## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87126; File No. SR-CboeEDGX-2019-049]

### Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Suspension of and Order Instituting Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change To Amend the Fee Schedule To Adopt a Pricing Structure for EDGX Top Derived Data API Service

September 26, 2019.

#### I. Introduction

On August 1, 2019, Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> a proposed rule change to amend the EDGX fee schedule to adopt a pricing

structure related to the EDGX Top Derived Data API Service (the "Program"). The proposed rule change was immediately effective upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act.<sup>3</sup> The proposed rule change was published for comment in the **Federal Register** on August 19, 2019.<sup>4</sup> The Commission received no comment letters regarding the proposed rule change. Under Section 19(b)(3)(C) of the Act,<sup>5</sup> the Commission is hereby: (i) Temporarily suspending the proposed rule change; and (ii) instituting proceedings to determine whether to approve or disapprove the proposed rule change.

#### II. Description of the Proposed Rule Change

The Exchange proposes to amend its fee schedule to establish a pricing structure for Distributors<sup>6</sup> of Derived Data<sup>7</sup> through an Application Programming Interface ("API"). Currently, the Exchange charges a fee of \$1,500 per month for external distribution of EDGX Top.<sup>8</sup> In addition, external distributors of EDGX Top are charged a fee of \$4 per month for each Professional User and \$0.10 per month for each Non-Professional User.<sup>9</sup> The

<sup>3</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>4</sup> See Securities Exchange Act Release No. 86644 (August 13, 2019), 84 FR 42971 ("Notice").

<sup>5</sup> 15 U.S.C. 78s(b)(3)(C).

<sup>6</sup> A Distributor of an Exchange market data product is any entity that receives the Exchange market data product directly from the Exchange or indirectly through another entity and then distributes it internally or externally to a third party. See EDGX Fee Schedule.

<sup>7</sup> "Derived Data" is pricing data or other data that (i) is created in whole or in part from Exchange data, (ii) is not an index or financial product, and (iii) cannot be readily reverse-engineered to recreate Exchange data or used to create other data that is a reasonable facsimile or substitute for Exchange data. See Notice, *supra* note 4, 84 FR at 42971. The Exchange states that Derived Data is primarily purchased for the creation of certain derivative instruments rather than for the trading of U.S. equity securities. See *id.* at 42972.

<sup>8</sup> EDGX Top is an Exchange proprietary data product that provides top of book quotations and execution information for all equity securities traded on the Exchange. See Notice, *supra* note 4, 84 FR at 42971.

<sup>9</sup> A "Professional User" of an Exchange market data product is any user other than a Non-Professional User. See EDGX Fee Schedule. A "Non-Professional User" of an Exchange market data product is a natural person or qualifying trust that uses data only for personal purposes and not for any commercial purpose and, for a natural person who works in the United States, is not: (i) Registered or qualified in any capacity with the Commission, the Commodities Futures Trading Commission, any state securities agency, any securities exchange or association, or any commodities or futures contract market or association; (ii) engaged as an "investment adviser" as that term is defined in Section 202(a)(11) of the Investment Advisors Act of 1940 (whether or not registered or qualified under that Act); or (iii) employed by a bank or other organization exempt

Exchange currently offers a Derived Data White Label Service<sup>10</sup> that allows Distributors to receive reduced fees when distributing Derived Data taken from EDGX Top. Today, Distributors of Derived Data through an API are liable for the fees normally applicable for the external distribution of EDGX Top, as discussed above.

Under the Exchange's proposal, Distributors would be charged a tiered External Subscriber Fee based on the number of API Service Platforms (*i.e.*, "External Subscribers") that receive Derived Data from the Distributor through the Program. As proposed, Distributors would continue to be charged a fee of \$1,500 per month for each External Subscriber if the Distributor makes Derived Data available to 1-5 External Subscribers. Distributors that make Derived Data available to 6-20 External Subscribers would be charged \$1,250 per month for each External Subscriber. Further, Distributors that make Derived Data available to 21 or more External Subscribers would be charged \$1,000 per month for each External Subscriber. Similar to the Derived Data White Label Service, the External Subscriber Fee under the Program would be non-progressive and based on the number of External Subscribers that receive Derived Data from the Distributor.<sup>11</sup> The Exchange would continue to charge a monthly Professional User fee of \$4 per month for each Professional User that accesses the Program. The Exchange proposes to eliminate the current Non-Professional User fee of \$0.10 per month when participating in the Program.<sup>12</sup>

from registration under federal or state securities laws to perform functions that would require registration or qualification if such functions were performed for an organization not so exempt; or, for a natural person who works outside of the United States, does not perform the same functions as would disqualify such person as a Non-Professional User if he or she worked in the United States. *Id.*

<sup>10</sup> A White Label Service is a type of hosted display solution in which a Distributor hosts or maintains a website or platform on behalf of a third-party entity. See EDGX Fee Schedule. The service allows Distributors to make Derived Data available on a platform that is branded with a third-party brand, or co-branded with a third party and a Distributor. *Id.* The Distributor maintains control of the application's data, entitlements and display. *Id.*

<sup>11</sup> For example, a Distributor providing Derived Data based on EDGX Top to six External Subscribers that are API Service Platforms would be charged a monthly fee of \$7,5000 (*i.e.*, 6 External Subscribers × \$1,250 each).

<sup>12</sup> The Exchange also proposes consolidate the Derived Data White Label Service and the Program under the common heading "Financial Product Distribution Program."
