SUPPLEMENTARY INFORMATION: CRI has requested to expand its operations at the Rochester and Packard mines by modifying its approved Plan of Operations. The mine is located approximately 26 miles northeast of Lovelock, Nevada. The mine is currently authorized to disturb up to 2,203.1 acres (approximately 164.6 acres of private land and 2,038.5 acres of public land), which was analyzed in a series of EISs and Environmental Assessments beginning in 1986 through the latest EIS in 2015. The Proposed Action is to expand mining in both of CRI's current pits (the Rochester and Packard pits) and move, relocate, or expand heap leach pads, waste rock dumps, haul roads, access road, water pipeline, and processing facilities. The proposal would increase disturbance by 2,815.4 acres (435.2 acres on private land and 2,380.2 acres on public land).

Mining of the Rochester Pit would extend below the groundwater resulting in a permanent pit lake after closure. Additional, potentially acid generating material would be excavated and would be processed as ore or stored according to CRI's Waste Rock Storage Plan. The plan would also necessitate an upgrade in power distribution lines and a substation. With the proposed expansion, mine life would be extended to 2033, and would be followed by mine closure and reclamation.

The purpose of this comment period is for the public to review and provide comments on the Draft EIS. The Draft EIS, after scoping, has identified and analyzed impacts to the following resource areas: Air and atmospheric resources; cultural resources; noxious weeds, invasive species and non-native species; migratory birds; Native American religious concerns; wastes and materials (hazardous and solid); water quality (surface and ground); geology, minerals, and energy; lands and realty; paleontology; rangeland management; recreation; social values and economics; soils; special status species (plants and wildlife); transportation and access; vegetation; visual resources; and wildlife.

The Draft EIS describes and analyzes the Proposed Action's direct, indirect, and cumulative impacts on all affected resources. In addition to the Proposed Action, the following alternatives are also analyzed in the document: (1) Alternative 1, which is an alternate method to manage and store potentially acid generating material; (2) Alternative 2, which was developed to address and manage pit lake development and water quality; and (3) The No Action Alternative.

The BLM has consulted and continues to consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts to Indian trust assets and potential impacts to cultural resources have been analyzed in the Draft EIS. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the Proposed Action that the BLM is evaluating, are invited to participate in the comment process.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Subijoy Dutta by email at sdutta@blm.gov, or by telephone at 202-912-7152.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, the BLM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps to assess the impact of the BLM's information collection requirements and minimize the public's reporting burden. Additionally, it helps the public understand the BLM's information collection requirements and provides the requested data in the desired format.

The BLM is soliciting comments on the ICR that is described below. The BLM is especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the BLM; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the BLM enhance the quality, utility, and clarity of the information to be collected; and (5) how might the BLM minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this Notice are a matter of public record. The BLM will include or summarize each comment in our request to Office of Management and Budget (OMB) to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask in your comment to the BLM to withhold your personal identifying information from public review, the BLM cannot guarantee that it will be able to do so.
