SUPPLEMENTARY INFORMATION:

PRA Approval of Forms Used by Individual Taxpayers

Under the PRA, OMB assigns a control number to each "collection of information" that it reviews and approves for use by an agency. The PRA also requires agencies to estimate the burden for each collection of information. Burden estimates for each control number are displayed in (1) PRA notices that accompany collections of

information, (2) **Federal Register** notices such as this one, and (3) OMB's database of approved information collections.

Taxpayer Burden

Burden is defined as the time and out-of-pocket costs incurred by taxpayers in complying with the Federal tax system and are estimated separately. Out-of-pocket costs include any expenses incurred by taxpayers to prepare and submit their tax returns. Examples include tax return preparation fees, the purchase price of tax preparation software, submission fees, photocopying costs, postage, and phone calls (if not toll-free).

Taxpayer Burden Estimates

Table 1 shows the preliminary burden estimates for individual taxpayers filing 2020 Form 1040, Form 1040NR, Form 1040NR–EZ, Form 1040X, 1040–SR tax return. The estimate is preliminary and reflects only the change in burden from technical adjustments related to updating the number of affected taxpayers to reflect the FY2020 forecast. The estimate will be revised to reflect legislative and regulatory changes since 2018 and further detail about the burden estimates will be provided for the 30-day notice for this FRN.

Reported time and cost burdens are national averages and do not necessarily reflect a "typical" case. Most taxpayers experience lower than average burden, with taxpayer burden varying considerably by taxpayer type.
