Agricultural Marketing Service

[Doc. No. AMS-FGIS-19-0027 E]

Opportunity for Designation in the South Carolina Area

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: The Agricultural Marketing Service (AMS) is temporarily extending the South Carolina Department of Agriculture's (SCDA) designation as

provider of Federal Grain Inspection Service (FGIS) official services for the State of South Carolina, until December 31, 2019. AMS administers FGIS programs.

DATES: This designation is effective September 25, 2019. Interim designation is extended through December 31, 2019.

FOR FURTHER INFORMATION CONTACT:

Jacob Thein, Compliance Officer, FGIS, AMS, USDA, 10383 North Ambassador Drive, Kansas City, MO 64153; phone: (816) 866-2223; or email: FGISQACD@ams.usda.gov.

SUPPLEMENTARY INFORMATION: Section 7(f) of the United States Grain Standards Act (7 U.S.C. 71 *et seq.*) (USGSA) authorizes the Secretary to designate a qualified applicant to provide official grain inspection services in a specified area after determining, among other things, that the applicant is better able than any other applicant to provide such official services (7 U.S.C. 79(f)(1)(B)). Under section 7(g) of the USGSA, designations of official agencies are effective for no longer than five years, unless terminated by the Secretary, and may be renewed according to the criteria and procedures prescribed in section 7(f) of the USGSA.

SCDA is currently designated as interim official inspection service provider for the South Carolina area, pending an AMS designation decision for an official service provider. As announced in the **Federal Register** on June 25, 2019 (84 FR 29839), SCDA's interim designation was scheduled to expire on September 30, 2019. The June 25, 2019, **Federal Register** notice also invited interested persons or governmental agencies to apply for designation as official inspection service provider for the geographic area currently served by SCDA. The application period closed July 25, 2019. AMS received three applications, two from state agencies (SCDA and North Carolina Department of Agriculture), and one from a private agency (D.R. Schaal Agency, Inc.).

AMS has not completed its review of the three applications. AMS, accordingly, requires additional time to complete the review and evaluation of information submitted by the applicants. Therefore, AMS is temporarily extending SCDA's interim designation until December 31, 2019.

Authority: 7 U.S.C. 71-87k.

Dated: September 20, 2019.

Bruce Summers,

Administrator, Agricultural Marketing Service.

Submission for OMB Review; Comment Request

September 19, 2019.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 25, 2019 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@omb.eop.gov or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail

Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: National School Lunch Program.
OMB Control Number: 0584–0006.

Summary of Collection: Section 10 of the Child Nutrition Act of 1966 (42 U.S.C. 1779) requires the Secretary of Agriculture to prescribe such regulations as deemed necessary to carry out this Act and the Richard B. Russell National School Lunch Act (NSLA) (42 U.S.C. 1751 *et seq.*). The NSLA, as amended, authorizes the National School Lunch Program (NSLP) to safeguard the health and well-being of the Nation's children and provide free or reduced-price school lunches to eligible students through subsidies to schools. As required, the Secretary of Agriculture issued 7 CFR part 210, which sets forth policies and procedures for the administration and operation of the NSLP.

Need and Use of the Information:

This ongoing information collection is required to administer and operate this program in accordance with the NSLA. The Program is administered at the State agency and school food authority (SFA)/local education agency (LEA) levels and States, SFAs/LEAs, and schools under this Act are required to keep accounts and records as may be necessary to enable FNS to determine whether the program is in compliance with this Act and the regulations. Program operations include the submission of applications and agreements and monthly reports of program participation and numbers of meals served submitted from monthly claims for reimbursement. Records maintained include documentation of payment of monthly claims, annual data from Program monitoring reviews, and menu and food production records. In addition to reporting and maintaining records, the States and SFAs/LEAs have publication notification requirements as well. State agencies must post summaries of the most recent administrative review results of SFAs on their websites. LEAs must inform the public annually about the content and implementation of local school wellness policies and must conduct triennial

assessments of schools' compliance with the local school wellness policies and inform the public about the progress. FNS uses this information to properly monitor State agency and SFA/LEA compliance.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 115,935.

Frequency of Responses:

Recordkeeping; Reporting; Third party disclosure: On occasion, Quarterly, Monthly, and Annually.

Total Burden Hours: 9,808,439.

Food and Nutrition Service

Title: Generic Clearance for the Development of Nutrition Education Messages and Products for the General Public.

OMB Control Number: 0584–0523.

Summary of Collection: The Food and Nutrition Consumer Service, Center for Nutrition Policy and Promotion (CNPP) of the U.S. Department of Agriculture conducts consumer research to identify key issues of concern related to understanding and use of the *Dietary Guidelines for Americans* (DGA), as well as the tools and resources used to implement the Dietary Guidelines—previously known as the *MyPyramid* food guidance system. The *Dietary Guidelines*, a primary source of dietary health information, are issued jointly by the USDA and Health and Human Services and serve as the cornerstone of Federal nutrition policy and form the basis for nutrition education efforts of these agencies. After the release of the 2010 DGA a new communication initiative built around USDA's new *MyPlate* icon, including the resources at ChooseMyPlate.gov, was launched. *MyPlate* is a visual cue supported by Dietary Guidelines messages to help consumer make better food choices.

Need and use of the Information:

CNPP will collect information to develop practical and meaningful nutrition and physical activity guidance for Americans to help improve their health. The collected information will also be used to expand the knowledge base concerning how the *Dietary Guidelines for Americans* recommendations and messages supporting *MyPlate* are understood and how they can be used by consumers to improve balance of their food intake with physical energy expenditure for good health. If this information is not collected, USDA's ability to incorporate messages and materials that are practical, meaningful, and relevant for the intended audience in any proposed update of the Dietary Guidelines for Americans or related resources at Choosemyplate.gov will be impaired.
