

guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves two safety zones lasting 38 hours and 20 minutes that prevent entry to two 420-foot radius areas. It is categorically excluded from further review under paragraph L60(a) in Table 3–1 of Department of Homeland Security Directive 023–01. A Record of Environmental Consideration supporting this determination is available in the docket where indicated under **ADDRESSES**.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

- 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C 70034, 70051; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

- 2. Add § 165.T11–994 to read as follows:

§ 165.T11–994 Safety Zone; 2019 Monte Labor Day Fireworks Display, Carnelian Bay, Carnelian Bay, CA.

(a) *Location.* The following areas are safety zones around two separate fireworks barges: From 7 a.m. on August 31, 2019, to 8 p.m. on September 1, 2019, all navigable waters of Carnelian Bay, from surface to bottom, within two circles formed by connecting all points 100 feet out from each of the two fireworks barges during their loading and staging at the Lake Forest boat ramp in Tahoe City, as well as during transit and arrival to the display location in Carnelian Bay, CA. Between 8 p.m. on September 1, 2019 and 9:20 p.m. on

September 1, 2019, both of the safety zones will expand to all navigable waters, from surface to bottom, within two circles formed by connecting all points 420 feet out from each fireworks barge in approximate positions 39°13′17.76″ N, 120°4′47.64″ W (NAD 83) and 39°13′20.22″ N, 120°4′43.44″ W (NAD 83).

(b) *Definitions.* As used in this section, “designated representative” means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel or a Federal, State, or local officer designated by or assisting the Captain of the Port San Francisco (COTP) in the enforcement of the safety zones.

(c) *Regulations.* (1) Under the general safety zones regulations in § 165.23, you may not enter the safety zones described in paragraph (a) of this section unless authorized by the COTP or the COTP’s designated representative.

(2) The safety zones are closed to all vessel traffic, except as may be permitted by the COTP or the COTP’s designated representative.

(3) Vessel operators desiring to enter or operate within the safety zones must contact the COTP or the COTP’s designated representative to obtain permission to do so. Vessel operators given permission to enter or operate in the safety zones must comply with all lawful orders or directions given to them by the COTP or the COTP’s designated representative. Persons and vessels may request permission to enter the safety zones on VHF–23A or through the 24-hour Command Center at telephone (415) 399–3547.

(d) *Information broadcasts.* The COTP or the COTP’s designated representative will notify the maritime community of periods during which these zones will be enforced in accordance with § 165.7.

Dated: August 23, 2019.

Howard H. Wright,

Captain, U.S. Coast Guard, Alternate Captain of the Port, San Francisco.

BILLING CODE 9110–04–P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

37 CFR Part 1

[Docket No. PTO–P–2019–0020]

RIN 0651–AD39

Increase of the Annual Limit on Accepted Requests for Track I Prioritized Examination

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Interim rule.

SUMMARY: The Leahy-Smith America Invents Act (America Invents Act) includes provisions for prioritized examination of patent applications, which have been implemented by the United States Patent and Trademark Office (USPTO or Office) in previous rulemakings. The America Invents Act provides that the Office may not accept more than 10,000 requests for prioritization in any fiscal year (October 1 to September 30) until regulations are prescribed setting another limit. This interim rule expands the availability of prioritized examination by increasing the limit on the number of prioritized examination requests that may be accepted in a fiscal year from 10,000 to 12,000.

DATES: *Effective Date:* September 3, 2019.

Applicability Date: The limit of 12,000 granted requests for prioritized examination per year becomes effective for fiscal year 2019.

Comment Deadline Date: Written comments must be received on or before November 4, 2019.

ADDRESSES: Comments should be sent by email addressed to: AD39.comments@uspto.gov. Comments also may be submitted by postal mail addressed to: Mail Stop Comments—Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313–1450, marked to the attention of Kery Fries, Senior Legal Advisor, Office of Patent Legal Administration.

Comments further may be sent via the Federal eRulemaking Portal. Visit the Federal eRulemaking Portal website (<http://www.regulations.gov>) for additional instructions on providing comments via the Federal eRulemaking Portal.

Although comments may be submitted by postal mail, the Office prefers to receive comments by email. Emailed comments are preferred to be submitted in plain text, but also may be submitted in ADOBE® portable

document format or MICROSOFT WORD® format. Comments not submitted by email or via the Federal eRulemaking Portal should be submitted on paper in a format that facilitates convenient digital scanning into ADOBE® portable document format.

The comments will be available for viewing via the Office's internet website (<https://www.uspto.gov/patent/laws-and-regulations/comments-public-response-specific-requests-uspto>). Because comments will be made available for public inspection, information that the submitter does not desire to make public, such as an address or phone number, should not be included in the comments.

FOR FURTHER INFORMATION CONTACT: Kery Fries, Senior Legal Advisor, Office of Patent Legal Administration, at (571) 272-7757, or Parikha Mehta, Legal Advisor, Office of Patent Legal Administration, at (571) 272-3248.

SUPPLEMENTARY INFORMATION:

Executive Summary: Purpose: This interim rule expands prioritized examination (“Track I”) practice to increase the number of applications that may be accorded prioritized examination in a fiscal year.

Summary of Major Provisions: The prioritized examination provisions (37 CFR 1.102(e)) currently provide that a request for prioritized examination may be filed with an original utility or plant nonprovisional application under 35 U.S.C. 111(a). The America Invents Act provides that the Office may not accept more than 10,000 requests for prioritization in any fiscal year until regulations are prescribed setting another limit. This interim rule increases the limit on the number of prioritized examination requests that may be accepted in a fiscal year from 10,000 to 12,000.

Costs and Benefits: This rulemaking is not economically significant under Executive Order 12866 (Sept. 30, 1993).

Background: Section 11(h) of the America Invents Act provides for prioritized examination of an application. See Public Law 112–29, 125 Stat. 284, 324 (2011). Section 11(h)(1)(B)(i) of the America Invents Act also provides that the Office may by regulation prescribe conditions for acceptance of a request for prioritized examination, and section 11(h)(1)(B)(iii) provides that “[t]he Director may not accept in any fiscal year more than 10,000 requests for prioritization until regulations are prescribed under this subparagraph setting another limit.” *Id.*

The Office implemented the prioritized examination provision of the America Invents Act for applications on

filing (referred to as “Track I”) in a final rule published on September 23, 2011.

See *Changes to Implement the Prioritized Examination Track (Track I) of the Enhanced Examination Timing Control Procedures Under the Leahy-Smith America Invents Act*, 76 FR 59050 (Sept. 23, 2011) (codified in 37 CFR 1.102(e)). Following its implementation, the Office improved its processes for carrying out prioritized examination and expanded the scope of prioritized examination in view of those improvements. First, the Office implemented prioritized examination for pending applications after the filing of a proper request for continued examination under 35 U.S.C. 132(b) and 37 CFR 1.114. See *Changes to Implement the Prioritized Examination for Requests for Continued Examination*, 76 FR 78566 (Dec. 19, 2011). Next, the prioritized examination procedures further expanded to permit delayed submission of certain filing requirements while maintaining the Office's ability to timely examine the patent application. See *Changes to Permit Delayed Submission of Certain Requirements for Prioritized Examination*, 79 FR 12386 (Mar. 5, 2014).

The number of requests for prioritized examination has increased steadily over the last few years to the point that the Office will reach the limit of 10,000 requests for prioritized examination that may be accepted (granted) in any fiscal year if the limit is not increased. Through continued monitoring of the implementation of the Track I program, the Office has determined that the program may be further expanded to permit more applications to undergo prioritized examination while maintaining the ability to timely examine all prioritized applications. Quality metrics used by the Office reveal no loss in examination quality for applications given prioritized examination. In addition, the number of applications accepted for prioritized examination will remain a small fraction of the patent examinations completed in a fiscal year (the Office examines approximately 650,000 applications and requests for continued examination in total per fiscal year). Accordingly, the Office is expanding the availability of prioritized examination by increasing the limit on the number of prioritized examination requests that may be accepted in a fiscal year from 10,000 to 12,000, beginning in fiscal year 2019 (October 1, 2018, through September 30, 2019) and continuing every fiscal year thereafter until further notice.

Discussion of Specific Rules

The following is a discussion of the amendments to title 37 of the Code of Federal Regulations, part 1.

Section 1.102: Section 1.102(e) is revised to increase the limit on the total number of requests for prioritized examination that may be accepted (granted) in any fiscal year from 10,000 to 12,000.

Rulemaking Considerations

A. Administrative Procedure Act: This interim rule revises the procedures that apply to applications for which an applicant has requested Track I prioritized examination. The changes in this interim rule do not change the substantive criteria of patentability. Therefore, the changes in this rulemaking involve rules of agency practice and procedure, and/or interpretive rules. See *JEM Broad. Co. v. F.C.C.*, 22 F.3d 320, 326 (D.C. Cir. 1994) (“[T]he ‘critical feature’ of the procedural exception [in 5 U.S.C. 553(b)(A)] ‘is that it covers agency actions that do not themselves alter the rights or interests of parties, although [they] may alter the manner in which the parties present themselves or their viewpoints to the agency.’” (quoting *Batterton v. Marshall*, 648 F.2d 694, 707 (D.C. Cir. 1980))); see also *Bachow Commc'ns Inc. v. F.C.C.*, 237 F.3d 683, 690 (D.C. Cir. 2001) (rules governing an application process are procedural under the Administrative Procedure Act); *Inova Alexandria Hosp. v. Shalala*, 244 F.3d 342, 350 (4th Cir. 2001) (rules for handling appeals were procedural where they did not change the substantive standard for reviewing claims). Accordingly, prior notice and opportunity for public comment are not required pursuant to 5 U.S.C. 553(b) or (c) (or any other law). See *Cooper Techs. Co. v. Dudas*, 536 F.3d 1330, 1336–37 (Fed. Cir. 2008) (stating that 5 U.S.C. 553, and thus 35 U.S.C. 2(b)(2)(B), does not require notice and comment rulemaking for “interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice” (quoting 5 U.S.C. 553(b)(A)). In addition, the changes in this interim rule may be made immediately effective because this interim rule is not a substantive rule under 35 U.S.C. 553(d). Moreover, the Office, pursuant to authority at 5 U.S.C. 553(b)(B), finds good cause to adopt the changes in this interim rule without prior notice and an opportunity for public comment, as such procedures would be contrary to the public interest. Delay in the promulgation of this interim rule to provide prior notice and comment

procedures would cause harm to those applicants who desire to file a request for Track I prioritized examination with a new application or request for continued examination. Immediate implementation of the changes in this interim rule is in the public interest because: (1) The public does not need time to conform its conduct as the changes in this interim rule do not add any additional requirement for requesting prioritized examination of an application; and (2) those applicants who would otherwise be ineligible for prioritized examination will benefit from the immediate implementation of the changes in this interim rule. See *Nat'l Customs Brokers & Forwarders Ass'n of Am., Inc. v. United States*, 59 F.3d 1219, 1223–24 (Fed. Cir. 1995). In addition, pursuant to authority at 5 U.S.C. 553(d)(1), the changes in this interim rule may be made immediately effective because they relieve restrictions in the requirements for requesting prioritized examination of an application.

B. Regulatory Flexibility Act: As prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553, or any other law, neither a regulatory flexibility analysis nor a certification under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) is required. See 5 U.S.C. 603.

C. Executive Order 12866 (Regulatory Planning and Review): This rulemaking has been determined to be not significant for purposes of Executive Order 12866 (Sept. 30, 1993).

D. Executive Order 13563 (Improving Regulation and Regulatory Review): The Office has complied with Executive Order 13563 (Jan. 18, 2011). Specifically, the Office has, to the extent feasible and applicable: (1) Made a reasoned determination that the benefits justify the costs of the rule; (2) tailored the rule to impose the least burden on society consistent with obtaining the regulatory objectives; (3) selected a regulatory approach that maximizes net benefits; (4) specified performance objectives; (5) identified and assessed available alternatives; (6) involved the public in an open exchange of information and perspectives among experts in relevant disciplines, affected stakeholders in the private sector, and the public as a whole, and provided on-line access to the rulemaking docket; (7) attempted to promote coordination, simplification, and harmonization across Government agencies and identified goals designed to promote innovation; (8) considered approaches that reduce burdens and maintain flexibility and freedom of choice for the public; and (9) ensured the objectivity of

scientific and technological information and processes.

E. Executive Order 13771 (Reducing Regulation and Controlling Regulatory Costs): This rulemaking is not an Executive Order 13771 (Jan. 30, 2017) regulatory action because the rulemaking is not significant under Executive Order 12866 (Sept. 30, 1993).

F. Executive Order 13132 (Federalism): This rulemaking does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 13132 (Aug. 4, 1999).

G. Executive Order 13175 (Tribal Consultation): This rulemaking will not: (1) Have substantial direct effects on one or more Indian tribes; (2) impose substantial direct compliance costs on Indian tribal governments; or (3) preempt tribal law. Therefore, a tribal summary impact statement is not required under Executive Order 13175 (Nov. 6, 2000).

H. Executive Order 13211 (Energy Effects): This rulemaking is not a significant energy action under Executive Order 13211 because this rulemaking is not likely to have a significant adverse effect on the supply, distribution, or use of energy. Therefore, a Statement of Energy Effects is not required under Executive Order 13211 (May 18, 2001).

I. Executive Order 13783 (Promoting Energy Independence and Economic Growth): This rulemaking does not potentially burden the development or use of domestically produced energy resources, with particular attention to oil, natural gas, coal, and nuclear energy resources under Executive Order 13783 (Mar. 28, 2017).

J. Executive Order 13772 (Core Principles for Regulating the United States Financial System): This rulemaking does not involve regulation of the United States financial system under Executive Order 13772 (Feb. 3, 2017).

K. Executive Order 12988 (Civil Justice Reform): This rulemaking meets applicable standards to minimize litigation, eliminate ambiguity, and reduce burden as set forth in sections 3(a) and 3(b)(2) of Executive Order 12988 (Feb. 5, 1996).

L. Executive Order 13045 (Protection of Children): This rulemaking does not concern an environmental risk to health or safety that may disproportionately affect children under Executive Order 13045 (Apr. 21, 1997).

M. Executive Order 12630 (Taking of Private Property): This rulemaking will not effect a taking of private property or otherwise have taking implications

under Executive Order 12630 (Mar. 15, 1988).

N. Congressional Review Act: Under the Congressional Review Act provisions of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801–808), the United States Patent and Trademark Office will submit a report containing any final rule resulting from this rulemaking and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the Government Accountability Office.

O. Unfunded Mandates Reform Act of 1995: The changes set forth in this rulemaking do not involve a Federal intergovernmental mandate that will result in the expenditure by State, local, and tribal governments, in the aggregate, of 100 million dollars (as adjusted) or more in any one year, or a Federal private sector mandate that will result in the expenditure by the private sector of 100 million dollars (as adjusted) or more in any one year, and will not significantly or uniquely affect small governments. Therefore, no actions are necessary under the provisions of the Unfunded Mandates Reform Act of 1995. See 2 U.S.C. 1501 *et seq.*

P. National Environmental Policy Act: This rulemaking will not have any effect on the quality of the environment and is thus categorically excluded from review under the National Environmental Policy Act of 1969. See 42 U.S.C. 4321 *et seq.*

Q. National Technology Transfer and Advancement Act: The requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) are not applicable because this rulemaking does not contain provisions which involve the use of technical standards.

R. Paperwork Reduction Act: The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) requires that the Office consider the impact of paperwork and other information collection burdens imposed on the public. This interim rule involves information collection requirements which are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3549). An applicant who wishes to participate in the prioritized examination program must submit a certification and request to participate in the prioritized examination program, preferably by using Form PTO/AIA/424. OMB has determined that, under 5 CFR 1320.3(h), Form PTO/AIA/424 does not collect “information” within the meaning of the Paperwork Reduction Act of 1995. This rulemaking does not impose any

additional collection requirements under the Paperwork Reduction Act which are subject to further review by OMB.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number.

List of Subjects in 37 CFR Part 1

Administrative practice and procedure, Biologics, Courts, Freedom of information, Inventions and patents, Reporting and recordkeeping requirements, Small businesses.

For the reasons set forth in the preamble, 37 CFR part 1 is amended as follows:

PART 1—RULES OF PRACTICE IN PATENT CASES

■ 1. The authority citation for 37 CFR part 1 continues to read as follows:

Authority: 35 U.S.C. 2(b)(2), unless otherwise noted.

■ 2. Section 1.102 is amended by revising the introductory text of paragraph (e) to read as follows:

§ 1.102 Advancement of examination.

* * * * *

(e) A request for prioritized examination under this paragraph (e) must comply with the requirements of this paragraph (e) and be accompanied by the prioritized examination fee set forth in § 1.17(c), the processing fee set forth in § 1.17(i), and if not already paid, the publication fee set forth in § 1.18(d). An application for which prioritized examination has been requested may not contain or be amended to contain more than four independent claims, more than thirty total claims, or any multiple dependent claim. Prioritized examination under this paragraph (e) will not be accorded to international applications that have not entered the national stage under 35 U.S.C. 371, design applications, reissue applications, provisional applications, or reexamination proceedings. A request for prioritized examination must also comply with the requirements of paragraph (e)(1) or (2) of this section. No more than 12,000 requests for such prioritized examination will be accepted in any fiscal year.

BILLING CODE 3510-16-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[GA 2018; FRL-9997-86-Region 4]

Air Plan Approval; Georgia; Update to Materials Incorporated by Reference

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; notification of administrative change.

SUMMARY: The Environmental Protection Agency (EPA) is updating the materials that are incorporated by reference (IBR) into the Georgia state implementation plan (SIP). The regulations affected by this update have been previously submitted by Georgia and approved by EPA. This update affects the materials that are available for public inspection at the National Archives and Records Administration (NARA) and the EPA Regional Office.

DATES: This action is effective September 3, 2019.

ADDRESSES: SIP materials which are incorporated by reference into 40 CFR part 52 are available for inspection at the following locations: Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, GA 30303; and the National Archives and Records Administration. For information on the availability of this material at NARA, call 202-741-6030, or go to: <http://www.archives.gov/federal-register/cfr/ibr-locations.html>. To view the materials at the Region 4 Office, EPA requests that you email the contact listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Richard Wong, Air Regulatory Management Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303-8960. Mr. Wong can be reached by telephone at (404) 562-8726 or via electronic mail at wong.richard@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Each state has a SIP containing the control measures and strategies used to attain and maintain the national ambient air quality standards (NAAQS). The SIP is extensive, containing such elements as air pollution control regulations, emission inventories, monitoring networks, attainment demonstrations, and enforcement mechanisms.

Each state must formally adopt the control measures and strategies in the SIP after the public has had an opportunity to comment on them and then submit the proposed SIP revisions to EPA. Once these control measures and strategies are approved by EPA, and after notice and comment, they are incorporated into the federally-approved SIP and are identified in part 52 "Approval and Promulgation of Implementation Plans," title 40 of the Code of Federal Regulations (40 CFR part 52). The full text of the state regulation approved by EPA is not reproduced in its entirety in 40 CFR part 52, but is "incorporated by reference." This means that EPA has approved a given state regulation or specified changes to the given regulation with a specific effective date. The public is referred to the location of the full text version should they want to know which measures are contained in a given SIP. The information provided allows EPA and the public to monitor the extent to which a state implements a SIP to attain and maintain the NAAQS and to take enforcement action if necessary.

The SIP is a living document which the state can revise as necessary to address the unique air pollution problems in the state. Therefore, EPA from time to time must take action on proposed revisions containing new and/or revised state regulations. A submission from a state can revise one or more rules in their entirety or portions of rules, or even change a single word. The state indicates the changes in the submission (such as, by using redline/strikethrough) and EPA then takes action on the requested changes. EPA establishes a docket for its actions using a unique Docket Identification Number, which is listed in each action. These dockets and the complete submission are available for viewing on www.regulations.gov.

On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference, into the Code of Federal Regulations, materials approved by EPA into each state SIP. These changes revised the format for the identification of the SIP in 40 CFR part 52,
