AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal

Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before January 6, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

authority for this collection is contained in Sections 4(i), 7, 302, 303(c), 303(e), 303(f) and 303(r) of the Communications Act of 1934, as amended; 47 U.S.C. 154(i), 157, 302, 303(c), 303(e), 303(f) and 303(r).

This information collection is revised to reflect a decrease in annual costs from \$530,340 to \$529,160 due to the Commission's elimination of equipment certification fees. This results in a program change of –\$1,180 in annual costs.

The purposes of this collection are to obtain information necessary for licensing operators of Mobile-Satellite Service (MSS) networks to provide ancillary services in the U.S. via terrestrial base stations (Ancillary Terrestrial Components, or ATCs); obtain the legal and technical information required to facilitate the integration of ATCs into MSS networks in the L-Band and the 1.6/2.4 GHz Bands; and to ensure that ATC licensees meet the Commission's legal and technical requirements to develop and maintain their MSS networks and operate their ATC systems without causing harmful interference to other radio systems.

This information collection is used by the Commission to license commercial ATC radio communication services in the United States, including low-power ATC. The revised collection is to be used by the Commission to regulate equipment manufacturers and licensees of low-power ATC networks. Without the collection of information that would result from these final rules, the Commission would not have the necessary information to grant entities the authority to operate commercial ATC stations and provide telecommunications services to consumers.
