## DEPARTMENT OF DEFENSE

### Office of the Secretary

#### Announcement of Federal Funding Opportunity

**AGENCY:** Office of Economic Adjustment (OEA), Department of Defense.

**ACTION:** Federal funding opportunity announcement.

**SUMMARY:** As the Department of Defense (DoD) seeks to implement the National Defense Strategy by increasing our military capabilities and enhancing the lethality and readiness of our forces, it is in our Nation's best interests for states and communities around the nation to collaborate with our local installation's leadership to: Address instances where civilian activities may impair the utility of local installations; and ensure local civilian development does not negatively impact our missions, test facilities, and training ranges. In addition, local communities have the opportunity through development initiatives to enhance the military value and security of our bases and provide for the quality of life for our troops and their families. The purpose of the program is to enhance the operational utility of installations through a series of installation-community engagements that will identify and carry out civilian actions to improve the readiness and lethality of the force. These engagements allow the Department to utilize the particular civilian expertise that can be found across states and communities to augment our local missions' efforts to improve the combat capability of our forces while leveraging the comparative advantages these civilian partners can provide to support the Department's efforts.

This notice announces an opportunity to request funding from the Office of Economic Adjustment (OEA), a DoD Field Activity, for community planning assistance to assist states and communities to work with their local military installations to promote and guide civilian development and activities which are compatible and support the long-term readiness and operability of military installations, ranges, special use air space, military operation areas, and military training routes. Many installations have recently
