

Further, while the proposed Cybersecurity Confirmation would identify certain standards and guidelines that would be appropriate, NSCC would consider requests by applicants and Members to allow other standards in accepting a Cybersecurity Confirmation. Additionally, the proposed Cybersecurity Confirmation would provide differing options to conduct the review of the applicant's or Member's cybersecurity program. As such, NSCC has endeavored to design the Cybersecurity Confirmation in a way that is reasonable and does not require one approach for meeting its requirements.

Finally, NSCC is proposing to provide Members with a minimum of 180 calendar days' notice before the deadline for providing a Cybersecurity Confirmation. This notice would allow Members to address any impact this change may have on their business. Applicants would be required to provide the Cybersecurity Confirmation as part of their application materials upon the effective date of this proposed rule change. This implementation schedule is designed to be fair and not disproportionately impact any Members more than others. The proposal is designed to provide all impacted Members with time to review their cybersecurity programs with respect to the required representations, and identify, if necessary, internal or third party cybersecurity reviewers.

For the reasons described above, NSCC believes any burden on competition that may result from the proposed rule change would be both necessary and appropriate in furtherance of the purposes of the Act, as permitted by Section 17A(b)(3)(I) of the Act.<sup>23</sup>
