

participating in the BSAI pollock fishery prior to the start of each fishing year.

- The AFA Inshore Vessel Contract Fishing Notification is submitted by an AFA inshore cooperative that intends to contract with a non-member vessel to harvest a portion of the cooperative's annual pollock allocation to notify NMFS of vessels that might be reporting with an alternative cooperative ID.

- The Application for Approval as an Entity to Receive Transferable Chinook Salmon PSC Allocation is submitted by an entity representing the catcher/processor sector or the mothership sector to request approval to receive transferable Chinook salmon PSC allocations on behalf of members of the sector. Once approved, an entity is not required to reapply for or renew its status. Entities sometimes submit amendments to update contact and other information related to the entity and its members.

- The Application for Transfer of Bering Sea Chinook Salmon PSC Allocations is submitted by an authorized representative of the catcher/processor sector, the mothership sector, an inshore cooperative, or a CDQ group to transfer Chinook salmon PSC allocations to another entity's account.

## II. Method of Collection

All may be submitted to NMFS by mail, fax, or delivery except the AFA Inshore Vessel Contract Fishing Notification, which is not accepted by fax. The Application for Transfer of Bering Sea Chinook Salmon PSC Allocations and the Approval as an Entity to Receive Transferable Chinook Salmon PSC Application may be submitted online through eFISH on the NMFS Alaska Region website at <https://alaskafisheries.noaa.gov/webapps/efish/login>.

## III. Data

*OMB Control Number:* 0648-0393.

*Form Number(s):* None.

*Type of Review:* Regular Submission (extension of a current information collection).

*Affected Public:* Business or other for-profit organizations; Individuals or households.

*Estimated Number of Respondents:* 27.

*Estimated Time per Response:* 1 hour each for AFA Permit; Rebuilt, Replacement, or Removed Vessel Application and Application for Transfer of Bering Sea Chinook Salmon PSC Allocations; 2 hours for Application for AFA Inshore Catcher Vessel Cooperative Permit; 4 hours for AFA Inshore Vessel Contract Fishing Notification; 8 hours for Application for

Approval as an Entity to Receive Transferable Chinook Salmon PSC Allocation.

*Estimated Total Annual Burden Hours:* 135 hours.

*Estimated Total Annual Cost to Public:* \$155 in recordkeeping and reporting costs.

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**RIN 0648-XV094**

### Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 60 In-person Workshop for South Atlantic Red Porgy.

**SUMMARY:** The SEDAR 60 assessment of the South Atlantic stock of Red Porgy will consist of a series of workshops and webinars: An In-person Workshop to address data and assessment needs, and Assessment Webinars. See **SUPPLEMENTARY INFORMATION.**

**DATES:** The SEDAR 60 In-person Workshop will be held on December 10, 2019, from 9 a.m. to 6 p.m.; December

11, 2019, from 8:30 a.m. to 6 p.m.; and December 12, 2019, from 8:30 a.m. to 1 p.m. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

#### ADDRESSES:

*Meeting address:* The SEDAR 60 In-person Workshop will be held at the Beaufort Hotel, 2440 Lennoxville Road, Beaufort, NC 28516; phone: (252)728-3000.

*SEDAR address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; [www.sedarweb.org](http://www.sedarweb.org).

#### FOR FURTHER INFORMATION CONTACT:

Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366; email: [Kathleen.howington@safmc.net](mailto:Kathleen.howington@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists,

and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The SEDAR 60 In-person Workshop is being held to address both data and assessment concerns. The items for discussion could include:

1. Participants could evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery independent and fishery dependent measures of stock abundance, as specified in the Terms of Reference for the workshop, to develop an assessment data set and associated documentation.

2. Participants might then consider methods and configuration options for models, recommend assessment methods (*i.e.*, model types) to pursue for potential base model configuration, identify likely issues to be addressed and evaluated in developing the base model, review base model alternatives and recommend a base model approach and configuration. Participants could also, recommend sensitivities and uncertainty evaluations, review continuity, sensitivities and uncertainty evaluations, recommend projection approaches and configuration and review projection results.

The In person Workshop is open to the public. Additional information about SEDAR 60, including a public comment form is available from the SEDAR website at: <http://sedarweb.org/sedar-60>.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

### Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: October 1, 2019.

**Tracey L. Thompson,**

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Proposed Information Collection; Comment Request; Pacific Coast Groundfish Trawl Rationalization Program Permit and License Information Collection

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before December 3, 2019.

**ADDRESSES:** Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or at [PRAComments@doc.gov](mailto:PRAComments@doc.gov)). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Jahnava Duryea, National Marine Fisheries Service, California Central Valley Office, 650 Capital Mall, Suite 5-100, Sacramento, CA 95814, (916) 930-3725 or via email at [jahnava.duryea@noaa.gov](mailto:jahnava.duryea@noaa.gov).

**SUPPLEMENTARY INFORMATION:**

#### I. Abstract

The National Marine Fisheries Service (NMFS) requests comments on the extension of a currently approved information collection for the West

Coast Region's Pacific Coast Groundfish Trawl Rationalization Program.

The Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, provides that the Secretary of Commerce is responsible for the conservation and management of marine fisheries resources in the Exclusive Economic Zone (3-200 miles) of the United States. NMFS West Coast Region manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off the coasts of Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan (FMP).

In January 2011, NMFS implemented a trawl rationalization program, which is a catch share program, for the Pacific Coast Groundfish Limited Entry Trawl Fishery. The program was implemented through Amendments 20 and 21 to the Pacific Coast Groundfish FMP and the corresponding implementing regulations at 50 CFR part 660. Amendment 20 established the trawl rationalization program that consists of an individual fishing quota (IFQ) program for the shorebased trawl fleet (including whiting and nonwhiting sectors) and cooperative programs for the at-sea mothership and catcher/processor trawl fleets (whiting only). Amendment 21 set long-term allocations for the limited entry trawl sectors of certain groundfish species.

Under the trawl rationalization program, new permits, accounts, endorsements and licenses were established. These consist of: Quota share (QS) permits/accounts, vessel accounts, first receiver site licenses, mothership endorsements on certain limited entry trawl permits, mothership catcher vessel endorsements on certain limited entry trawl permits, catcher/processor endorsements on certain limited entry trawl permits, a mothership cooperative permit, and a catcher/processor cooperative permit. NMFS collects information from program participants required to: (1) Establish new permits, accounts, and licenses; (2) renew permits, accounts, and licenses; (3) allow trading of QS percentages and quota pounds (QP) in online QS and vessel accounts, and allow transfer of catch history assignments between limited entry trawl permits; (4) track compliance with program control limits; and (5) implement other features of the regulations pertaining to permits and licenses.

As part of its fishery management responsibilities, NMFS requires this information to determine whether a respondent complies with regulations that pertain to the issuance, renewal,
