Title: FERC-577, Natural Gas Facilities: Environmental Review and Compliance.

OMB Control No.: 1902-0128.

Type of Request: Three-year extension of the FERC-577 with no changes to the current reporting requirements.

Abstract: The FERC-577 contains the Commission's information collection pertaining to regulations which implement the National Environmental Policy Act (NEPA) as well as the reporting requirements for landowner notifications. These requirements are contained in 18 CFR parts 2, 157, 284, and 380. The information to be submitted includes draft environmental material in accordance with the provisions of Part 380 of FERC's regulations in order to implement the Commission's procedures under NEPA. Without such information, the Commission would be unable to fulfill its statutory responsibilities under the Natural Gas Act (NGA), NEPA, and the Energy Policy Act of 2005. Specifically, these responsibilities include ensuring company activities remain consistent with the public interest, which is specified in the NGA and inherent in the other statutes.

Type of Respondents: Companies proposing Natural Gas Projects under section 7 and Jurisdictional Gas Pipeline and Storage Companies.

Estimate of Annual Burden.¹ The Commission estimates the annual public reporting burden and cost² for the information collection as follows.

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection

of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use

of automated collection techniques or other forms of information technology.
