Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is August 6, 2019.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor

must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a

document is added to a subscribed docket(s). For assistance with any FERC Online service, please email [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

**FOR FURTHER INFORMATION CONTACT:** Questions concerning this action should be addressed to Kenon Smith at (202) 343-9164 or [smith.kenon@epa.gov](mailto:smith.kenon@epa.gov) or Jason Kuhns at (202) 564-3236 or [kuhns.jason@epa.gov](mailto:kuhns.jason@epa.gov).

**SUPPLEMENTARY INFORMATION:** Under each CSAPR trading program where EPA is responsible for determining emission allowance allocations, a portion of each state's emissions budget for the program for each control period is reserved in a NUSA (and in an additional Indian country NUSA in the case of states with Indian country within their borders) for allocation to certain units that would not otherwise receive allowance allocations. The procedures for identifying the eligible units for each control period and for allocating allowances from the NUSAs and Indian country NUSAs to these units are set forth in the CSAPR trading program regulations at 40 CFR 97.411(b) and 97.412 (NO<sub>x</sub> Annual), 97.511(b) and 97.512 (NO<sub>x</sub> Ozone Season Group 1), 97.611(b) and 97.612 (SO<sub>2</sub> Group 1), 97.711(b) and 97.712 (SO<sub>2</sub> Group 2), and 97.811(b) and 97.812 (NO<sub>x</sub> Ozone Season Group 2). Each NUSA allowance allocation process involves up to two rounds of allocations to eligible units, termed "new" units, followed by the allocation to "existing" units of any allowances not allocated to new units.

In a notice of data availability (NODA) published in the **Federal Register** on May 28, 2019 (84 FR 24506), EPA provided notice of preliminary calculations for the first-round 2019 NUSA allowance allocations and described the process for submitting any objections. The only objection EPA received in response to the May 28, 2019 NODA was subsequently withdrawn. This NODA concerns the final calculations for the first round of 2019 NUSA allocations, which are unchanged from the preliminary calculations.

The detailed unit-by-unit data and final allowance allocation calculations are set forth in Excel spreadsheets titled "CSAPR\_NUSA\_2019\_NOx\_Annual\_1st\_Round\_Final\_Data", "CSAPR\_NUSA\_2019\_NOx\_OS\_1st\_Round\_Final\_Data", and "CSAPR\_NUSA\_2019\_SO2\_1st\_Round\_Final\_Data", available on EPA's website at <https://www.epa.gov/csapr/csapr-compliance-year-2019-nusa-nodas>.

EPA notes that an allocation or lack of allocation of allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit. EPA also notes that, under 40 CFR 97.411(c), 97.511(c), 97.611(c), 97.711(c), and 97.811(c), allocations are subject to potential correction if a unit to which allowances have been allocated for a given control period is not actually an affected unit as of the start of that control period.

## SUPPLEMENTARY INFORMATION:

### A. Purpose

The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance.

Such data uses require more rigorous designs that address: The target
