National Agricultural Statistics Service

Title: Agricultural Resource Management, Chemical Use, and Post-Harvest Chemical Use Surveys.

OMB Control Number: 0535-0218.

Summary of Collection: The primary functions of the National Agricultural Statistics Service (NASS) are to prepare and issue State and national estimates of crop and livestock production, disposition, and prices and to collect information on related environmental and economic factors. Detailed economic and environmental data for various crops and livestock help to maintain a stable economic atmosphere and reduce the risk for production, marketing, and distribution operations. The Agricultural Resource Management Surveys (ARMS), are the primary source of information for the U.S. Department of Agriculture on a broad range of issues related to agricultural resource use, cost of production, and farm sector financial conditions. NASS uses a variety of survey instruments to collect the information in conjunction with these studies. General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204.

Need and Use of the Information: ARMS is the only annual source of whole farm information available for objective evaluation of many critical issues related to agriculture and the rural economy, such as: Whole farm finance data, marketing information, input usage, production practices, and crop substitution possibilities. Without these data, decision makers cannot analyze and report on critical issues that affect farms and farm households when pesticide regulatory actions are being considered.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 131,619.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 105,774.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request a three-year extension of the current Office of Management and Budget (OMB) clearance of the Questionnaire for Building Permit Official (SOC–QBPO). The Census Bureau uses the Computer-Assisted Personal Interviewing (CAPI) electronic questionnaire SOC–QBPO to collect information from state and local building permit officials on: (1) The types of residential permits they issue, (2) the length of time a permit is valid, (3) how they store permits, and (4) the geographic coverage of the permit system. We need this information to carry out the sampling for the Survey of Housing Starts, Sales, and Completions (OMB number 0607–0110), also known as Survey of Construction (SOC). The SOC provides widely used measures of construction activity, including the Principal Economic Indicators New Residential Construction and New Residential Sales.

The current OMB clearance is scheduled to expire on May 31, 2020. We will continue to use the current CAPI questionnaire. The overall length of the interview and the sample size will not change.

II. Method of Collection

The Census Bureau uses its field representatives to obtain information on the operating procedures of a permit office using the SOC–QBPO. The field representative visits the permit office,

conducts the interview with office staff, and completes this electronic form.

III. Data

OMB Control Number: 0607–0125.

Form Number(s): SOC–QBPO.

Type of Review: Regular submission.

Affected Public: State and local Government.

Estimated Number of Respondents: 1,017.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 254 hours.

Estimated Total Annual Cost to Public: \$0 (This is not the cost of respondents' time, but the indirect costs respondents may incur for such things as purchases of specialized software or hardware needed to report, or expenditures for accounting or records maintenance services required specifically by the collection.)

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C. Section 131 and 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

Circular Welded Carbon-Quality Steel Pipe From the United Arab Emirates: Amended Final Results of Antidumping Duty Administrative Review; 2016–2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is amending the final results of the administrative review of the antidumping duty (AD) order on circular welded carbon-quality steel pipe (CWP) from the United Arab Emirates (UAE) to correct a ministerial error.

DATES: Applicable October 10, 2019.

FOR FURTHER INFORMATION CONTACT: Manuel Rey or Whitley Herndon, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5518 or (202) 482–6274, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 27, 2019, Commerce published the *Final Results* of the 2016–2017 administrative review of CWP from the UAE in the **Federal Register**.¹ On August 28, 2019, Ajmal Steel Tubes & Pipes Ind. L.L.C./Noble Steel Industries L.L.C. (collectively, Ajmal Steel), one of two companies selected for individual examination in this administrative review, alleged the existence of a ministerial error in Commerce's *Final Results*.²

Legal Framework

A ministerial error, as defined in section 751(h) of the Tariff Act of 1930, as amended (the Act), includes “errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the administering authority considers
