II. Current Actions

The Museum Grants for African American History and Culture (AAHC) program is one of these six OIMLS Office of Museum Services (OMS) grant programs, and it was created by an Act of Congress in 2003—the same act that created the Smithsonian National Museum of African American History and Culture. This legislation directed IMLS to create a grant program to improve operations, care of collections, and development of professional management at African American museums. Now in its 13th year of funding grants, AAHC funds projects that nurture museum professionals; builds institutional capacity; and increases access to museum and archival collections at African American museums and Historically Black Colleges and Universities (HBCUs). Museums of all sizes and geographic areas whose primary purpose, as reflected in their mission is African American art, life, history, and culture, are eligible to apply for an AAHC grant.

The agency now seeks to undertake a systematic assessment to evaluate the performance of the AAHC grant program. The proposed evaluation approach is intended to provide a reasonable balance between scientific considerations for valid and reliable evidence with stakeholder utilization of the acquired knowledge. This investigation is tended to inform IMLS decision-making for current and future grant-making in this grant program, as well as for practices in this segment of the museum sector.

This action is to create the survey forms and instructions for the assessment for the next three years.

II. Current Actions

Pursuant to Public Law 107–279, this State Library Administrative Agencies Survey has been conducted by the Institute of Museum and Library Services under the clearance number 3137–0072, which expires 01/31/2020.

State Library Administrative Agencies (“SLAAs”) are the official agencies of each state charged by state law with the extension and development of public library services throughout the state (20 U.S.C. 9122.) The purpose of this survey is to provide state and federal policymakers with information about SLAAs, including their governance, allied operations, developmental services to libraries and library systems, support of electronic information networks and resources, number and types of outlets, and direct services to the public. Through the FY 2010 collection, the SLAA Survey was conducted annually; beginning with the FY 2012 collection, the survey is conducted biennially. Because the FY 2020 collection will not begin until early 2021, we are carrying over the documentation and estimated burden associated with the FY 2018 data.

This action is to create the survey forms and instructions for the assessment for the next three years.
