B. Needs and Uses

FAR subpart 50.1 prescribes policies and procedures that allow contracts to be entered into, amended, or modified in order to facilitate national defense under the extraordinary emergency authority granted under 50 U.S.C. 1431 *et seq.* and Executive Order (E.O.) 10789 dated November 14, 1958, *et seq.*

This authority applies to the Government Printing Office; the Department of Homeland Security; the Tennessee Valley Authority; the National Aeronautics and Space Administration; the Department of Defense; the Department of the Army; the Department of the Navy; the Department of the Air Force; the Department of the Treasury; the Department of the Interior; the Department of Agriculture; the Department of Commerce; and the Department of Transportation. Also included is the Department of Energy for functions transferred to that Department from other authorized agencies and any other agency that may be authorized by the President.

In order for a contractor to be granted relief under the FAR, specific evidence must be submitted which supports the firm's assertion that relief is appropriate and that the matter cannot be disposed of under the terms of the contract.

FAR 50.103-3 specifies the minimum information that a contractor must include in a request for contract adjustment in accordance with FAR 50-103-1 and 50.103-2.

FAR 50-103-4 sets forth additional information that the contracting officer or other agency official may request from the contractor to support any request made under FAR 50.103-3.

FAR 50.104-3 sets forth the information that the contractor shall include in a request for the indemnification clause to cover unusually hazardous or nuclear risks.

FAR 52.250-1, Indemnification under Public Law 850804, requires in paragraph (g) that the contractor shall promptly notify the contracting officer of any claim or action against, or loss

by, the contractor or any subcontractors that may reasonably to involve indemnification under the clause.

The information is used by the Government to determine if relief can be granted under FAR and to determine the appropriate type and amount of relief.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-19-19AEN]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Stakeholder Interviews for the Evaluation of the World Trade Center Health Program for Impact Assessment and Strategic Planning for Translational Research, to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on April 8, 2019 to obtain comments from the public and affected agencies. The WTCHP is administered by the CDC/National Institute for Occupational Safety and Health (NIOSH). CDC did not receive

comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Stakeholder Interviews for the Evaluation of the World Trade Center Health Program for Impact Assessment and Strategic Planning for Translational Research—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The World Trade Center Health Program (WTCHP) was established by the James Zadroga 9/11 Health and Compensation Act of 2010, Public Law 111-347 (hereafter referred to as "the Zadroga Act"). Under subtitle C, the Zadroga Act requires the establishment of a research program on health conditions resulting from the 9/11 terrorist attacks. The Research to Care

(RTC) model is the strategic framework employed by the WTCHP to prioritize, conduct, and assess research that informs excellence in clinical care for the population of responders and survivors affected by the 9/11 attacks in New York City. It is the focus of this assessment.

The RTC model assumes the collective involvement of different WTCHP stakeholders, including members, researchers, clinicians, and program administrators. It accounts for a variety of inputs that can affect the progress and impact of WTCHP research. These inputs include people and organizations (e.g., program members, providers, clinical centers of excellence, extramural researchers, and program staff), resources (e.g., technology, data centers, the NYC 9/11 Health Registry) and regulatory rules, principally the Zadroga Act. The program supports activities such as research prioritization, conduct of research, delivery of medical care, and iterative assessments of the translation of research to improvements in health care services and chronic disease management. These activities aim to produce tangible outputs such as research findings on WTC-related conditions, healthcare protocols, peer-reviewed publications, quality assessment reports, and member and provider education products. Finally, the model anticipates short-, intermediate-, and long-term measurement of outcomes and serves as a communication tool for program planning and evaluation.

In 2016, NIOSH contracted with the RAND Corporation to evaluate the WTCHP RTC model including the research investments to date and the effectiveness with which the Program translates its research to different stakeholder groups. This work will ultimately provide guidance for the WTCHP on strategic directions, as well as produce generalizable knowledge about the translation of research into improved outcomes for individuals and populations exposed to disasters such as the 9/11 attacks. As a part of this evaluation, we will hold a series of interviews with representatives of different stakeholder groups to explore their perspectives on translational research in the context of the WTCHP. These interviews are necessary to gather information on the translation of WTCHP-supported research into better care for members, the impact of this research, and stakeholders' views on future directions for the program. Interview responses will be incorporated into RAND's overall assessment of the WTCHP program's
