FEDERAL RESERVE SYSTEM

12 CFR Part 204

[Docket No. R-1675]

RIN 7100-AF 58

Regulation D: Reserve Requirements of Depository Institutions

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Board of Governors of the Federal Reserve System (“Board”) is amending Regulation D (Reserve Requirements of Depository Institutions) to revise the rate of interest paid on balances maintained to satisfy reserve balance requirements (“IORR”) and the rate of interest paid on excess balances (“IOER”) maintained at Federal Reserve Banks by or on behalf of eligible institutions. The final amendments specify that IORR is 1.80 percent and IOER is 1.80 percent, a 0.30 percentage point decrease from their prior levels. The amendments are intended to enhance the role of such rates of interest in moving the Federal funds rate into the target range established by the Federal Open Market Committee (“FOMC” or “Committee”).

DATES:

Effective date: The amendments to part 204 (Regulation D) are effective October 3, 2019.

³ The primary, secondary, and seasonal credit rates described in this section apply to both advances and discounts made under the primary, secondary, and seasonal credit programs, respectively.

Applicability date: The IORR and IOER rate changes were applicable on September 19, 2019.

SUPPLEMENTARY INFORMATION:

I. Statutory and Regulatory Background

For monetary policy purposes, section 19 of the Federal Reserve Act (“the Act”) imposes reserve requirements on certain types of deposits and other liabilities of depository institutions.¹ Regulation D, which implements section 19 of the Act, requires that a depository institution meet reserve requirements by holding cash in its vault, or if vault cash is insufficient, by maintaining a balance in an account at a Federal Reserve Bank (“Reserve Bank”).² Section 19 also provides that balances maintained by or on behalf of certain institutions in an account at a Reserve Bank may receive earnings to be paid by the Reserve Bank at least once each quarter, at a rate or rates not to exceed the general level of short-term interest rates.³ Institutions that are eligible to receive earnings on their balances held at Reserve Banks (“eligible institutions”) include depository institutions and certain other institutions.⁴ Section 19 also provides that the Board may prescribe regulations concerning the payment of earnings on balances at a Reserve Bank.⁵ Prior to these amendments, Regulation D specified a rate of 2.10 percent for both IORR and IOER.⁶

II. Amendments to IORR and IOER

The Board is amending § 204.10(b)(5) of Regulation D to specify that IORR is 1.80 percent and IOER is 1.80 percent. This 0.30 percentage point decrease in each rate was associated with a decrease in the target range for the federal funds rate, from a target range of 2 to 2¼ percent to a target range of 1¾ to 2 percent, announced by the FOMC on September 18, 2019, with an effective

date of September 19, 2019. The FOMC’s press release on the same day as the announcement noted that:

Information received since the Federal Open Market Committee met in July indicates that the labor market remains strong and that economic activity has been rising at a moderate rate. Job gains have been solid, on average, in recent months, and the unemployment rate has remained low. Although household spending has been rising at a strong pace, business fixed investment and exports have weakened. On a 12-month basis, overall inflation and inflation for items other than food and energy are running below 2 percent. Market-based measures of inflation compensation remain low; survey-based measures of longer-term inflation expectations are little changed.

Consistent with its statutory mandate, the Committee seeks to foster maximum employment and price stability. In light of the implications of global developments for the economic outlook as well as muted inflation pressures, the Committee decided to lower the target range for the federal funds rate to 1¾ to 2 percent. This action supports the Committee’s view that sustained expansion of economic activity, strong labor market conditions, and inflation near the Committee’s symmetric 2 percent objective are the most likely outcomes, but uncertainties about this outlook remain. As the Committee contemplates the future path of the target range for the federal funds rate, it will continue to monitor the implications of incoming information for the economic outlook and will act as appropriate to sustain the expansion, with a strong labor market and inflation near its symmetric 2 percent objective.

A Federal Reserve Implementation note released simultaneously with the announcement stated:

The Board of Governors of the Federal Reserve System voted unanimously to lower the interest rate paid on required and excess reserve balances to 1.80 percent, effective September 19, 2019. Setting the interest rate paid on required and excess reserve balances 20 basis points below the top of the target range for the federal funds rate is intended to foster trading in the federal funds market at rates well within the FOMC’s target range.

As a result, the Board is amending § 204.10(b)(5) of Regulation D to change IORR to 1.80 percent and IOER to 1.80 percent.

III. Administrative Procedure Act

In general, the Administrative Procedure Act (“APA”)⁷ imposes three principal requirements when an agency promulgates legislative rules (rules made pursuant to Congressionally-delegated authority): (1) Publication with adequate notice of a proposed rule; (2) followed by a meaningful opportunity for the public to comment on the rule’s content; and (3)

⁷ 5 U.S.C. 551 *et seq.*

publication of the final rule not less than 30 days before its effective date.

The APA provides that notice and comment procedures do not apply if the agency for good cause finds them to be “unnecessary, impracticable, or contrary to the public interest.”⁸ Section 553(d) of the APA also provides that publication at least 30 days prior to a rule’s effective date is not required for (1) a substantive rule which grants or recognizes an exemption or relieves a restriction; (2) interpretive rules and statements of policy; or (3) a rule for which the agency finds good cause for shortened notice and publishes its reasoning with the rule.⁹

The Board has determined that good cause exists for finding that the notice, public comment, and delayed effective date provisions of the APA are unnecessary, impracticable, or contrary to the public interest with respect to these final amendments to Regulation D. The rate changes for IORR and IOER that are reflected in the final amendments to Regulation D were made with a view towards accommodating commerce and business and with regard to their bearing upon the general credit situation of the country.

Notice and public comment would prevent the Board’s action from being effective as promptly as necessary in the public interest and would not otherwise serve any useful purpose. Notice, public comment, and a delayed effective date would create uncertainty about the finality and effectiveness of the Board’s action and undermine the effectiveness of that action.

Accordingly, the Board has determined that good cause exists to dispense with the notice, public comment, and delayed effective date procedures of the APA with respect to these final amendments to Regulation D.

IV. Regulatory Flexibility Analysis

The Regulatory Flexibility Act (“RFA”) does not apply to a rulemaking where a general notice of proposed rulemaking is not required.¹⁰ As noted previously, the Board has determined that it is unnecessary and contrary to the public interest to publish a general notice of proposed rulemaking for this final rule. Accordingly, the RFA’s requirements relating to an initial and final regulatory flexibility analysis do not apply.

V. Paperwork Reduction Act

In accordance with the Paperwork Reduction Act (“PRA”) of 1995,¹¹ the Board reviewed the final rule under the authority delegated to the Board by the Office of Management and Budget. The final rule contains no requirements subject to the PRA.

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

¹¹ 44 U.S.C. 3506; see 5 CFR part 1320, appendix A.1.

ACTION: Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for all The Boeing Company Model 737–600, –700, –700C, –800, –900, and –900ER series airplanes. This AD requires repetitive inspections for cracking of the left and right hand side outboard chords of frame fittings and failsafe straps at a certain station, and repair if any cracking is found. This AD was prompted by reports of cracking discovered in this area. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective October 3, 2019.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of October 3, 2019.

The FAA must receive comments on this AD by November 18, 2019.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:
