B. Need and Uses

Federal Acquisition Regulation (FAR) 52.203–7, Anti-Kickback Procedures, requires that all contractors have in place and follow reasonable procedures designed to prevent and detect in its own operations and direct business relationships, violations of 41 U.S.C. chapter 87, Kickbacks. Whenever prime contractors or subcontractors have reasonable grounds to believe that a violation of the statute may have occurred, they are required to report the possible violation in writing to the contracting agency inspector general, the head of the contracting agency if an agency does not have an inspector general, or the Department of Justice. The information is used to determine if any violations of the statute have occurred.

There is no Governmentwide data collection process or system which identifies the number of alleged violations of 41 U.S.C. chapter 87, Kickbacks, that are reported annually to agency inspectors general, the heads of the contracting agency if an agency does not have an inspector general, or the Department of Justice.
