

FOR FURTHER INFORMATION CONTACT: Dr. Jim Seger, Pacific Council; telephone: (503) 820-2416.

SUPPLEMENTARY INFORMATION: At its meeting, the SaMTAAC will continue to develop alternatives that address obstacles to achieving the goals and objectives of the groundfish trawl catch share plan related to under-attainment of non-sablefish shore based trawl allocations. The SaMTAAC's work on alternatives will be presented at the November 2019 Pacific Council meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, (kris.kleinschmidt@noaa.gov; (503) 820-2411), at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 9, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XV066

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will convene a meeting to discuss issues related to management and science of the central subpopulation of northern anchovy (CSNA). This meeting will include representatives from the Pacific

Council's Coastal Pelagic Species Management Team (CPSMT), the Coastal Pelagic Species Advisory Subpanel (CPSAS), the Scientific and Statistical Committee (SSC), and the National Oceanic and Atmospheric Administration (NOAA) Southwest Fisheries Science Center (SWFSC). This meeting is open to the public.

DATES: The meeting will be held Thursday, October 3 and Friday, October 4, 2019. The meeting will begin at 8:30 a.m. each day and will continue until 5 p.m. or until business for the day has been completed.

ADDRESSES:

Meeting address: The meeting will be held in the Pacific Room of the NOAA Southwest Fisheries Science Center (SWFSC), 8901 La Jolla Shores Drive, La Jolla, CA 92037.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT:

Kerry Griffin, Pacific Council; telephone: (503) 820-2409.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to evaluate options and analyses relative to management of the CSNA, including evaluation of methods for estimating the nearshore component of the stock, options for periodic review of management reference points, and evaluation of elements related to the California Department of Fish and Wildlife/California Wetfish Producers Association aerial survey methodology. Meeting principals will be representatives of the CPSMT, CPSAS, the SSC's CPS Subcommittee, and the NOAA SWFSC.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The public listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Dale Sweetnam (dale.sweetnam@noaa.gov; (858) 546-7170) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 9, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Wilmington Harbor Navigation Improvement Project Integrated Feasibility Study and Environmental Report, New Hanover and Brunswick Counties, NC

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The North Carolina State Ports Authority (NCSPA) has prepared a feasibility study and draft environmental report pursuant to Section 203 of Water Resources Development Act of 1986 (WRDA) that evaluates potential improvements to the Wilmington Harbor federal navigation channel in New Hanover and Brunswick Counties, North Carolina. On June 26th, 2019, the NCSPA submitted the study to the Assistant Secretary of the Army for Civil Works [ASA(CW)] for purposes of review and determining whether the study, and the process under which the study was developed, complies with Federal laws and regulations applicable to feasibility studies for potential water resources development projects. This notice advises the public that the U.S. Army Corps of Engineers (USACE), Wilmington District (Corps), at the direction of the ASA(CW), intends to prepare a Draft Environmental Impact Statement (DEIS) to support the ASA(CW) review of the NCSPA study. The Wilmington Harbor Navigation Improvement Project (WHNIP) DEIS is being prepared in accordance with the requirements of the National Environmental Policy Act (NEPA) of 1969, as amended.

DATES: The earliest the DEIS will be available for public review would be November 2019.

ADDRESSES: U.S. Army Engineer District, Wilmington; 69 Darlington Avenue, Wilmington, North Carolina 28403.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be directed to Emily

Hughes, Environmental Resources Section; U.S. Army Engineer District, Wilmington; 69 Darlington Avenue, Wilmington, North Carolina 28403; telephone: 910-251-4635; email: Emily.b.hughes@usace.army.mil.

SUPPLEMENTARY INFORMATION: (a) Background. The existing Wilmington Harbor federal navigation channel originates offshore and extends approximately 38 miles through the Atlantic Ocean and up the Cape Fear River to the City of Wilmington, NC where it services the Port of Wilmington. The existing project provides for a channel -44 feet Mean Lower Low Water (MLLW) through the ocean bar and entrance channel, changing to -42 feet (MLLW) extending to just downstream of the Cape Fear Memorial Bridge. The Port of Wilmington has experienced significant increases in cargo volume and in the size of vessels calling at the port since the last major channel improvements were completed by the USACE under the Wilmington Harbor 1996 WRDA Project. Due to expansion of the Panama Canal and navigation improvement projects at all other major U.S. East Coast ports, the U.S. East Coast to Asia shipping alliances are currently transitioning to vessels that are substantially larger and more economically efficient than the vessels that the -42-foot channel was designed to accommodate.

Currently authorized channel dimensions at Wilmington Harbor are impacting trade at the Port of Wilmington and are projected to have a greater detrimental impact on trade in the future as ocean carriers continue to transition to larger containerships.

Purpose. The purpose of the proposed project is to accommodate larger cargo vessels and improve the efficiency of cargo vessel operations at Wilmington Harbor and the Port of Wilmington. The proposed navigation improvements would enable the Port of Wilmington to continue as a port-of-call for shipping alliances with direct service to Asian markets.

(b) Alternatives. Structural and non-structural measures are being evaluated to meet planning objectives. Measures that contribute to meeting the planning objectives will be combined to develop alternative plans. Potential harbor improvements under consideration include deepening the existing federal navigational channel to the Port of Wilmington, extending the ocean entrance channel farther offshore, and widening channels in the Cape Fear River where needed. The range of depths being considered is from -44 feet

to -48 feet. Under the No Action alternative, no improvements would be made to the Wilmington Harbor project.

(c) Environmental Impacts. Environmental impacts to be addressed in the DEIS include, but are not limited to: (1) Endangered and threatened species; (2) Marine and estuarine resources; (3) Beach and dune resources; (4) Fish and wildlife and their habitats; (5) Essential Fish Habitat (EFH); (6) Salinity and tidal amplitude; (7) Water quality; (8) Air quality; (9) Socioeconomic resources; (10) Cultural resources; (11) Groundwater; (12) Shoreline erosion; (13) Hazardous, Toxic, and Radioactive Waste (HTRW); (14) Noise; and (15) Socioeconomics.

(d) Scoping. All private parties and Federal, State, and local agencies having an interest in the study are invited to comment at this time. A scoping letter requesting comments on the study will be sent to all known interested parties. All interested parties will be invited to attend a public scoping meeting to be held in Wilmington, NC in September 2019. All comments received as a result of this NOI, the scoping letter, and the scoping meeting will be considered in the preparation of the DEIS.

(e) Authority. Studies of potential navigation improvements to the Wilmington Harbor navigation channel are being conducted under the authority granted by Section 203 of the Water Resources Development Act (WRDA) of 1986 (Pub. L. 99-662), as amended. Section 203 of WRDA 86, as amended, states:

Sec 203. Studies of Projects by Non-Federal Interests.

Public Law 99-662, Nov. 17, 1986. 33 U.S.C. 2231

(a) SUBMISSION TO SECRETARY.

(1) In general. A non-Federal interest may on its own undertake a feasibility study of a proposed water resources development project and submit the study to the Secretary.

(2) Guidelines. To assist non-Federal interests, the Secretary shall, as soon as practicable, issue guidelines for feasibility studies of water resources development projects to provide sufficient information for the formulation of studies.

(b) REVIEW BY SECRETARY—The Secretary shall review each feasibility study received under subsection (a) (1) for the purpose of determining whether or not the study, and the process under which the study was developed, each comply with Federal laws and regulations applicable to feasibility studies of water resources development projects.

(c) SUBMISSION TO CONGRESS—Not later than 180 days after the date of receipt of a feasibility study of a project under subsection (a)(1), the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of representatives a report that describes.

(1) The results of the Secretary's review of the study under subsection (b), including a determination of whether the project is feasible;

(2) Any recommendations the Secretary may have concerning the plan or design of the project; and

(3) Any conditions the Secretary may require for construction of the project.

Dated: September 5, 2019.

R.D. James,

Assistant Secretary of the Army, (Civil Works).

BILLING CODE 3720-58-P

DEPARTMENT OF ENERGY

Fusion Energy Sciences Advisory Committee

AGENCY: Office of Science, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Fusion Energy Sciences Advisory Committee. The Federal Advisory Committee Act requires that public notice of these meetings be announced in the **Federal Register**.

DATES: October 2, 2019; 8:30 a.m. to 5 p.m.

ADDRESSES: Hilton Washington DC/ Rockville Hotel, 1750 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Dr. Samuel J. Barish, Acting Designated Federal Officer, Office of Fusion Energy Sciences (FES); U.S. Department of Energy; Office of Science; 1000 Independence Avenue SW; Washington, DC 20585; Telephone: (301) 903-2917 or email at: sam.barish@science.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to provide advice on a continuing basis to the Director, Office of Science of the Department of Energy, on the many complex scientific and technical issues that arise in the development and implementation of the fusion energy sciences program.

Tentative Agenda Items:

- FES perspective
- FES community: status of its long-range strategic planning activity
