SUPPLEMENTARY INFORMATION: The CISA ISD Office of Bombing Prevention (OBP) has a leading role in implementation of the national counter-IED policy, articulated through Presidential Policy Directive 17 (PPD–17) Countering IEDs), serving as the Deputy Administrator of the federal interagency Joint Program Office for Countering Improvised

Explosive Devices (JPO C–IED) and working in close collaboration with the White House National Security Council. The JPO C–IED coordinates and tracks Federal government progress in building national counter-IED capabilities. OBP also leads the DHS in implementation of the national counter-IED policy, serving as the DHS Counter-IED Program Management Office and chairing the DHS IED Working Group.

OBP is instrumental in aligning DHS and national counter-IED efforts through centralized and effective coordination of ongoing programs with national policy and strategy goals, resulting in better resource allocation within OBP and across DHS and our Federal, state, local, tribal, territorial and private sector partners.

TRIPwire (Technical Resource for Incident Prevention) is the DHS online, collaborative information-sharing network for bomb technicians, first responders, military personnel, government officials, intelligence analysts, and select private sector security professionals to increase awareness of evolving IED tactics, techniques, and procedures, as well as incident lessons learned and counter-IED preparedness information.

Users from Federal, State, local, and tribal government entities, as well as business and/or other for-profit industries, can elect to register for TRIPwire access. The TRIPwire portal contains sensitive information related to terrorist use of explosives and therefore user information is needed to verify eligibility and access to the system.

There are three main instruments within this collection: TRIPwire User Registrations, TRIPwire Revalidations, and TRIPwire Questionnaire. The information collected during the TRIPwire user registration process is reviewed electronically by the OBP to validate the user's “need to know,” which determines their eligibility for and access to TRIPwire. OBP verifies users need for access by confirming that a valid email address is used to register and checking employment references.

Annually, users are revalidated based on the information provided during their registration. For revalidation, users and employment references receive a system generated email to validate that access is still required and their information is still accurate.

OBP sends registered users a quarterly questionnaire seeking feedback as to how registrants use TRIPwire information, products, and tools. OBP uses the information collected during a quarterly questionnaire to review and improve the effectiveness and adequacy
