

- Trustworthy distributed audit trails for accountability
- Workflow techniques to orchestrate analysis

Each responding organization's letter of interest should identify how their products or infrastructure components address one or more of the following desired solution characteristics in section 4 of the Securing the IIoT for the energy sector use case (for reference, please see the link in the PROCESS section above):

1. **Analysis and Visualization.** The analysis and visualization capabilities collect and process monitoring data from communications, management systems, and control systems to detect anomalies and identify anomalies that represent potential malicious activity.

2. **Authentication and Access Control.** The authentication and access control capabilities are used on all communication among DER management and control systems. These capabilities ensure that only known, authorized systems/devices can exchange information. Further, these capabilities may limit the types of information exchanged. Attempted unauthorized communication or attempted communication by unknown systems/devices is detected and reported to the analysis and visualization capabilities.

3. **Behavioral Monitoring.** The behavioral monitoring capabilities measure behavioral characteristics of the management and control systems. Measurements are compared with expected or normal behavioral characteristics that have been learned over time. Anomalies are reported to the analysis and visualization capability.

4. **Command Register.** The command register capability records transactions between the distribution control system and control systems managing DERs. This capability allows both the utility and the DER operator to verify information exchanges.

5. **Data Integrity.** Data integrity capabilities ensure that information is not modified in transit between the sender and receiver. If the information is modified, the capabilities detect the modification and notify the analysis and visualization capabilities.

6. **Malware Detection.** The malware detection capabilities monitor both information exchanges among the DER management and control systems and processing by the management and control systems, looking for indications of compromise by known malware.

Responding organizations need to understand and, in their letters of interest, commit to provide:

1. Access for all participants' project teams to component interfaces and the organization's experts necessary to make functional connections among security platform components.

2. Support for development and demonstration of the Securing the IIoT for the energy sector use case in NCCoE facilities which will be conducted in a manner consistent with the NIST Cybersecurity Framework, and other relevant standards and guidance listed in section 4 of the Securing the IIoT for the energy sector use case.

Additional details about the Securing the IIoT for the energy sector use case are available at: <https://www.nccoe.nist.gov/node/4741>.

NIST cannot guarantee that all products proposed by respondents will be used in the demonstration. Each prospective participant will be expected to work collaboratively with NIST staff and other project participants under the terms of the consortium CRADA in the development of the Securing the IIoT for the energy sector capability. Prospective participants' contribution to the collaborative effort will include assistance in establishing the necessary interface functionality, connection and set-up capabilities and procedures, demonstration harnesses, environmental and safety conditions for use, integrated platform user instructions, and demonstration plans and scripts necessary to demonstrate the desired capabilities. Each participant will train NIST personnel, as necessary, to operate its product in capability demonstrations to the energy community. Following successful demonstrations, NIST will publish a description of the security platform and its performance characteristics sufficient to permit other organizations to develop and deploy security platforms that meet the security objectives of the Securing the IIoT for the energy sector use case. These descriptions will be public information. Under the terms of the consortium CRADA, NIST will support development of interfaces among participants' products by providing IT infrastructure, laboratory facilities, office facilities, collaboration facilities, and staff support to component composition, security platform documentation, and demonstration activities.

The dates of the demonstration of the Securing the IIoT for the energy sector capability will be announced on the NCCoE website at least two weeks in advance at <https://nccoe.nist.gov/>. The expected outcome of the demonstration is to improve the security of IIoT across an entire energy sector enterprise. Participating organizations will gain

from the knowledge that their products are interoperable with other participants' offerings.

For additional information on the NCCoE governance, business processes, and NCCoE operational structure, visit the NCCoE website <https://nccoe.nist.gov/>.

Kevin A. Kimball,
Chief of Staff.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XV099

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting of the North Pacific Fishery Management Council's Charter Halibut Management Committee.

SUMMARY: The North Pacific Fishery Management Council (Council) Charter Halibut Management Committee will meet October 29, 2019.

DATES: The meeting will be held on Tuesday, October 29, 2019, from 10:30 a.m. to 4 p.m., Alaska Standard Time.

ADDRESSES: The meeting will be held in the Old Federal Building, 605 W 4th Ave., Suite 205, Anchorage, AK 99501-2252. Teleconference line: (907) 271-2896.

Council address: North Pacific Fishery Management Council, 605 W 4th Ave., Suite 306, Anchorage, AK 99501-2252; telephone: (907) 271-2809.

FOR FURTHER INFORMATION CONTACT: Steve MacLean, Council staff; telephone: (907) 271-2809.

SUPPLEMENTARY INFORMATION:

Agenda

Tuesday, October 29, 2019

The purpose of the Charter Halibut Management Committee meeting is to identify a range of potential management measures for the Area 2C and Area 3A charter halibut fisheries in 2020 using the management measures in place for 2019 as a baseline. For Area 2C, the baseline management measure includes regulations applicable to charter halibut fishing in all areas, and a daily limit of one fish less than or equal to 38 inches or greater than or

equal to 80 inches. For Area 3A, the baseline management measure includes regulations applicable to charter halibut fishing in all areas, and an annual limit of 4 fish, a daily limit of two fish one fish of any size, and a second fish which must be 28 inches or less in length. No charter halibut fishing on Wednesdays, all year, and no charter halibut fishing on July 16, July 23, July 30, August 6, and August 13. Committee recommendations will be incorporated into an analysis for committee and Council review in December 2019. The Council will recommend preferred management measures for consideration by the International Pacific Halibut Commission at its January 2020 meeting, for implementation in 2020.

Meeting materials will be available on the Council's online agenda portal at <https://meetings.npfmc.org/Meeting/Details/983>. The Agenda is subject to change, and the latest version will be posted at: <https://meetings.npfmc.org/>.

Public Comment

Public comment letters will be accepted and should be submitted by Monday, October 28, 2019 via the Council's electronic agenda platform at <https://meetings.npfmc.org/Meeting/Details/983>. In-person oral public testimony will be accepted at the discretion of the Chair.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Maria Davis at (907) 271-2809 at least 7 working days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 3, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XV085

Western Pacific Fishery Management Council; Public Meetings; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of correction of public meetings.

SUMMARY: The Western Pacific Fishery Management Council (Council) will hold its 134th Scientific and Statistical Committee (SSC) meeting, American Samoa Archipelago Fishery Ecosystem Plan Advisory Panel (AP), American Samoa Regional Ecosystem Advisory Committee (REAC), Executive and Budget Standing Committee, and its 180th Council meeting to take actions on fishery management issues in the Western Pacific Region. This notice announces the cancellation of the Pelagic and International Standing Committee meeting included in the original notice, corrects the agenda for the Executive and Budget Standing Committee meeting, and corrects the venue for the AP meeting.

DATES: The meetings will be held between October 15 and October 24, 2019. For specific times and agendas, see **SUPPLEMENTARY INFORMATION**. All times listed are local island times.

ADDRESSES: The 134th SSC will be held at the Council Office Conference Room, 1164 Bishop St. Suite 1400, Honolulu HI 96813, phone: (808) 522-8220. The AP and the Executive and Budget Standing Committee will be held at Sadie's by the Sea, Utulei Beach, Route 1, Pago Pago, American Samoa, phone: (684) 633-5900. The REAC and 180th Council meeting will be held at Governor Tauese P.F. Sunia Ocean Center, Pago-Pago, American Samoa, phone: (684) 633-6500.

FOR FURTHER INFORMATION CONTACT: Contact Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council; phone: (808) 522-8220.

SUPPLEMENTARY INFORMATION: The original notice published in the **Federal Register** on September 30, 2019 (84 FR 51519).

The 134th SSC meeting will be held between 8:30 a.m. and 5 p.m. on October 15-17, 2019. The REAC will be held between 9 a.m. and 3 p.m. on October 18, 2019. The AP will be held between 4 p.m. and 6 p.m. on October 18, 2019. The Executive and Budget Standing Committee will be held between 8:30 a.m. and 10:30 a.m. on October 21, 2019. The 180th Council Meeting will be held on October 22, 2019, between 9 a.m. and 5 p.m. with a Public Comment for Non-Agenda Items between 4 p.m. and 5 p.m. and a Fishers Forum between 6 p.m. and 9 p.m. The Council meeting continues on October 23, 2019, between 8:30 p.m. and 5 p.m. and on October 24, 2019, between 8:30 a.m. and 12 noon. Agenda items noted as "Final Action Items" refer to actions that result in Council transmittal of a proposed fishery

management plan, proposed plan amendment, or proposed regulations to the U.S. Secretary of Commerce, under Sections 304 or 305 of the MSA. In addition to the agenda items listed here, the Council and its advisory bodies will hear recommendations from Council advisors. An opportunity to submit public comment will be provided throughout the agendas. The order in which agenda items are addressed may change and will be announced in advance at the Council meeting. The meetings will run as late as necessary to complete scheduled business.

Background documents will be available from, and written comments should be sent to, Kitty M. Simonds, Executive Director; Western Pacific Fishery Management Council, 1164 Bishop Street, Suite 1400, Honolulu, HI 96813, phone: (808) 522-8220 or fax: (808) 522-8226.

Agenda for 134th SSC Meeting

Tuesday, October 15, 2019, 8:30 a.m. to 5 p.m.

1. Introductions
2. Approval of Draft Agenda and Assignment of Rapporteurs
3. Status of the 132nd and 133rd SSC Meeting Recommendations
4. Report from Pacific Islands Fisheries Science Center (PIFSC) Director
5. Program Planning and Research
 - A. Fishing Community Perceptions on of the Marine Protected Area (MPA) Siting Process and its Implications
 - B. Report on SSC Working Group on National Standard (NS) 1 Technical Guidance on Phase-Ins and Carry-Over
 - C. Report on the Pacific Insular Fisheries Monitoring Assessment Planning Summit (PIFMAPS)
 - D. Updates to the Spatial Management Workshop Planning
 - E. Report to Congress on Section 201 of Modernizing Recreational Fisheries Act
 - F. Report on the 2019 Annual Climate Change Collaborative
 - G. Public Comment
 - H. SSC Discussion and Recommendations
6. Island Fisheries
 - A. Report on the Western Pacific Stock Assessment Review (WPSAR) of the Territorial Bottomfish Benchmark Stock Assessment
 - B. Peer-Reviewed Benchmark Stock Assessment of the Bottomfish Management Unit Species Complex in American Samoa, Guam and Commonwealth of Northern Mariana Islands (CNMI)
 - C. Guam Reef Fish Stock Assessment
 - D. Review of the Terms of Reference
