We solicited comments for 30 days ending on May 13, 2019. We received three comments by that date. One commenter, who submitted two of the comments, expressed her dissatisfaction with the practices of the poultry industry and USDA's oversight, but did not offer any comments on the proposed updates to the standards. The other commenter suggested that the NPIP would be more successful if each State had to meet the same requirements. The commenter further indicated that the program needed better funding, which would reduce costs for participants and would increase participation.

The NPIP program is a voluntary program, and the regulations governing the program are voted on by the members that participate in the program. All States must meet the provisions in the regulations, however, States have the ability to implement regulations that may go above and beyond provisions. Currently, 100 percent of the primary breeding industry participates in the NPIP as does 95 percent of the commercial poultry industry, so we do not believe that differences in State requirements or the current funding of the program presents a hindrance to participation in the Plan.

Therefore, we are updating the NPIP Program Standards as described in our previous notice and in this document.
