

Electrical Training. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at USDOL–Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Certificate of Electrical Training. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0001.

Affected Public: Business or other for-profit.

Number of Respondents: 266.

Frequency: On occasion.

Number of Responses: 2,025.

Annual Burden Hours: 849 hours.

Annual Respondent or Recordkeeper Cost: \$413.

MSHA Forms: MSHA Form 5000–1, Certificate of Electrical Training.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Roslyn B. Fontaine,

Certifying Officer.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219–0020]

Proposed Extension of Information Collection; Operations Mining Under a Body of Water

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Operations Mining Under a Body of Water.

DATES: All comments must be received on or before October 21, 2019.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA–2019–0030.

- *Regular Mail:* Send comments to USDOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452.

- *Hand Delivery:* USDOL–Mine Safety and Health Administration, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Sign in at

the receptionist's desk on the 4th floor via the East elevator.

FOR FURTHER INFORMATION CONTACT: Sheila McConnell, Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693–9440 (voice); or (202) 693–9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor (Secretary) to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

Title 30 CFR Sections 75.1716, 75.1716–1 and 75.1716–3 require operators of underground coal mines to provide MSHA notification before mining under bodies of water and to obtain a permit to mine under a body of water if, in the judgment of the Secretary, it is sufficiently large to constitute a hazard to miners. The regulation is necessary to prevent the inundation of underground coal mines with water that has the potential of drowning miners.

The coal mine operator submits an application for the permit to the District Manager in whose district the mine is located. Applications contain the name and address of the mine; projected mining and ground support plans; a mine map showing the location of the river, stream, lake or other body of water and its relation to the location of all working places; and a profile map showing the type of strata and the distance in elevation between the coal bed and the water involved. MSHA has provided an exemption from notification and permit application for mine operators where the projected mining is under any water reservoir constructed by a Federal agency as of December 30, 1969, and where the operator is required by such agency to operate in a manner that adequately protects the safety of miners. The exemption for such mining is addressed by 30 CFR Sections 75.1716 and 75.1717.

MSHA also encourages a mine operator to provide more information in an application. When the operator files an application for a permit, in addition

to the information required under 30 CFR Section 75.1716-3, operators are also encouraged to include a map of the active areas of the mine under the body of water showing the following: Bottom of coal elevations (minimum 10-ft contour intervals); the limits of the body of water and the estimated quantity of water in the pool; the limits of the proposed "safety zone" within which precautions will be taken; overburden thickness (depth of cover) contours; corehole locations; and known faults, lineaments, and other geologic features.

If the body of water is contained within an overlying mine, then MSHA recommends a map of the overlying mine showing bottom of coal elevations (minimum 10-ft contour intervals), when available, corehole locations, the limits of the body of water with the estimated quantity of water in the pool, and interburden to active mine below be provided. Operators are also encouraged to submit the methods that were used to estimate the quantity of water in the pool, borehole logs, including geotechnical information (RQD, fracture logs, etc.) if available; rock mechanics data on the overburden, interburden, mine roof, and mine floor, if available; mining height of the seam being mined, pillar and floor stability analyses for the active mine, whether second mining is planned, whether mining will be conducted down-dip or up-dip, where water will flow to in the active mine if encountered, pumping capabilities for dewatering, a comprehensive evacuation plan for the miners, and a statement of what in-mine conditions would trigger the implementation of the evacuation plan, and training that will be provided to the miners regarding the potential hazards.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Operations Mining Under a Body of Water. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at USDOL-Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

BILLING CODE 4510-43-P

MILLENNIUM CHALLENGE CORPORATION

[MCC FR 19-05]

Millennium Challenge Corporation Economic Advisory Council Call for Nominations

AGENCY: Millennium Challenge Corporation.

ACTION: Notice.

SUMMARY: In accordance with the requirements of the Federal Advisory Committee Act, the Millennium Challenge Corporation (MCC) is hereby soliciting representative nominations for the MCC Economic Advisory Council ("the EAC").

DATES: Nominations for EAC members must be received on or before 5 p.m. EDT on September 13, 2019. Further information about the nomination process is included below. MCC plans to host the next EAC meeting in late 2019. The EAC will meet at least one time per year in Washington, DC or via video/teleconferencing.

ADDRESSES: All nomination materials or requests for additional information should be emailed to MCC's Economic Advisory Council Designated Federal Officer, Brian Epley at MCCEACouncil@mcc.gov or mailed to Millennium Challenge Corporation, Attn: Brian Epley, 1099 14th St. NW, Suite 700, Washington, DC 20005.

FOR FURTHER INFORMATION CONTACT: Brian Epley, 202.772.6515, MCCEACouncil@mcc.gov or visit www.mcc.gov/about/org-unit/economic-advisory-council.

SUPPLEMENTARY INFORMATION: The EAC serves MCC in a solely advisory capacity and provides advice and guidance to economists, evaluators, leadership of the Department of Policy and Evaluation (DPE), and senior MCC leadership regarding relevant trends in development economics, applied economic and evaluation methods, poverty analytics, as well as modeling, measuring, and evaluating development interventions, including without limitation social and gender inclusion. In doing so, an overarching purpose of the EAC is to sharpen MCC's analytical methods and capacity in support of continuing development effectiveness. It also serves as a sounding board and reference group for assessing and advising on strategic policy innovations and methodological directions at MCC.

The EAC focuses on issues related to the analytical products and strategy used as inputs to compact and threshold program development and decision making, on learning from MCC
