

Secretary of Agriculture. The public is invited to submit nominations for membership on the Committee, either self-nomination or nomination of any qualified and interested person. Any individual or organization may nominate one or more qualified persons to represent the interest areas listed above. To be considered for membership, nominees must:

1. Identify what interest area group listed above they would represent and how they are qualified to represent that interest group;
2. State why they want to serve on the Committee and what they can contribute;
3. Provide 2–3 references that may be contacts about the nominee's application;
4. Provide a resume showing their past experience in working successfully as part of a coordinating group; and
5. Complete Form AD-755, Advisory Committee or Research and Promotion Background Information. Form AD-755 may be obtained from the listed Forest Service contact persons or from the following websites: <https://www.ocio.usda.gov/document/ad-755> or <https://www.fs.fed.us/restoration/CFLRP/advisory-panel.shtml>.

Letters of recommendation are welcome. All nominations will be vetted by the Agency. Equal opportunity practices in accordance with USDA policies shall be followed in all membership appointments to the Committee. To ensure that the recommendations of the Committee have taken into account the needs of the diverse groups served by USDA, membership shall, to the extent practicable, include individuals with demonstrated ability to represent all racial and ethnic groups, women and men, and persons with disabilities.

Dated: October 7, 2019.

Cikena Reid,
USDA Committee Management Officer.

BILLING CODE 3411-15-P

DEPARTMENT OF AGRICULTURE

Rural Business-Cooperative Service

Notice of Solicitation of Applications for the Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program

AGENCY: Rural Business-Cooperative Service, USDA.

ACTION: Notice.

SUMMARY: This Notice announces the solicitation of applications for funds

available under the Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program (the Program) to provide guaranteed loans to fund the development, construction, and retrofitting of commercial scale biorefineries using eligible technology and of Biobased product manufacturing facilities that use technologically new commercial scale processing and manufacturing equipment to convert renewable chemicals and other biobased outputs of biorefineries into end-user products, on a commercial scale.

DATES: With this Notice, the Agency is announcing two separate application cycles, as is provided which are application closing dates of 4:30 p.m. Eastern Daylight Time, October 1, 2019, and 4:30 p.m. Eastern Daylight Time, April 1, 2020.

Applications must be received in the USDA Rural Business-Cooperative Service, Energy Programs no later than 4:30 p.m. Eastern Daylight Time of the application closing date to compete for program funds. Any application received after 4:30 p.m. Eastern Daylight Time of the application closing date will be considered for the subsequent application cycle, provided that funding is available.

ADDRESSES: Applications and forms may be obtained from:

- USDA, Rural Business-Cooperative Service, Energy Programs, Attention: Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program, 1400 Independence Avenue SW, Room 6901-S, Washington, DC 20250-3225.

- *Agency Website:* Application materials can be obtained from the Agency's website. <http://www.rd.usda.gov/programs-services/biorefinery-assistance-program>.

FOR FURTHER INFORMATION CONTACT:

Aaron Morris, Assistant Deputy Administrator, USDA Rural Business-Cooperative Service, Energy Programs, 1400 Independence Avenue SW, Room 6901-S, Washington, DC 20250-3225. Telephone: 202-720-1501. Email: Aaron.Morris@usda.gov.

SUPPLEMENTARY INFORMATION:

Preface

The Agency encourages applications that will support recommendations made in the Rural Prosperity Task Force report to help improve life in rural America (www.usda.gov/ruralprosperity). Applicants are encouraged to consider projects that provide measurable results in helping rural communities build robust and sustainable economies through strategic

investments in infrastructure, partnerships, and innovation. Key strategies include:

- Achieving e-Connectivity for Rural America
- Developing the Rural Economy
- Harnessing Technological Innovation
- Supporting a Rural Workforce
- Improving Quality of Life

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements associated with the Program, as covered in this Notice, have been approved by the Office of Management Budget (OMB) under OMB Control Number 0570-0065.

Overview

Federal Agency Name: Rural Business-Cooperative Service (an Agency of USDA in the Rural Development mission area).

Solicitation Opportunity Title: Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program.

Announcement Type: Notice of Solicitation of Applications.

Catalog of Federal Domestic Assistance (CFDA) Number: The CFDA number for this Notice is 10.865.

Dates: Applications must be received in the USDA Rural Business-Cooperative Service, Energy Programs no later than the application closing dates of 4:30 p.m. Eastern Daylight Time, October 1, 2019, and 4:30 p.m. Eastern Daylight Time, April 1, 2020. Any application received after 4:30 p.m. Eastern Daylight Time of the application closing date will be considered for the subsequent application cycle, provided that funding is available.

Availability of Notice and Rule: This Notice and the interim rule for the Program are available on the USDA Rural Development website at: <http://www.rd.usda.gov/programs-services/biorefinery-assistance-program>.

I. Funding Opportunity Description

A. Purpose of the Program. The purpose of the Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program is to assist in the development of new and emerging technologies for the development of advanced biofuels, renewable chemicals, or biobased product manufacturing. This is achieved through guarantees for loans made to fund the development, construction, and retrofitting of commercial scale biorefineries using eligible technology and of biobased product manufacturing facilities that use technologically new commercial scale processing and

manufacturing equipment and required facilities to convert renewable chemicals and other biobased outputs of biorefineries into end-user products on a commercial scale.

B. Statutory Authority. This Program is authorized under 7 U.S.C. 8103. Regulations are contained in 7 CFR part 4279, subpart C and in 7 CFR part 4287, subpart D.

C. Definition of Terms. The definitions applicable to this Notice are published at 7 CFR 4279.202 and 7 CFR 4287.302.

D. Application awards. The Agency will review, evaluate, score, and award applications received in response to this Notice based on the provisions found in 7 CFR part 4279, subpart C and as indicated in this Notice.

II. Award Information

A. Available funds. This Notice is a solicitation for applications that will be funded using budget authority provided by the Food, Conservation, and Energy Act of 2008 (2008 Farm Bill), the Agricultural Act of 2014 (2014 Farm Bill), and the Agricultural Improvement Act of 2018 (2018 Farm Bill).

B. Type of Award. Guaranteed loan.

C. Approximate Number of Awards. Subject to the amount of funding available.

D. Guarantee Loan Funding. The provisions of 7 CFR 4279.232 apply to this Notice. The Borrower needs to provide the remaining funds from other non-Federal sources to complete the Project.

E. Guarantee and Annual Renewal Fees. The guarantee and annual renewal fees specified in 7 CFR 4279.231 are applicable to this Notice.

F. Anticipated Award Date. The award date will vary based on timing of completion of each project's individual application process.

III. Eligibility Information

A. Eligible Lenders. To be eligible for this program, lenders must meet the eligibility requirements in 7 CFR 4279.208.

B. Eligible Borrowers. To be eligible for this program, borrowers must meet the eligibility requirements in 7 CFR 4279.209.

C. Eligible Projects. To be eligible for this program, projects must meet the eligibility requirements in 7 CFR 4279.210. In addition, the 2018 Farm Bill amends the definition of 'eligible technology' to allow applicants to submit projects that adopt technologies in a biorefinery that produces an advanced biofuel, renewable chemical, or a biobased product.

D. Application Completeness. Incomplete Phase 1 applications will be

rejected and the project will be given no further consideration. Lenders will be informed of the element(s) that made the application incomplete. If the lender makes the required edits and resubmits the application to the USDA's Rural Business-Cooperative Service, Energy Programs by 4:30 p.m. Eastern Daylight Time, on the application closing date, the Agency will reconsider the application.

IV. Application Submission Information

A. Letter of Intent. For each guarantee request, the lender or the borrower must submit to the Agency a non-binding letter of intent to apply for a loan guarantee, not less than 30 calendar days prior to the application deadline. The letter of intent due date is August 30, 2019, for the October 1, 2019, application cycle and March 2, 2020, for the April 1, 2020, cycle. The letter must identify the borrower, the lender and any project sponsors; describe the project and project location; describe the proposed feedstock, primary technologies of the facility, and primary products produced; estimate the total project cost and amount of loan requested; and identify the application cycle due date. The Agency reserves the right to request additional information from potential applicants. Applications submitted without a letter of intent may be accepted by the Agency at the Agency's discretion.

B. Application Submittal. For each guarantee request, the lender must submit to the Agency an application that is in conformance with 7 CFR 4279.261. The content and methods of application submittal are specified below. Additionally, the Agency has developed an application guide that explains the application procedures and details the process for submission of an application. This guide is located at http://www.rd.usda.gov/files/RBS_Section9003Biorefinery_ApplicationGuide.pdf.

C. Content and Form of Submission. All applicants must submit one paper copy of the application materials and an electronic copy containing the same information that is included in the paper copy. Detailed instructions regarding application submission are explained in the application guide that the Agency has developed. The application guide is available online on the "Forms and Resources" page at <http://www.rd.usda.gov/programs-services/biorefinery-assistance-program> or by contacting Aaron Morris, Telephone: 202-720-1501. Email: Aaron.Morris@usda.gov. Application materials should be submitted to USDA

Rural Business-Cooperative Service, Energy Programs, Attention: Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program, 1400 Independence Avenue SW, Room 6901-S, Washington, DC 20250-3225.

The Agency's application process is divided into two phases. Phase 1 applications will provide information needed to determine lender, borrower, and project eligibility; preliminary economic and technical feasibility; and the priority score of the application. Based on the priority score ranking, the Agency will invite applicants whose Phase 1 applications receive higher priority scores to submit Phase 2 applications. Phase 2 application materials will be submitted as the project planning and engineering are finalized and will include information such as: Environmental compliance information, technical report, financial model, and the lender's credit evaluation. Phase 1 applications must contain the information required in the Agency's application guide and in accordance with 7 CFR 4279.261.

D. Local Owner. For applications submitted under this Notice, when the majority of feedstock to be utilized by the project on an annual basis is harvested from the land, the term "local owner" is defined as an individual who owns any portion of an eligible biorefinery and whose primary residence is located within the geographic area that the biorefinery's feedstock originates. In all other cases, "local owner" is defined as an individual who owns any portion of an eligible biorefinery and whose primary residence is located within 100 miles of the biorefinery. This definition will remain in effect until amended by a future **Federal Register** Notice.

V. Biobased Product Manufacturing

This notice also includes the solicitation of applications for funds available under the Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program to specifically fund biobased product manufacturing. The 2014 Farm Bill added biobased product manufacturing to the Program and provided for up to 15 percent of the mandatory funds for fiscal years 2014 and 2015 to be used to support facilities producing biobased products for end use. The 2014 Farm Bill provides the definition of "biobased product manufacturing," which the Agency has incorporated into the subsequent interim rule (see 7 CFR 4279.202). This definition requires that the biobased product manufacturing facility use

renewable chemicals and other biobased outputs of biorefineries as inputs and also requires that the borrower use technologically new commercial scale processing and manufacturing equipment and required facilities. The facility must produce end-user products.

VI. Biobased Product Manufacturing Eligibility Information

The eligibility requirements for prospective lenders and borrowers will not change from those listed above for the program, generally. For biobased product manufacturing projects, the eligible project requirement is modified to reflect that eligible projects will use technologically new commercial scale processing and manufacturing equipment and required facilities to convert renewable chemicals and other biobased outputs of biorefineries into end-user products on a commercial scale.

Additionally, for purposes of biobased product manufacturing projects, only for purposes of technical review, technical reports need to address only the technologically new commercial scale processing and manufacturing equipment and required facilities.

VII. Biobased Product Manufacturing Application Processing Procedures

The application processing procedures will remain the same for biobased product manufacturing projects as for the projects described above.

For applications submitted under this Notice, "local owner" is defined as an individual who owns any portion of an eligible biorefinery and whose primary residence is located within 100 miles of the biorefinery.

VIII. Biobased Product Manufacturing Scoring

In lieu of the criteria listed in 7 CFR 4279.266, biobased product manufacturing projects will be scored using the criteria listed below. The scoring criteria below will remain in effect until amended by another **Federal Register** Notice. The scoring criteria are as follows:

(a) Whether the borrower has established a market for the manufactured biobased product, as applicable. A maximum of 16 points can be awarded. Points to be awarded will be determined as follows:

(1) Degree of commitment of contracted sales agreements. A maximum of 6 points will be awarded.

(i) If the borrower has signed contracts for purchase for greater than 50 percent of the dollar value of manufactured

biobased product, 6 points will be awarded.

(ii) If the borrower has signed letters of intent to enter into contracted sales agreements, or comparable documentation, for the purchase for greater than 50 percent of the dollar value of the manufactured biobased product, or combination of signed contracts or agreements and letters of intent or comparable documentation, 4 points will be awarded.

(iii) If the borrower has signed letters of interest to enter into contracted sales agreements, or comparable documentation, for the purchase for greater than 50 percent of the dollar value of the manufactured biobased product, or combination of signed contracts, letters of intent or comparable documentation, 2 points will be awarded.

(2) Duration of contracted sales agreements. A maximum of 6 points will be awarded.

(i) If the borrower commits to enter into contracted sales agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of manufactured biobased product for the period not less than the loan term, 6 points will be awarded.

(ii) If the borrower commits to enter into contracted sales agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of the manufactured biobased product for the period not less than 5 years but less than the term of the loan, 4 points will be awarded.

(iii) If the borrower commits to enter into contracted sales agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of the manufactured biobased product for the period not less than 1 year but less than 5 years, 2 points will be awarded.

(3) Financial strength of the contracted sales agreement counterparty. A maximum of 4 points will be awarded.

(i) If the borrower commits to enter into contracted sales agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of the manufactured biobased product with a counterparty with a corporate credit rating not less than AA, Aa2, or equivalent, 4 points will be awarded.

(ii) If the borrower commits to enter into contracted sales agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of the manufactured biobased product with a counterparty with a corporate credit rating less than AA, Aa2, or equivalent, but not less than

A-, or A3, or equivalent, 2 points will be awarded.

(iii) If the borrower commits to enter into contracted sales agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of the manufactured biobased product with a counterparty with a corporate credit rating less than A-, or A3, or equivalent, but not less than BBB-, or Baa3, or equivalent, 1 point will be awarded.

(b) Whether the area in which the borrower proposes to place the project, defined as the area that will supply the renewable chemicals and other biobased outputs of biorefineries to the proposed project, has any other similar facilities. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If the area that will supply the renewable chemicals and other biobased outputs of biorefineries to the proposed project does not have any other similar facilities, 5 points will be awarded.

(2) If there are other similar facilities located within the area that will supply the renewable chemicals and other biobased outputs of biorefineries to the proposed project, 0 points will be awarded.

(c) Whether the borrower is proposing to use renewable chemicals and other biobased outputs of biorefineries not previously used in the biobased product manufacturing. A maximum of 10 points can be awarded. Points to be awarded will be determined as follows:

(1) If the borrower proposes to use renewable chemicals and other biobased outputs of biorefineries previously used in the manufacture of a biobased product in a commercial facility, 0 points will be awarded.

(2) If the borrower proposes to use renewable chemicals and other biobased outputs of biorefineries not previously used in the manufacture of a biobased product in a commercial facility, 10 points will be awarded.

(d) Whether the borrower is proposing to work with producer associations or cooperatives. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If at least 50 percent of the dollar value of renewable chemicals and other biobased outputs of biorefineries to be used by the proposed project will be supplied by producer associations and cooperatives or biorefineries supplied by producer associations and cooperatives, 5 points will be awarded.

(2) If at least 30 percent of the dollar value of renewable chemicals and other biobased outputs of biorefineries to be used by the proposed project will be supplied by producer associations and

cooperatives or biorefineries supplied by producer associations and cooperatives, 3 points will be awarded.

(e) The level of financial participation by the borrower, including support from non-Federal Government sources and private sources. A maximum of 20 points can be awarded. Points to be awarded will be determined as follows:

(1) If the sum of the loan amount requested and other direct Federal funding is less than or equal to 50 percent of total eligible project costs, 20 points will be awarded.

(2) If the sum of the loan amount requested and other direct Federal funding is greater than 50 percent but less than or equal to 55 percent of total eligible project costs, 16 points will be awarded.

(3) If the sum of the loan amount requested and other direct Federal funding is greater than 55 percent but less than or equal to 60 percent of total eligible project costs, 12 points will be awarded.

(4) If the sum of the loan amount and other direct Federal funding is greater than 60 percent but less than or equal to 65 percent of total eligible project costs, 8 points will be awarded.

(5) If the sum of the loan amount and other direct Federal funding is greater than 65 percent but less than or equal to 70 percent of total eligible project costs, 4 points will be awarded.

(f) Whether the borrower has established that the adoption of the manufacturing process proposed in the application will have a positive effect on three impact areas: Resource conservation (*e.g.*, water, soil, forest), public health (*e.g.*, potable water, air quality), and the environment (*e.g.*, compliance with an applicable renewable fuel standard, greenhouse gases, emissions, particulate matter). A maximum of 10 points can be awarded. Based on what the borrower has provided in either the application or the feasibility study, points to be awarded will be determined as follows:

(1) If process adoption will have a positive impact on any one of the three impact areas (resource conservation, public health, or the environment), 3 points will be awarded.

(2) If process adoption will have a positive impact on two of the three impact areas, 6 points will be awarded.

(3) If process adoption will have a positive impact on all three impact areas, 10 points will be awarded.

(g) Whether the borrower can establish that, if adopted, the technology proposed in the application will not have any economically significant negative impacts on existing manufacturing plants or other facilities

that use renewable chemicals and other biobased outputs of biorefineries. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If the borrower has failed to establish, through an independent third-party feasibility study, that the production technology proposed in the application, if adopted, will not have any economically significant negative impacts on existing manufacturing plants or other facilities that use similar renewable chemicals and other biobased outputs of biorefineries, 0 points will be awarded.

(2) If the borrower has established, through an independent third-party feasibility study, that the production technology proposed in the application, if adopted, will not have any economically significant negative impacts on existing manufacturing plants or other facilities that use renewable chemicals and other biobased outputs of biorefineries, 5 points will be awarded.

(h) The potential for rural economic development. A maximum of 10 points can be awarded. Points to be awarded will be determined as follows:

(1) If the project is located in a rural area, 5 points will be awarded.

(2) If the project creates jobs through direct employment with an average wage that exceeds the county median household wages where the project will be located, 5 points will be awarded.

(i) The level of local ownership of the facility proposed in the application. For the purposes of this Notice, a local owner is defined as "An individual who owns any portion of an eligible advanced biofuel biorefinery and whose primary residence is located within 100 miles of the biorefinery." A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(A) If local owners have an ownership interest in the facility of more than 20 percent but less than or equal to 50 percent, 3 points will be awarded.

(B) If local owners have an ownership interest in the facility of more than 50 percent, 5 points will be awarded.

(j) Whether the project can be replicated. A maximum of 10 points can be awarded. Points to be awarded will be determined as follows:

(1) If the project can be commercially replicated regionally (*e.g.*, Northeast, Southwest, etc.), 5 points will be awarded.

(2) If the project can be commercially replicated nationally, 10 points will be awarded.

(k) If the project uses a particular technology, system, or process that is not currently operating at commercial

scale as of October 1 of the fiscal year for which the funding is available; October 1, 2019, 5 points will be awarded.

(l) The Administrator can award up to a maximum of 10 bonus points:

(i) To ensure, to the extent practical, there is diversity in the types of projects approved for loan guarantees to ensure a wide a range as possible technologies, products, and approaches are assisted in the program portfolio; and

(ii) To applications that promote partnerships and other activities that assist in the development of new and emerging technologies for the development of renewable chemicals and other biobased outputs of biorefineries, so as to, as applicable, promote resource conservation, public health, and the environment; diversify markets for agricultural and forestry products and agriculture waste material; and create jobs and enhance the economic development of the rural economy. No additional information regarding partnerships is provided at this time. If additional information does become available, the Agency will publish those details in a **Federal Register** notice.

IX. General Program Information

A. Loan Origination. Lenders seeking a loan guarantee under this Notice must comply with all the provisions found in 7 CFR 4279, subpart C.

B. Loan Processing. The Agency will process loans guaranteed under this Notice in accordance with the provisions specified in 7 CFR 4279.260 through 4279.290.

C. Evaluation of Applications and Awards. Awards under this Notice will be made on a competitive basis; submission of an application neither reserves funding nor ensures funding. The Agency will evaluate each application received in the USDA Rural Business-Cooperative Service, Energy Programs, select Phase 1 applications in accordance with 7 CFR 4279.267 to invite submittal of Phase 2 applications and will make awards using the provisions specified in 7 CFR 4279.278.

D. Guaranteed Loan Servicing. The Agency will service loans guaranteed under this Notice in accordance with the provisions specified in 7 CFR 4287.301 through 4287.399.

X. Administration Information

A. Notifications. The Agency will notify, in writing, lenders whose Phase 1 applications have scored highest and will invite them to submit Phase 2 applications. If the Agency determines it is unable to guarantee any particular loan, the lender will be informed in

writing. Such notification will include the reason(s) for denial of the guarantee.

B. Administrative and National Policy Requirements.

1. *Review or Appeal Rights.* A person may seek a review of an Agency decision or appeal to the National Appeals Division in accordance with 7 CFR 4279.204.

2. *Exception Authority.* The provisions specified in 7 CFR 4279.203 and 7 CFR 4287.303 apply to this Notice.

C. Environmental Review. The Agency will review all applicant proposals that may qualify for assistance under this section in accordance with 7 CFR part 1970, Environmental Policies and Procedures. The environmental review for projects that score high enough will be submitted during the Phase 2 application process and must be conducted in accordance with 7 CFR part 1970, Environmental Policies and Procedures.

XI. Agency Contacts

For general questions about this Notice, please contact Aaron Morris, Rural Business–Cooperative Service, Energy Programs, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 6901–S, Washington, DC 20250–3225. Telephone: 202–720–1501. Email: Aaron.Morris@usda.gov.

Equal Opportunity and Non-Discrimination Requirements

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program. Political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARTET Center at (202) 720–2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877–8339. Additionally, program information may

be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD–3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of a complaint form, call, (866) 632–9992. Submit your completed form or letter to USDA by:

(1) *Mail:* U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250–9410;

(2) *Fax:* (202) 690–7442; or

(3) *Email at:* program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

Bette B. Brand,

Administrator, Rural Business-Cooperative Service.

BILLING CODE 3410–XY–P

DEPARTMENT OF COMMERCE

International Trade Administration

[C–489–817]

Oil Country Tubular Goods From the Republic of Turkey: Final Results of the Expedited First Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order would be likely to lead to the continuation or recurrence of a countervailable subsidy at the levels indicated in the “Final Results of Review” section of this notice.

DATES: Applicable October 15, 2019.

FOR FURTHER INFORMATION CONTACT: Aimee Phelan or Mary Kolberg, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2201 or (202) 482–1785, respectively.

SUPPLEMENTARY INFORMATION:

Background

On September 10, 2014, Commerce published in the **Federal Register** the

CVD order on oil country tubular goods (OCTG) from the Republic of Turkey (Turkey).¹ Subsequently on October 5, 2017, Commerce published an amended order consistent with the decision of the United States Court of Appeals for the Federal Circuit affirming Commerce's remand redetermination.² On June 4, 2019, Commerce published the notice of initiation of the first sunset review of the CVD order on OCTG Turkey, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).³ In June 2019, Commerce received a notice of intent to participate from the following domestic interested parties: Benteler Steel/Tube, Boomerang Tube, LLC, IPSCO Tubulars, Inc., Vallourec Star, LP, and Welded Tube USA Inc;⁴ Maverick Tube Corporation and Tenaris Bay City, Inc;⁵ and United States Steel Corporation. (U.S. Steel Corporation).⁶ All notices of intent to participate were timely filed within the deadline specified in 19 CFR 351.218(d)(1)(i). Additionally, each of these companies claimed interested party status under section 771(9)(C) of the Act, as a domestic producer of OCTG.

Commerce received an adequate substantive response to the notice of initiation from the domestic producers within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁷ On July 4, 2019, we received a timely substantive response from the government of Turkey (GOT).⁸ The domestic interested parties
