of North Atlantic swordfish, which is applied to the U.S. quota established by ICCAT. This collection also provides information on recreational landings of West Atlantic sailfish, which is unavailable from other established monitoring programs.

Affected Public: Businesses or other for-profit organizations; individuals or households; and State, Local, or Tribal government.

Frequency: On occasion; Weekly/Bi-weekly; Annually.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of

information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: The Ocean Enterprise: A study of US business activity in ocean measurement, observation, and forecasting.

OMB Control Number: 0648-0712.

Form Number(s): None.

Type of Request: Regular (Reinstatement, with change, of a previously approved collection for which approval has expired).

Number of Respondents: 200.

Average Hours per Response: 0.5 hours.

Burden Hours: 100 hours.

Needs and Uses: NOAA's National Ocean Service is requesting approval to repeat a web-based survey of employers who provide either services or infrastructure to the Integrated Ocean Observing System (IOOS) or organizations that add value to the IOOS data and other outputs by tailoring them for specific end uses. The purpose of the survey and overall project is to gather data to articulate the collective and derived value of the IOOS enterprise, and to create a profile of businesses and organizations who are involved with providing services or utilizing the data for other specific end uses. This will be the second survey of its kind on a national scale following the first survey conducted in FY2015.

The web survey will be the final data collection piece of this repeat study and is necessary in order to collect demographic, financial, and functional information for each organization with regard to their involvement with IOOS. The final deliverable of this project is an analytic report detailing the findings of the web survey and the analysis of the employer database. The marine technology industry is an important partner and stakeholder within IOOS: This follow up study will build upon the previous baseline study conducted in FY2015 and will identify trends in this important industry cluster. This information can be used to understand the changing value of export sales and the identification of potential growth and/or new international markets which would further the Department of Commerce (DOC) strategic goal for better environment intelligence (https://www.commerce.gov/sites/commerce.gov/files/us_department_of_commerce_2018-2022_strategic_plan.pdf) and translate into better programs by the DOC International Trade Administration in ocean observing industries in international trade.

Affected Public: Business or other for profit; not-for-profit institutions.

Frequency: Once.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-JE-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: External Needs Assessment for NOAA Education Products and Programs.

OMB Control Number: 0648-XXXX.

Form Number(s): None.

Type of Request: Regular (Request for new collection).

Number of Respondents: Approximately 1,000 respondents per year.

Average Hours per Response: Approximately 5 minutes per response.

Burden Hours: Approximately 83 total burden hours per year.

Needs and Uses: In the Fall of 2019 the NOAA Office of Education is planning to sponsor a voluntary multi-question survey to assess the needs of formal and informal educators pertaining to future NOAA multimedia products and programs. In developing multimedia materials that convey NOAA's science, service and stewardship, the agency must ensure that these resources are of the highest quality and meet the needs of formal and informal educators across the United States. To achieve this goal, it will be necessary to conduct surveys

identifying the types of multimedia educational programs and products of the highest interest and greatest need by formal and informal educators. By surveying external educators to gather this information, budget expenditures will be used optimally to develop appropriate products and programs most desired by educators to support and enhance ocean and Earth sciences, in addition to related STEM subject literacy throughout our nation.

Affected Public: Individuals or households; Businesses or Other For-Profit; and Not-For-Profit Institutions.

Frequency: Twice per year.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.
