

Android™ phone or Android tablet (See <https://www.gotomeeting.com/webinar/ipad-iphone-android-webinar-apps>). You may send an email to Mr. Kris Kleinschmidt or contact him at (503) 820-2280, extension 411 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Todd Phillips, Staff Officer; telephone: (503) 820-2426.

SUPPLEMENTARY INFORMATION: The primary purpose of the GMT webinar is to prepare for the Pacific Council's November 2019 agenda items and develop recommendations for consideration by the Pacific Council. The GMT will discuss items related to groundfish management and administrative Pacific Council agenda items. A detailed agenda for the webinar will be available on the Pacific Council's website prior to the meeting. The GMT may also address other assignments relating to groundfish management. No management actions will be decided by the GMT.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the GMT's intent to take final action to address the emergency.

Special Accommodations

The public listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, (503) 820-2411, at least 10 days prior to the meeting date.

Dated: October 9, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting (webinar).

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Habitat Committee (HC) will hold a meeting via webinar, which is open to the public.

DATES: The webinar will be held Wednesday, October 30, 2019 at 9 a.m., Pacific Daylight Time, and will end at noon on the same day.

ADDRESSES: A public listening station is available at the Pacific Council office (address below). To attend the webinar, use this link: <https://www.gotomeeting.com/webinar> (click "Join" in top right corner of page); (1) Enter the Webinar ID: 536-450-845; (2) Enter your name and email address (required). You must use your telephone for the audio portion of the meeting by dialing this TOLL number: 1 (224)-501-3412; (3) Enter the Attendee phone audio access code: 536-450-845. *Note:* We have disabled Mic/Speakers as an option and require all participants to use a telephone or cell phone to participate. Technical Information and System Requirements: PC-based attendees are required to use Windows® 7, Vista, or XP; Mac®-based attendees are required to use Mac OS® X 10.5 or newer; Mobile attendees are required to use iPhone®, iPad®, Android™ phone or Android tablet (see <https://www.gotomeeting.com/webinar/ipad-iphone-android-webinar-apps>). You may send an email to Mr. Kris Kleinschmidt at Kris.Kleinschmidt@noaa.gov or contact him at (503) 820-2280, extension 411 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT:

Jennifer Gilden, Pacific Council; telephone: (503) 820-2418.

SUPPLEMENTARY INFORMATION: Major topics include but are not limited to habitat-related topics, including letters for Pacific Council approval on the Central Valley Project and Klamath dam

removal, the Jordan Cove Liquefied Natural Gas project, Bureau of Ocean Energy Management activities, a brief planning discussion regarding southern resident killer whale habitat, and other matters.

The group may also address one or more of the Pacific Council's scheduled administrative matters, legislative matters, ecosystem topics, groundfish topics, and future workload planning. Public comments during the webinar will be received from attendees at the discretion of the HC Chair.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of fourteen permit applications for enhancement and monitoring purposes, including an associated Template Safe Harbor Agreement and site plans developed for the proposed enrolled properties.

SUMMARY: We, NMFS, announce receipt of 14 (Permit Numbers 23271, 23276, 23278, 23279, 23280, 23284, 23285,

23286, 23287, 23288, 23289, 23290, 23291, 23434) applications for enhancement of survival permits under the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531 *et seq.*), and proposed entry into an associated Template Safe Harbor Agreement (Agreement) between the applicants and NMFS. The proposed enhancement of survival permits and Agreement are intended to promote the survival and recovery of the Southern Oregon/Northern California Coast (SONCC) coho salmon (*Oncorhynchus kisutch*) Evolutionary Significant Unit (ESU), which is listed as threatened under the ESA.

DATES: Comments or requests for a public hearing on the actions proposed in the applications must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific Standard Time on November 14, 2019.

ADDRESSES: Written comments on the applications should be submitted to the California Coastal Office, NMFS, 1655 Heindon Road, Arcata, CA 95521 707-822-7201. Comments may also be submitted via fax to 707-822-4840, or by email to Shasta.sha@noaa.gov (include the permit numbers in the subject line of the fax or email).

FOR FURTHER INFORMATION CONTACT: Jim Simondet, Arcata, CA (ph.: 707-822-7201; Fax: 707-825-4840; email: Shasta.sha@noaa.gov.) Permit application are available upon request through the contact information above, or online at <https://apps.nmfs.noaa.gov>.

SUPPLEMENTARY INFORMATION:

Species Covered in this Notice

The following ESA-listed species is covered in this notice:

- Threatened coho salmon (*Oncorhynchus kisutch*): Southern Oregon/Northern California Coast (SONCC) Evolutionary Significant Unit (ESU)

Authority

Enhancement permits are issued in accordance with Section 10(a)(1)(A) of the ESA (16 U.S.C. 1539(a)(1)(A)) and regulations governing listed fish and wildlife permits (50 CFR part 222, subpart C). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; (3) are consistent with the purposes and policies of Section 2 of the ESA; (4) would further a bona fide and necessary or desirable scientific purpose or enhance the propagation or survival of the endangered species, taking into account the benefits anticipated to be derived on behalf of the endangered species; and additional issuance criteria (as listed at 50 CFR 222.308(c)(5-12)). The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Permit Applications Received

Fourteen applicants are requesting individual enhancement of survival permits and entry of an associated Agreement that was developed by

NMFS, California Department of Fish and Wildlife (CDFW), the Shasta Watershed Conservation Group (SWCG) and the Applicants. The 14 Applicants (Table 1) each developed site plans for their respective properties (*i.e.*, Enrolled Properties) that describe management activities that will be implemented, including beneficial activities for SONCC coho salmon (the covered species). The site plans, Agreement, and enhancement of survival permits are expected to promote the recovery of the covered species on non-Federal property within the Shasta River in the Agreement Area (see Figure 1 in the Agreement). The Shasta River is a tributary to the Klamath River and is in Siskiyou County, California. The proposed duration of the Agreement and the associated enhancement of survival permits is 20 years. The proposed enhancement of survival permits would authorize the incidental taking of SONCC coho salmon that may be associated with covered activities, including beneficial management activities, routine ranch management activities, and the potential future return of the enrolled properties to baseline conditions at the end of the Agreement, as defined in the Agreement. The site plans and Agreement specify the beneficial management activities to be carried out on the enrolled properties and a schedule for implementing those activities. The site plan and Agreement are expected to promote the recovery of SONCC coho salmon within the Shasta River within the Agreement Area.

Applicant	Permit No.	Enrolled property
Outpost North Annex California Department of Fish and Wildlife.	23271 23276	Belcampo-North Annex Property, 8030 Siskiyou Blvd, Grenada, CA 96038. Big Springs Ranch Wildlife Area, 41°35'44.76 N, 122°27'31.52 W.
Cardoza Ranch	23278	Cardoza Ranch, 3710 East Louie Road, Montague, CA 96064.

Emmerson Investments, Inc	23291	Shasta Springs Ranch, 21305 Slough Road, Weed, CA 96094.

listed species that result in a net conservation benefit to these species. Under the policy, landowners are provided certainty relative to future property-use restrictions, even if their conservation efforts attract listed species onto enrolled properties or increase the numbers or distribution of listed species already present. Subject to specifications in the relevant documents, these regulatory assurances allow the landowners to alter or modify enrolled property, even if such alteration or modification results in the incidental take of a listed species to such an extent that it returns the species back to the originally agreed upon baseline conditions. NMFS reviewed each present baseline and elevated baseline determination in each site plan. The site plans and Agreement also contain a monitoring component that requires the Applicants to ensure compliance with the terms and conditions, and that the specified baseline levels of habitat for the covered species is maintained on the enrolled property. Results of the monitoring efforts will be provided to NMFS by the Applicants in an annual report for the duration of the 20-year permit term.

Upon approval of the Agreement and site plans, and consistent with the Safe Harbor Policy, NMFS will issue enhancement of survival permits to the Applicants. The enhancement of survival permits will authorize the Applicants to take SONCC coho salmon incidental to the implementation of the covered activities specified in the site plans and Agreement, incidental to other lawful uses of the enrolled property, and to return to present baseline and elevated baseline conditions, if desired, at the end of the site plans and Agreement. In addition to meeting other criteria, actions to be performed under the enhancement of survival permit must not jeopardize the existence of federally listed species.

National Environmental Policy Act

Issuing an ESA section 10(a)(1)(A) permit constitutes a Federal action requiring NMFS to comply with the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) as implemented by 40 CFR parts 1500–1508 and NOAA Administrative Order 216–6, Environmental Review Procedures for Implementing the National Policy Act (1999). NMFS will evaluate the application(s) and determine the level of NEPA analysis needed for this action.

Public Comments Solicited

NMFS invites the public to comment, including any written data, views, or

arguments, on the permit applications during a 30-day public comment period beginning on the date of this notice. This notice is provided pursuant to Section 10(c) of the ESA (16 U.S.C. 1539(c)), 50 CFR 222.303. All comments and materials received, including names and addresses, will become part of the administrative record and may be released to the public. We provide this notice in order to allow the public, agencies, or other organizations to review and comment on these documents.

Next Steps

NMFS will evaluate the applications, associated documents, and comments submitted to determine whether the applications meet the requirements of Section 10(a)(1)(A) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day public comment period and after NMFS has fully considered all relevant comments received. NMFS will also meet other legal requirements prior to taking final action, including preparation of a biological opinion. NMFS will publish notice of its final action in the **Federal Register**.

Dated: October 9, 2019.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of scheduled SEDAR 60 South Atlantic Red Porgy Data Webinar.

SUMMARY: The SEDAR 60 assessment of the South Atlantic stock of Red Porgy will consist of a data webinar, an in-person workshop, and a series assessment webinars.

DATES: The SEDAR 60 Red Porgy Data Webinar has been scheduled for Friday, November 15, 2019, from 10:30 a.m. to 12:30 p.m.

ADDRESSES:

Meeting Address: The meeting will be held via webinar. The webinar is open to members of the public. Registration is available online at: <https://attendee.gotowebinar.com/register/7129924289729240331>

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT:

Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571–4366; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.
