

2015 (79 FR 68289). The Service finalized the EA in June of 2015, and a finding of no significant impact (FONSI) was signed on September 17, 2015. Findings and recommendations addressing the issuance of future ITPs for activities covered under the GCP were also signed on September 17, 2015. The Service will not make a final permit decision until after the end of the 30-day comment period, following full consideration of all comments received.

Proposed Action

The Service proposes to issue the requested 47-year ITP based on the applicant's commitment to implement the site plan prepared pursuant to the requirements of the GCP, if permit issuance criteria are met. Covered activities include dryland farming of wheat and horse grazing. The area covered under the proposed ITP encompasses about 4,017 acres owned and leased by Davis and Davis Farm within the area covered by the GCP in Douglas County, Washington.

Take of the following covered species is likely to occur in conjunction with activities covered under the GCP: The Columbia Basin distinct population segment of pygmy rabbit, the greater sage-grouse, the Washington ground squirrel, and the Columbian sharp-tailed grouse. Such take is expected to occur on the following lands owned or leased by Davis and Davis Farms: 710.8 acres of shrub-steppe habitat; 2,576.2 acres of agriculture lands (dryland and irrigated agriculture); and 730.4 acres of Conservation Reserve Program/State Acres For Wildlife Enhancement (CRP/SAFE) shrub-steppe habitat that might be converted to dry-land or irrigated crop production in the future. These acreages are surrogates for the anticipated amount of incidental take and are within the amounts considered in the EA and FONSI, and the Biological Opinion/Conference Opinion addressing the issuance of ITPs in association with implementation of the GCP.

As a GCP participant, Davis and Davis Farms will aid in covered species recovery through implementation of conservation measures resulting in appropriate grazing management, maintenance of existing shrub-steppe habitat, implementation of timing restrictions, notification to the Service prior to conversion of occupied CRP/SAFE habitat, and additional measures. The GCP also includes criteria to evaluate CRP/SAFE acres, and other protected land acres across Douglas County, and if those acres decrease below certain thresholds, the Foster Creek Conservation District will work

with the Service and others to address the decrease, or revisit the GCP. With implementation of the site plan, we do not anticipate CRP/SAFE acres threshold criteria will be triggered or changes in the numbers, distribution, or reproduction of the covered species will appreciably reduce the likelihood of their survival and recovery in the wild.

Public Comments

You may submit your comments and materials by one of the methods listed in the **ADDRESSES** section. We specifically request written information, views and suggestions with respect to the application for the incidental take permit.

Public Availability of Comments

All comments and materials we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personally identifiable information in your comments, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety. Comments and materials we receive, as well as supporting documentation, will be available for public inspection by appointment, during normal business hours, at our Washington Fish and Wildlife Office (see **ADDRESSES**).

Next Steps

The Service previously approved the GCP, and recommended approval of future permit applications developed consistent with the GCP, concluding that such permits would meet the issuance criteria for ITPs, and would not result in significant effects to the human environment. After public review, we will evaluate the permit application, associated documents, and any comments received, to confirm that the permit application meets the requirements of section 10(a)(1)(B) of the ESA and the GCP. We will also evaluate whether issuance of the requested ITP would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation under section 7(a)(2) of the ESA on anticipated ITP actions. In addition, we

will evaluate whether issuance of the requested ITP will be consistent with the finding of no significant impact under NEPA issued in relation to the GCP. As noted above, we will not make a final permit decision until after the end of the 30-day comment period, and we will fully consider all comments received during the comment period. If we determine that all requirements are met we will issue an ITP to the applicant for the take of the covered species, incidental to otherwise lawful covered activities implemented under the site plan prepared in accordance with the GCP.

Authority

We provide this notice in accordance with the requirements of section 10 of the ESA and its implementing regulations (50 CFR 17.22) and NEPA and its implementing regulations (40 CFR 1506.6).

Robyn Thorson,

Regional Director, Pacific Region, U.S. Fish and Wildlife Service.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX19ZQ00G402A00; OMB Control Number 1028-NEW]

Agency Information Collection Activities: ShakeAlert Community Feedback Form

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before September 16, 2019.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028-NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Sara K. McBride by email at skmcbride@usgs.gov or by telephone at 650-750-5270.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: This research is to assist development of the West Coast Earthquake Early Warning System that will send the public a ShakeAlert before they feel shaking from an earthquake that has started. As part of the ShakeAlert, the West Coast Early Warning system, we need to understand how long it will take to get messages to people's phones via wireless emergency alerts (WEA), applications (apps) or another alerting platform. We will be collecting the information via community feedback forms or surveys. These feedback forms will be made available via media, social media, and internal emails. The information being collected is temporal information and our alerting platforms; namely: Wireless Emergency Alerts (WEA), mobile applications (APPS), sirens, and broadcast alerts. Participants will be

asked to provide exact timings in terms of when alerts were delivered to either their devices or themselves, to determine system latency. They will be asked to provide details about their devices, mobile network, and proximate location (address, zip code, or building name). The final four questions explore what people know about the system, preferred delivery channels, and messaging priorities.

Title of Collection: ShakeAlert Community Feedback Form.

OMB Control Number: 1028–NEW.

Form Number: NA.

Type of Review: New.

Respondents/Affected Public: Individuals/households.

Total Estimated Number of Annual Respondents: 2,000.

Total Estimated Number of Annual Responses: 2,000.

Estimated Completion Time per Response: Six minutes.

Total Estimated Number of Annual Burden Hours: 200.

Respondent's Obligation: Voluntary.

Frequency of Collection: Once per year.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Douglas Given,

ShakeAlert Project Coordinator.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–452 and 731–TA–1129–1130 (Second Review)]

Raw Flexible Magnets From China and Taiwan; Determination

On the basis of the record ¹ developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the countervailing duty order on raw flexible magnets from China and revocation of the antidumping duty orders on raw flexible magnets from China and Taiwan would be likely to

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted these reviews on January 2, 2019 (84 FR 8) and determined on April 12, 2019 that it would conduct expedited reviews (84 FR 26156, June 5, 2019).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on July 12, 2019. The views of the Commission are contained in USITC Publication 4921 (July 2019), entitled *Raw Flexible Magnets from China and Taiwan, Investigation Nos. 701–TA–452 and 731–TA–1129–1130 (Second Review)*.

By order of the Commission.

Issued: July 12, 2019.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020–02–P

DEPARTMENT OF JUSTICE

Bureau of Alcohol, Tobacco, Firearms and Explosives

[OMB Number 1140–0102]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Revision of a Currently Approved Collection; FEL Out of Business Records

AGENCY: Bureau of Alcohol, Tobacco, Firearms and Explosives, Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Department of Justice (DOJ), Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), will submit the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed collection OMB 1140–0102 (FEL Out of Business Records) is being revised due to an increase in the number of respondents to this IC, which has also contributed to a rise in both the public burden hours and cost associated with this IC, since the last renewal in 2016.

DATES: Comments are encouraged and will be accepted for 60 days until September 16, 2019.
