POLICY JUSTIFICATION

Morocco—Sustainment for F-16 Fleet

The Government of Morocco has requested a continuation of sustainment support to its current F-16 fleet to include the following non-MDE components: F-16 support equipment, spares and repair parts; personnel training and training equipment; publications and technical documentation; munitions support equipment (for AMRAAM, CMBRE, JDAM, PAVEWAY), support and test equipment; integration and test; U.S. Government and contractor engineering, technical and logistical support services; and other related elements of logistics and program support. The total

estimated program cost is \$250.4 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a major Non-NATO ally that is an important force for political stability and economic progress in North Africa.

The proposed sale will improve Morocco's self-defense capability. Additionally, the continuation of sustainment for their F-16 fleet strengthens the interoperability with the United States and other regional allies. Morocco already operates an F-16 fleet and this sustainment case will ensure that they can continue operating their fleet in the future. Morocco will have no difficulty absorbing this support into its armed forces.

The proposed sale will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Bethesda, Maryland. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of additional U.S. Government and/or contractor representatives to Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

India – C-17 Sustainment Follow-On Support

The Government of India has requested to buy equipment for C-17 follow-on support, to include spares and repair parts; support equipment; personnel training and training equipment; publications and technical documentation; support and test equipment; U.S. Government and contractor engineering, technical and logistical support services; and other related elements of logistics and program support. The total estimated program cost is \$670 million.

This proposed sale will support the foreign policy and national security of the United States by helping to strengthen the U.S.-Indian strategic relationship and to improve the mobility capabilities of a major defensive partner which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia region.

India needs this follow-on support to maintain its operational readiness and ability to provide Humanitarian Assistance and Disaster Relief (HA/DR) assistance in the region. India will have no difficulty absorbing this support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Boeing Corporation, Chicago, Illinois. There are no known offset agreements proposed in connection with this potential sale, however, the purchaser typically requests offsets. Any offset agreement will be defined in

negotiations between the purchaser and the prime contractor.

Implementation of this proposed sale will require the assignment of one U.S. Government representative and 23 contractor representatives to India.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
