Animal and Plant Health Inspection Service

Title: Horse Protection Regulations.
OMB Control Number: 0579-0056.

Summary of Collection: In 1970, Congress passed the Horse Protection Act (HPA, 15 U.S.C. 1821 *et seq.*), which was enacted to prevent showing, exhibiting, selling, or auctioning of “sore” horses, and certain transportation of sore horses in connection therewith, at horse shows, horse exhibitions, horse sales, and horse auctions. Soring is a process whereby chemical or mechanical agents, or a combination thereof, are applied to the limbs of a horse in order to exaggerate its gait. A “sore” horse is one that has been subjected to prohibited practices and, as a result, suffers, or can reasonably be expected to suffer, physical pain or distress, inflammation, or lameness when walking, trotting or otherwise moving. A horse that is “sore” is prohibited from entering or participating in HPA-regulated events because exhibitors, owners, and trainers of such horse may obtain unfair advantage over individuals exhibiting horses that are not “sore.”

Need and Use of the Information: To carry out the Act, the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) administers and enforces the regulations in 9 CFR part 11. Part 11 delineates the responsibilities of horse industry organizations (HIOs), designated qualified persons (DQPs), management of regulated horse events, and persons who have control over regulated horses.

An HIO wishing to certify a program to license DQPs to inspect horses for compliance under the HPA must satisfy and abide by the requirements of the HPA and regulations. After requesting and receiving USDA certification from APHIS, HIOs must maintain an acceptable DQP program and recordkeeping systems. Managers and operators of HPA-regulated events may appoint and retain the services of DQPs to inspect and detect a horse that is sore or otherwise noncompliant with the HPA, and both managers and DQPs are required to provide and/or maintain certain information. Persons who own, train, show, exhibit, sell, transport, or

otherwise have custody of, or direction or control over any horse shown, exhibited, sold, or auctioned or entered for the purpose of being shown, exhibited, sold, or auctioned at any horse show, horse exhibition, or horse sale or auction must also satisfy and abide by the requirements of the HPA and regulations.

APHIS works with HIOs on an ongoing basis to oversee their performance under the HPA. Throughout the year, APHIS uses training sessions, conference calls, and open letters to HIOs, event managers, exhibitors, owners, trainers, custodians, and farriers involved in HPA-covered activities to provide communication and feedback to address issues and strengthen enforcement under the Act. Data collected throughout the year from within APHIS and from the HIOs and event management provide an account of the HIOs’ performance and progress toward eliminating the soring of horses and promoting fair competition. HIOs, through their certified licensing programs for DQPs, provide the primary means of detecting sored horses.

Description of Respondents: Business or other for-profit; Individuals and households.

Number of Respondents: 2,004.

Frequency of Responses: Recordkeeping; Reporting.

Total Burden Hours: 3,374.
