We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: More than 6,500 nonindigenous species are now established in the United States, posing risks to native species, valued ecosystems, and human and wildlife health. These invasive species extract a huge cost, an estimated \$120 billion per year, to mitigate their harmful impacts. The current annual environmental, economic, and health-related costs of invasive species exceed those of all other natural disasters combined.

Through its Invasive Species Program (http://www.usgs.gov/ecosystems/invasive_species/), the U.S. Geological Survey (USGS) plays an important role in Federal efforts to combat invasive species in natural and semi-natural areas through early detection and assessment of newly established invaders; monitoring of invading populations; and improving understanding of the ecology of invaders and factors in the resistance of habitats to invasion. The USGS provides the tools, technology, and information supporting efforts to prevent, contain, control, and manage invasive species nationwide. To meet user needs, the USGS also develops methods for compiling and synthesizing accurate and reliable data and information on invasive species for inclusion in a distributed and integrated web-based information system.

As part of the USGS Invasive Species Program, the Nonindigenous Aquatic Species (NAS) database (<http://nas.er.usgs.gov/>) functions as a repository and clearinghouse for occurrence information on nonindigenous aquatic species from across the United States. It contains locality information on approximately 1,300 species of vertebrates, invertebrates, and vascular plants introduced since 1850. Taxa include foreign species as well as those native to North America that have been transported outside of their natural range. The NAS website provides immediate access to new occurrence records through a real-time interface with the NAS database. Visitors to the website can use a set of predefined queries to obtain lists of species according to state or hydrologic basin of interest. Fact sheets, distribution maps, and information on new occurrences are continually posted and updated. Dynamically generated species distribution maps show the spatial accuracy of the locations reported, population status, and links to more information about each report.

Title of Collection: Nonindigenous Aquatic Species Sighting Reporting Form and Alert Registration Form.

OMB Control Number: 1028-0098.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: State and local government employees, university personnel, and private individuals.

Total Estimated Number of Annual Respondents: We estimate approximately 350 respondents per year for the sighting report form (some respondents will submit multiple reports per year), and 50 respondents (*i.e.*, new registrations) per year for the alert registration form.

Total Estimated Number of Annual Responses: We estimate 600 responses per year for the sighting report form, and 50 responses (*i.e.*, new registrations) per year for the alert registration form.

Estimated Completion Time per Response: We estimate 3 minutes for the sighting report form, and 1 minute for the alert registration form.

Total Estimated Number of Annual Burden Hours: We estimate 30 hours for the sighting report form, and 1 hour for the alert registration form; a total of 31 hours for the two forms.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour

Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to

respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*)

Notice of Temporary Closure, Kasha-Katuwe Tent Rocks National Monument

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of temporary closure.

SUMMARY: Notice is hereby given that under the authority of the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Kasha-Katuwe Tent Rocks Resource Management Plan (RMP), Presidential Proclamation 7394, and other authorities, the Kasha-Katuwe Tent Rocks National Monument (Monument) will be temporarily closed November 12–15, 2019, for facility improvement installation.

DATES: The temporary closure will be in effect November 12–15, 2019. Upon completion of the facility installation, the Monument will reopen as normal. This temporary closure is compliant with the Monument RMP and Presidential Proclamation 7394.

FOR FURTHER INFORMATION CONTACT: Danita Burns, District Manager, Bureau of Land Management Albuquerque District Office, 100 Sun Avenue NE,

Suite 330, Pan American Building, Albuquerque, New Mexico 87109; 505–761–8700.

SUPPLEMENTARY INFORMATION: The BLM will post temporary closure signs a week prior to a closure at the main entry to the Monument. In addition, a temporary closure notice with all applicable dates will be posted on the BLM website: www.blm.gov/visit/kktr.

The Monument was designated on January 17, 2001, by Presidential Proclamation 7394 to provide opportunities for visitors to observe, study, and experience the geologic processes and cultural and biological objects of interest found in the area, as well as to protect these resources.

Closure: During the temporary closure, public access is prohibited.

Exceptions: The temporary closure order does not apply to persons performing authorized BLM construction, planning, maintenance, and/or emergency or law enforcement activities.

Penalties: Any person who violates this temporary closure or these restrictions may be tried before a United States Magistrate and fined in accordance with 18 U.S.C. 3571, imprisoned no more than 12 months under 43 U.S.C. 1733(a) and 43 CFR 8360.07, or both. In accordance with 43 CFR 8365.17, state or local officials may also impose penalties for violations of New Mexico law.

During these closure dates only BLM planning, administrative, and maintenance activities will be authorized, and no public access will be granted.

(Authority: FLPMA, the Kasha-Katuwe Tent Rocks RMP, Presidential Proclamation 7394, 43 CFR 8364.1, and 43 U.S.C. 1701 *et seq.*)
