If a person other than Solis Tek requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d) and (f).

If a hearing is requested by a person whose interest is adversely affected, the Commission will issue an order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section IV above shall be final 30 days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section IV shall be final when the extension expires if a hearing request has not been received.

Evaluation and Conclusion

On May 15, 2019, the U.S. Nuclear Regulatory Commission (NRC) issued a Notice of Violation and Proposed Imposition of Civil Penalty (Notice) for violations identified during an NRC investigation and inspection. Solis Tek, Incorporated (Solis Tek or Licensee) responded to the Notice on June 10, 2019. Solis Tek did not dispute the violations or severity, however, Solis Tek requested mitigation of the proposed civil penalty amount. The NRC's evaluation and conclusion regarding Solis Tek's request is as follows:

Summary of Solis Tek's Request for Mitigation of Civil Penalty Amount

Solis Tek requested termination of the license, Alternative Dispute Resolution (ADR) mediation, and a decrease of the civil penalty amount due.

NRC Evaluation of Licensee's Request

In its letter dated June 10, 2019, Solis Tek requested termination of License Number 29-35415-01E. The NRC issued the license termination for this license on October 9, 2019 (ADAMS Accession No. ML19206A096).

The NRC's interest in the ADR process is mutually agreeable changes to a licensee's program that result in not only corrective

actions to restore compliance and maintain compliance in the future, but also to make a stronger, more robust licensee program. The outcome of an ADR is an Order that amends the license. This is not compatible with termination of a license. The NRC Enforcement Policy, Section 2.4.3 states, in part, that in some circumstances, it may not be appropriate for the NRC to engage in ADR. The NRC has determined that it is not in the NRC's or the public's interest for NRC to engage in ADR given the request to terminate the license.

Section 2.5.5 of the NRC Enforcement Manual states, in part, that although Tables A and B in the Enforcement Policy are structured to take into account the gravity of a violation as a primary consideration, and a licensee's ability to pay as a secondary matter, there may be circumstances that warrant an adjustment to the base civil penalty or consideration of payment of a civil penalty over time. Section 2.5.5 also describes the information needed from a licensee to support the reduction of a civil penalty on this basis. During the exit call on June 5, 2019, Solis Tek requested information on installment payments, indicating that a lump sum payment of the civil penalty may pose a financial hardship. In an email dated June 6, 2019, the NRC provided Solis Tek with information regarding requesting payments over time or a reduction in penalty. The email indicated that such requests can be considered and summarized the information that is typically required to make a request on the basis of financial hardship. The email also reminded Solis Tek that there was an email address and phone number in the "Payment Methods" brochure that was enclosed with the final action letter for questions regarding payments. In this case, Solis Tek did not subsequently submit the information required to support a reduction in penalty or payments over time on this basis.

Conclusion

Based on its evaluation, the NRC has concluded that these violations occurred as stated, that engaging in ADR is not in the NRC's or the public's interest, and that Solis Tek did not provide an adequate basis for mitigation of the proposed civil penalty. Therefore, the NRC will impose a civil penalty in the amount of \$43,500.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-280 and 50-281; NRC-2018-0280]

Virginia Electric and Power Company; Dominion Energy Virginia: Surry Power Station, Unit Nos. 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft supplemental environmental impact statement; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft plant-specific Supplement 6, Second Renewal, to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, NUREG-1437, regarding the subsequent renewal of Facility Operating License Nos. DPR-32 and DPR-37 for an additional 20 years of operation for Surry Power Station, Unit Nos. 1 and 2 (Surry). The Surry facility is located in Surry County, Virginia. Possible alternatives to the proposed action (subsequent license renewal) include no action and reasonable replacement power alternatives.

DATES: The staff will hold a webinar on the draft Environmental Impact Statement in November, including a presentation on the preliminary findings and a transcribed public comment session. The webinar details will be announced in the near future. Submit either electronic or written comments by December 10, 2019. Comments received after this date will be considered, if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC-2018-0280. Address questions about NRC docket IDs to Anne Frost; telephone: 301-287-9232; email: Anne.Frost@nrc.gov. SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2018-0280 when contacting the NRC about

the availability of information regarding this document. You may obtain publicly-available information related to this document by any of the following methods:

- *Federal Rulemaking Website*: Go to <https://www.regulations.gov/> and search for Docket ID NRC–2018–0280.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may access publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that the document is referenced here. Draft plant-specific Supplement 6, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG–1437, is available in ADAMS under Accession No. ML19274C676.

B. Submitting Comments

Please include Docket ID NRC–2018–0280 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed. The NRC will post all comment submissions at <https://www.regulations.gov/> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC

does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC is issuing for public comment draft plant-specific Supplement 6, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG–1437, regarding the subsequent renewal of Facility Operating License Nos. DPR–32 and DPR–37 for an additional 20 years of operation for Surry, Unit Nos. 1 and 2. Draft plant-specific Supplement 6, Second Renewal, to the GEIS includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. The NRC's preliminary recommendation is that the adverse environmental impacts of subsequent license renewal for Surry are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable.

Dated at Rockville, Maryland, this 17th day of October 2019.

For the Nuclear Regulatory Commission.

John Tappert,

Director, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.
