

for west coast States such as California, Oregon, and Washington, following a major earthquake. The CDL Program provides operational funding to help local governments that have incurred a significant loss in revenue, due to a major disaster, that has or will adversely affect their ability to provide essential municipal services. Local governments within a declared disaster area are eligible to apply for loans through the CDL program if they suffer a substantial loss of tax and other revenues for the current or succeeding fiscal year. Communities affected by major earthquakes, or any other Federally declared major disasters, that meet the eligibility criteria may apply for loans through the CDL program.

The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

Collection of Information

Title: Community Disaster Loan (CDL) Program.

Type of information collection: Revision of a currently approved information collection.

OMB Number: 1660-0083.

Form Titles and Numbers: FEMA Form 090-0-4, Letter of Application; FEMA Form 090-0-1, Certification of Eligibility for Community Disaster Loans; FEMA Form 116-0-1, Promissory Note; FEMA Form 085-0-1, Local Government Resolution—Collateral Security; FEMA Form 112-0-3c, Certification Regarding Lobbying; FEMA Form 009-0-15, Application for Loan Cancellation.

Abstract: The loan package for the CDL Program provides Local governments that have suffered substantial loss of tax or other revenues as a result of a major disaster or emergency, the opportunity to obtain financial assistance in order to perform their governmental functions. The loan must be justified on the basis of need and actual expenses.

Affected Public: State, local or Tribal Government.

Estimated Number of Respondents: 360.

Estimated Number of Responses: 360.

Estimated Total Annual Burden

Hours: 1,006.67 hours.

Estimated Total Annual Respondent Cost: \$53,937.11.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$1,022,264.28.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

William H. Holzerland,

Sr. Director for Information Management, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111-19-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2019-0002]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: New or modified Base (1-percent annual chance) Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, and/or regulatory floodways (hereinafter referred to as flood hazard determinations) as shown on the indicated Letter of Map Revision (LOMR) for each of the communities listed in the table below are finalized. Each LOMR revises the Flood Insurance Rate Maps (FIRMs), and in some cases the Flood Insurance Study (FIS) reports, currently in effect for the listed communities. The flood hazard determinations modified by each LOMR will be used to calculate flood insurance premium rates for new buildings and their contents.

DATES: Each LOMR was finalized as in the table below.

ADDRESSES: Each LOMR is available for inspection at both the respective Community Map Repository address listed in the table below and online through the FEMA Map Service Center at <https://msc.fema.gov>.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final flood hazard determinations as shown in the LOMRs for each community listed in the table below. Notice of these modified flood hazard determinations has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Insurance and Mitigation has resolved any appeals resulting from this notification.

The modified flood hazard determinations are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The new or modified flood hazard information is the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to remain qualified for participation in the National Flood Insurance Program (NFIP).

This new or modified flood hazard information, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities.

This new or modified flood hazard determinations are used to meet the floodplain management requirements of

the NFIP and are used to calculate the appropriate flood insurance premium rates for new buildings, and for the contents in those buildings. The changes in flood hazard determinations are in accordance with 44 CFR 65.4.

Interested lessees and owners of real property are encouraged to review the final flood hazard information available at the address cited below for each community or online through the FEMA Map Service Center at <https://msc.fema.gov>.

 BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2019-0041]

Agency Information Collection Activities: Vulnerability Discovery Program

AGENCY: Officer of the Chief Information Security Officer, DHS.

ACTION: 60-Day notice and request for comments; new collection, 1601-NEW.

SUMMARY: The Department of Homeland Security, Office of the Chief Information Security Officer, will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted until October 28, 2019. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: You may submit comments identified by docket number DHS-2019-0041 <http://www.regulations.gov>. Please follow the instructions for submitting comments.

SUPPLEMENTARY INFORMATION: Security vulnerabilities, defined in section 102(17) of the Cybersecurity Information Sharing Act of 2015, are any attribute of hardware, software, process, or procedure that could enable or facilitate the defeat of a security control. Security vulnerability mitigation is a process starting with discovery of the vulnerability leading to applying some solution to resolve the vulnerability. There is constantly a search for security vulnerabilities within information systems, from individuals or nation states wishing to bypass security controls to gain invaluable information,

to researchers seeking knowledge in the field of cyber security. Bypassing such security controls in the DHS information systems can cause catastrophic damage including but not limited to loss in Personally Identifiable Information (PII), sensitive information gathering, and data manipulation.

Pursuant to section 101 of the Strengthening and Enhancing Cybercapabilities by Utilizing Risk Exposure Technology Act commonly known as the SECURE Technologies Act individuals, organizations, and companies will be able to submit discovered security vulnerabilities on the Department of Homeland Security (DHS) Information Systems. This collection would be used by these individuals, organizations, and companies who choose to submit a discovered vulnerability in the information system of the DHS.

The form will include the following essential information:

- Vulnerable host(s)
- Necessary information for reproducing the security vulnerability
- Remediation or suggestions for remediation of the vulnerability
- Potential impact on host, if not remediated

This form will allow the DHS to do two things (1) allow the individuals, organizations, and companies who discover vulnerabilities in the information systems of DHS to report their findings to the DHS. (2) give DHS first insight into newly discovered vulnerabilities, as well as zero-day vulnerabilities in order to mitigate the security issues prior to malicious actors acting on the vulnerability for malicious intent. The form will benefit researchers as it will provide a safe and lawful way for them to practice and discover new skills while discovering the vulnerabilities. Meanwhile, it will provide the same benefit to the DHS, in addition to enhanced information

system security following the vulnerability mitigation.

Respondents will be able to fill the form out online at <https://www.dhs.gov> and submit it thereafter. Links to the form will also be available at any of the DHS components websites (<https://www.tsa.gov/>, <https://www.ice.gov/>, etc.).

The collection of this information regarding to discovered security vulnerabilities by individuals, organizations, and companies is needed to fulfil the congressional mandate in Section 101 of the SECURE Technologies Act regarding a Vulnerability Disclosure Policy. In addition, without the ability to collect information on newly discovered security vulnerabilities in DHS information systems, the DHS will rely solely on the internal security personnel and or discovery through post occurrence of such a breach on security controls.

The is new collection.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
