

The agency processes applications by a NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding and, in the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL that details the scope of recognition. These pages are available from the agency's website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

QAI submitted an application, dated August 4, 2017 (OSHA–2013–0017–

0009), to expand their scope of recognition to include ten additional test standards. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application. OSHA published the preliminary notice announcing QAI's expansion application in the **Federal Register** on May 15, 2019 (84 FR 21832). The agency requested comments by May 30, 2019, but it received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of QAI's scope of recognition.

To obtain or review copies of all public documents pertaining to the QAI's application, go to www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration. Docket No.

OSHA–2013–0017 contains all materials in the record concerning QAI's recognition.

II. Final Decision and Order

OSHA staff examined QAI's expansion application, the capability to meet the requirements of the test standards, and other pertinent information. Based on a review of this evidence, OSHA finds that QAI meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitation and conditions listed below. OSHA, therefore, is proceeding with this final notice to grant the expansion of QAI's scope of recognition. OSHA limits the expansion of QAI's scope of recognition to testing and certification of products for demonstration of conformance to the test standards listed below in Table 1.

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN QAI'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 50	Enclosures for Electrical Equipment, Non-Environmental Considerations.
UL 50E	Enclosures for Electrical Equipment, Environmental Considerations.
UL 467	Grounding and Bonding Equipment.
UL 962A	Standard for Furniture Power Distribution Units.
UL 1012	Standard for Power Units Other Than Class 2.
UL 1310	Standard for Class 2 Power Units.
UL 1573	Standard for Stage and Studio Luminaires and Connector Strips.
UL 1951	Standard for Electric Plumbing Accessories.
UL 60950–21	Information Technology Equipment—Safety—Part 21: Remote Power Feeding.
UL 60950–23	Information Technology Equipment—Safety—Part 23: Large Data Storage Equipment.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, the designation of the standards-developing organization for the standard as opposed to the ANSI designation may be used. Under the NRTL Program's policy (see OSHA Instruction CPL 1–0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, QAI must abide by the following conditions of the recognition:

1. QAI must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in the operations as a NRTL, and provide details of the change(s);
2. QAI must meet all the terms of the recognition and comply with all OSHA policies pertaining to this recognition; and
3. QAI must continue to meet the requirements for recognition, including all previously published conditions on QAI's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of QAI, subject to the limitation and conditions specified above.
