Due to the REAL ID Act implemented by the Department of Homeland Security (“DHS”), there have been recent changes regarding ID requirements for individuals wishing to enter Federal buildings from specific states and U.S. territories. DHS maintains an updated website identifying the State and territory driver’s licenses that currently are acceptable for entry into DOE facilities at <https://www.dhs.gov/real-id-enforcement-brief>. Acceptable alternate forms of Photo-ID include a U.S. Passport or Passport Card; an Enhanced Driver’s License or Enhanced ID-Card

The request and advance copy of statements must be received at least one week before the public meeting and may be emailed, hand-delivered, or sent by mail. DOE prefers to receive requests and advance copies via email. Please include a telephone number to enable DOE staff to make a follow-up contact, if needed.

D. Conduct of Public Meeting

DOE will designate a DOE official to preside at the public meeting and may also use a professional facilitator to aid discussion. The meeting will not be a judicial or evidentiary-type public hearing, but DOE will conduct it in accordance with section 336 of the Energy Policy and Conservation Act, as amended (42 U.S.C. 6306). A court reporter will be present to record the proceedings and prepare a transcript. DOE reserves the right to schedule the order of presentations and to establish the procedures governing the conduct of the public meeting. After the public meeting and until the end of the comment period, interested parties may submit further comments on the proceedings and any aspect of the rulemaking.

The public meeting will be conducted in an informal, conference style. DOE will present summaries of comments received before the public meeting, allow time for prepared general statements by participants, and encourage all interested parties to share their views on issues affecting this rulemaking. Each participant will be allowed to make a general statement (within time limits determined by DOE), before the discussion of specific topics. DOE will permit, as time permits, other participants to comment briefly on any general statements.

At the end of all prepared statements on a topic, DOE will permit participants

to clarify their statements briefly and comment on statements made by others. Participants should be prepared to answer questions by DOE and by other participants concerning these issues. DOE representatives may also ask questions of participants concerning other matters relevant to this rulemaking. The official conducting the public meeting will accept additional comments or questions from those attending, as time permits. The presiding official will announce any further procedural rules or modification of the above procedures that may be needed for the proper conduct of the public meeting.

A transcript of the public meeting will be included in the docket, which can be viewed as described in the Docket section at the beginning of this document. In addition, any person may buy a copy of the transcript from the transcribing reporter.

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 337

RIN 3064-AF02

Interest Rate Restrictions on Institutions That Are Less Than Well Capitalized

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of proposed rulemaking.

SUMMARY: The FDIC is seeking comment on proposed revisions to its regulations relating to interest rate restrictions that apply to less than well capitalized insured depository institutions. Under the proposed rule, the FDIC would amend the methodology for calculating the national rate and national rate cap for specific deposit products. The national rate would be the weighted average of rates paid by all insured depository institutions on a given deposit product, for which data are available, where the weights are each institution's market share of domestic deposits. The national rate cap for particular products would be set at the higher of the 95th percentile of rates paid by insured depository institutions weighted by each institution's share of

total domestic deposits, or the proposed national rate plus 75 basis points. The proposed rule would also greatly simplify the current local rate cap calculation and process by allowing less than well capitalized institutions to offer up to 90 percent of the highest rate paid on a particular deposit product in the institution's local market area.
