RUS has determined that its action regarding the proposed Project would be an undertaking subject to review under Section 106 of the National Historic Preservation Act (Section 106), and its implementing regulations, "Protection of Historic Properties." As part of its broad environmental review process, RUS must consider the effect of the proposed Project on historic properties in accordance with Section 106. Pursuant to 36 CFR 800.2(d)(3), RUS is using its procedures for public involvement under NEPA to meet its responsibilities to solicit and consider the views of the public during Section 106 review. Accordingly, comments submitted in response to this Notice will inform RUS decision-making in its Section 106 review process. Any party wishing to participate more directly with RUS as a "consulting party" in Section 106 review may submit a written request to the RUS contact provided in this Notice.

Agency Responsibilities: RUS is serving as the lead agency, as defined at 40 CFR 1501.5, for preparation of the Supplemental Draft EIS. The U.S. Army Corps of Engineers and the U.S. Forest Service are participating as cooperating agencies and may issue separate Records of Decision relevant to the

Project under separate authorities. For the U.S. Forest Service, a draft Record of Decision would be subject to the Agency's administrative review process at 36 CFR part 218, subparts A and B. The U.S. Forest Service may need to issue a special use permit to authorize occupancy of National Forest System lands for this proposal. Per 40 CFR 1506.3, the U.S. Forest Service intends to review and adopt the Final EIS, if found sufficient, in support of issuance of a special use permit.

Public Participation: The EIS process has included past scoping meetings and comment periods; consultation and involvement with appropriate Federal, State, local, and tribal governments; and a public meeting and comment period on the Draft EIS issued in 2014. The date(s) and time for a public meeting will be announced in local newspapers and published on the agency's website at: <https://www.rd.usda.gov/publications/environmental-studies/impact-statements/mccllellanville-115kv-transmission-line>. Attendees are welcome to attend any public meetings and to provide written or oral comments on the Project. A court reporter will be present. The process will be followed by publication of a Final EIS and publication of a Record of Decision.
