

appointed by the owner, purchaser, or consignee to file the following data elements with CBP at any time prior to, or upon arrival, or up to 15 days after arrival of the cargo:

- (1) The bill of lading or the air waybill number;
- (2) Entry number;
- (3) Planned port of entry;
- (4) Shipper name, address, and country;
- (5) Consignee name and address;
- (6) Country of origin;
- (7) Quantity;
- (8) Fair retail value in the country of shipment;
- (9) 10-digit HTSUS number;
- (10) IOR number of the owner, purchaser, or broker when designated by a consignee (conditional).

The IOR number is a conditional ACE Entry Type 86 Test data element and is required when the shipment is subject to PGA data reporting requirements. The IOR number provided must be that of the shipment's owner, purchaser, or broker when designated by a consignee.

Upon receipt of the data in an entry type "86" filing, CBP will determine whether the shipment is subject to PGA data reporting requirements. Any PGA data reporting requirements would be satisfied by the PGA Message Set and the filing of any supporting documentation via the Document Image System (DIS). The PGA Message Set enables the trade community to electronically submit all data required by the PGAs only once to CBP, eliminating the necessity for the submission and subsequent manual processing of paper documents, and makes the required data available to the relevant PGAs for import and transportation-related decision making. See the December 13, 2013 **Federal Register** notice (78 FR 75931) for a further discussion of the PGA Message Set and the October 15, 2015 **Federal Register** notice (80 FR 62082) for a further discussion of DIS.

A "CBP release" message indicates that CBP has determined that the Section 321 low-valued goods may be released from CBP custody. All merchandise released by CBP is released conditionally and remains subject to recall through the issuance of a Notice of Redelivery. Merchandise that is regulated by one or more PGAs may not proceed into commerce until CBP releases the merchandise and all PGAs that regulate the merchandise have issued a "may proceed" message.

The definitions of the ACE data elements, the technical requirements for submission, and information describing

how filers receive transmissions are set forth in the CATAIR guidelines for ACE, which may be found at <https://www.cbp.gov/trade/ace/catair>.

III. Waiver of Regulation Under the Test

For purposes of this test, 19 CFR 10.151 will be waived for test participants only insofar as the informal entry procedures for "release from manifest" are inconsistent with the requirements in this notice. Additionally, 19 CFR 128.21(a), 128.24(e), 143.23(j) and (k), and 143.26(b) will be waived for test participants to the extent such procedures are inconsistent with the requirements of this notice.

IV. Comments

All interested parties are invited to comment on any aspect of this test at any time. CBP requests comments and feedback on all aspects of this test, including the design, conduct and implementation of the test, in order to determine whether to modify, alter, expand, limit, continue, end, or fully implement this new entry process.

V. Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), an agency may not conduct, and a person is not required to respond to, a collection of information unless the collection of information displays a valid control number assigned by OMB. The collections of information for the ACE Entry Type 86 Test are included in an existing collection for CBP Form 3461 (OMB control number 1651-0024).

VI. Misconduct Under This Test

A test participant may be subject to civil and criminal penalties, administrative sanctions, or liquidated damages for any of the following:

- (1) Failure to follow the rules, requirements, terms, and conditions of this test;
- (2) Failure to exercise reasonable care in the execution of participant obligations; or
- (3) Failure to abide by applicable laws and regulations that have not been waived.

Dated: August 7, 2019.

Brenda B. Smith,

Executive Assistant Commissioner, Office of Trade.

Copies of available documents submitted to OMB may be obtained from Ms. Guido.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on Friday, May 3, 2019 at 84 FR 19101.

A. Overview of Information Collection

Title of Information Collection: Standards for Success Reporting.

OMB Approval Number: 2501-0034.

Type of Request: Revision of a currently approved collection.

Form Number: HUD-PRL.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hours per response	Annual burden hours	Hourly cost per response	Annual cost
HUD Participant Record-Level Report (HUD-PRL)	4,821.00	104.00	1 501,384.00	0.33	167,128.00	² \$18.02	\$3,013,318.00

Description of the need for the information and proposed use: This request is for the continued clearance of data collection and reporting requirements to enable the U.S. Department of Housing and Urban Development (HUD) Office of Business Transformation (OBT) to better assess the effectiveness of discretionary-funded programs included in this information collection request (ICR). The discretionary-funded programs included in this ICR are the Multifamily Housing Service Coordinator Grant Program, the Multifamily Housing Budget-based Service Coordinator Program, and the Resident Opportunity and Self Sufficiency Service Coordinator Grant Program (ROSS).

This proposed collection, titled Standards for Success, has three key tenets which vastly improve data collection and reporting for participating programs. First is the standardization of data collection and reporting requirements across programs which increases data comparability and utilization. Second is the ability to report on measurable outcomes and aligning them with higher-level agency objectives. And third is the collection of record-level data, instead of aggregate data. Collecting de-identified data at the level of the service recipient allows for more meaningful analysis, improved management, and the ability to demonstrate the progress and achievements of the funding recipients and the programs. Standards for Success accepts data submission by direct data input through the HUD-funded GrantSolutions online data collection and reporting tool (OLDC) and by data file upload, accommodating file formats in Microsoft Excel or Extensible Markup Language (XML).

Currently across HUD, there are several reporting models in place for its discretionary programs. The reporting models provide information on a wide variety of outputs and outcomes and are based on unique data definitions and outcome measures in program-specific performance and progress reports. In Federal Fiscal Year 2013, nine program offices at HUD used six systems and 15 reporting tools to collect over 700 data elements in support of varied metrics to assess the performance of their funding recipients. The proposed data collection

and reporting requirements described in this notice are designed to provide HUD programs a tested alternative to their existing disparate reporting methodologies, forms, systems, and requirements.

The lack of standardized data collection and reporting requirements imposes an increased burden on funding recipients with multiple HUD funding streams. The need for a comprehensive standardized reporting approach is underscored by reviews conducted by external oversight agencies, including the HUD Office of Inspector General (OIG) and the Government Accountability Office (GAO). In response, HUD is using its statutory and regulatory authority to improve and strengthen performance reporting for its discretionary programs, ultimately working towards a single comprehensive reporting approach.

The Secretary's statutory and regulatory authority to administer housing and urban development programs include provisions allowing for the requirement of performance reporting from funding recipients. This legal authority is codified at 42 U.S.C. 3535(r). The individual privacy of service recipients is of the highest priority. The reporting repository established at HUD to receive data submission from funding recipients will not include any personally identifiable information (PII). Additionally, if the data from a funding recipient has 25 or fewer individuals served during a fiscal year as reported in the record-level reports, then the results for the demographic data elements for the 25 or fewer individuals will also be redacted or removed from the public-use data file and any publicly available analytical products in order to ensure the inability to identify any individual.

Eligible entities receiving funding by HUD are expected to implement the proposed recordkeeping and reporting requirements with available HUD funds. It is important to note that affected HUD funding recipients only submit a subset of all the data elements presented. The participating HUD program offices determine the specific data collection and reporting requirements, which considers the type and level of service provided by the respective HUD program.

The reporting requirements in this proposal better organize the data that participating programs collected in the past, standardize outcomes and performance measures, and allow program offices at HUD to select which data elements and performance indicators are relevant for their respective programs. Documents detailing the data elements, performance indicators, and programs are available for review by request from Anna P. Guido (*Anna.P.Guido@hud.gov*). All information reported to HUD will be submitted electronically. Funding recipients may use existing management information systems provided those systems collect all of the required data elements and can be exported for submission to HUD. Funding recipients that sub-award funds to other organizations will need to collect the required information from their sub-recipients.

Information collected and reported will be used by funding recipients and HUD for the following purposes:

- To provide program and performance information to recipients, general public, Congress, and other stakeholders;
- To continuously improve the quality, effectiveness, and efficiency of discretionary-funded programs;
- To provide management information for use by HUD in program administration and oversight, including the scoring of applications and the monitoring of funding-recipient participation, services, and outcomes; and
- To better measure and analyze performance information to identify successful practices to be replicated and prevent or correct problematic practices and improve outcomes in compliance with the Government Performance and Results Act (GPRA) and the GPRA Modernization Act.

The data collection and reporting requirements may expand to other HUD programs. Program implementation will be determined by the program. HUD will provide technical assistance to funding recipients throughout the implementation.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected

parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.
