Preliminary Determination of No Shipments

Based on record evidence, we preliminarily determine that GVN had no shipments of subject merchandise during the POR. Specifically, CBP indicated that it found no shipments by GVN during the POR.¹⁰ Consistent with Commerce's practice, we find that it is not appropriate to rescind the review with respect to GVN but, rather, to complete the review and issue appropriate instructions to CBP based on the final results of this review.¹¹

Public Comment

Interested parties may submit case briefs no later than 30 days after the date of publication of this notice.¹² Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing

case briefs.¹³ Parties who submit case or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.¹⁴

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce using Enforcement and Compliance's ACCESS system within 30 days after the date of publication of this notice.¹⁵ Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case and rebuttal briefs. If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

All submissions must be filed electronically using ACCESS and served on interested parties.¹⁶ An electronically-filed document must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Standard Time on the date that the document is due.

Unless the deadline is extended, Commerce intends to issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act).

Assessment Rates

Commerce clarified its "automatic assessment" regulation on May 6, 2003.¹⁷ This clarification will apply to entries of subject merchandise during the POR produced by GVN for which this company did not know that the merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies)

involved in the transaction. Further, instead of rescinding the review with respect to GVN, we find it appropriate to complete the review and issue liquidation instruction to CBP concerning entries for GVN following issuance of the final results of review. If we continue to find that GVN had no shipments of subject merchandise in the final results, we will instruct CBP to liquidate any existing entries of merchandise produced by GVN, but exported by other parties, at the rate for the intermediate reseller, if available, or at the all-others rate.¹⁸

We intend to issue instructions to CBP 15 days after the publication date of the final results of this review.

Cash Deposit Requirements

If the final results of review continue to find that GVN had no shipments during the POR, there will be no change to the existing cash deposit requirements.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: August 7, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA

Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Stock ID webinars are as follows:

1. Participants will use review genetic studies, growth patterns, existing stock definitions, prior SEDAR stock ID recommendations, and any other relevant information on scamp stock structure.

2. Participants will make recommendations on biological stock structure and define the unit stock or stocks to be addressed through this assessment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
