

### Previous Request for Comments

The Coast Guard published a 60-day notice (84 FR 5459, February 21, 2019) and a 30-day notice (84 FR 19097, May 3, 2019) requesting comments, as required by 44 U.S.C. 3506(c)(2). The 30-day notice elicited two comments which can be viewed at <https://www.regulations.gov> in the docket USCG–2018–0498. This request provides a second 30-day comment period to address the public comments that we received and to solicit comments on the changes we made to the information collection request in response to the comments.

The first commenter noted that there is a workgroup developing recommendations for improving recreational boating incident reporting and opening communication between the Coast Guard and all levels of enforcement. The commenter noted that the current form requires the owner of the vessel to fill out the form and submit it to the Coast Guard, but there is no efficient way for the states to require recreational boat owners who are unwilling or unable to submit the safety defect report to the Coast Guard.

The Coast Guard supports allowing additional entities to report safety defects, and proposes to change the name of the report from “Consumer Safety Defect Report” to “Recreational Boat Safety Defect Report”. The respondents for this new form will expand from receiving information from consumers (boat owners) to receiving information from any source, including boat owners, law enforcement, marine investigators, boat manufacturers, and the public. We will change the “who is reporting” section of the form to include places for names, addresses, and contact info for a company or agency and add check boxes for these additional sources to identify themselves as on the report, such as owner, manufacturer, law enforcement officer, investigator, and other. We will also collect vessel type, hull material, propulsion type, engine drive type and fuel using the 33 CFR 173/174 terms for those categories.

The second commenter said that the reporting form should not have negative financial impacts on small business, service providers, or individuals and that someone should compensate these entities for their research. The commenter also noted that associated equipment can be dangerous to owners and operators. We agree that defective equipment is dangerous to vessel owners and operators. The purpose of submitting a safety defect report to the Coast Guard is so that the Coast Guard can look into the accuracy of the report

and advise manufacturers in repairing defects in their equipment before they become catastrophic defects. The Safety Defect Report is not intended to cause negative financial impact on those entities. Safety defect reporting advances our maritime safety missions by asking vessel operators, and other entities, to report any suspected safety defects to the Coast Guard. The commenter did not give any suggestions on how to improve the collection of information or the form. No changes to this collection have been made at this time as a result of the second comment

### Information Collection Request

*Title:* Recreational Boat Safety Defect Report.

*OMB Control Number:* 1625–0071.

*Summary:* The collection of information provides a means for boat owners, law enforcement officers, marine investigators, boat manufacturers and members of the public who believe a recreational boat or piece of associated equipment contains a substantial risk defect or fails to comply with Federal safety standards to report the deficiencies to the Coast Guard for investigation and possible remedy.

*Need:* Title 46 U.S.C. 4310 gives the Coast Guard the authority to require manufacturers of recreational boats and certain items of associated equipment to notify owners and remedy: (1) Defects that create a substantial risk of personal injury to the public; and (2) failures to comply with applicable Federal safety standards.

*Forms:* CG–5578, Recreational Boat Safety Defect Report.

*Respondents:* Recreational boat owners, law enforcement officers, marine investigators, boat manufacturers and members of the public who use, build, enforce safety standards or investigate accidents of recreational boats and designated associated equipment.

*Frequency:* One time.

*Hour Burden Estimate:* The estimated burden has decreased from 18 hours to 12 hours a year due to a decrease in the estimated annual number of respondents.

*Authority:* The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: October 8, 2019.

**SUPPLEMENTARY INFORMATION:** The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended). This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the

burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

This Notice also lists the following information:

*Title of Information Collection:*

*OMB Approval Number:* 2506–0183.

*Type of Request:* Extension of currently approved collection.

*Form Number:* HUD–40090–3a.

*Description of the need for the information and proposed use:* This submission is to request an extension of a currently approved collection for reporting burden associated with the Technical Submission phase of the Continuum of Care (CoC) Program Application. This submission is limited to the Technical Submission process under the CoC Program interim rule, as authorized by the HEARTH Act. Applicants who are successful in the CoC Program Competition are required to submit more detailed technical information before grant agreement. The information to be collected will be used to ensure that technical requirements are met prior to the execution of a grant agreement. The technical requirements relate to a more extensive description of the budgets for administration costs, timelines for project implementation, match documentation and other project specific documentation, and information to support the resolution of grant conditions. HUD will use this detailed information to determine if a project is financially feasible and whether all proposed activities are eligible. All information collected is used to carefully consider conditional applicants for funding. If HUD collects less information, or collected it less frequently, the Department could not make a final determination concerning the eligibility of applicants for grant funds and conditional applicants would not be eligible to sign grant agreements and receive funding. To see the regulations for the CoC Program and applicable supplementary documents, visit HUD's Homeless Resource Exchange page at <https://www.hudexchange.info/programs/coc/>. The statutory provisions and the implementing interim rule (also found at 24 CFR part 587) that govern the program require the information provided by the Technical Submission.
