SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Black Lung Benefits Act (the Act), 30 U.S.C. 901-944, requires coal mine operators to be insured (either by qualifying as a self-insurer or obtaining commercial insurance) for liabilities arising from the Act; failure to do so may result in civil money penalties. 30 U.S.C. 933. Accordingly, 20 CFR part V, subpart C, 726.208-.213 requires insurance carriers to report to the Division of Coal Mine Workers’ Compensation (DCMWC) each policy and endorsement issued, cancelled, or renewed with respect to operators in such a manner and on such form as DCMWC may require. These regulations also require carriers to file a separate report for each operator it insures. Carriers use Form CM-921, Notice of Issuance of Insurance Policy, to report issuance of insurance policies to operators. This information collection is currently approved for use through November 30, 2019. 30 U.S.C. 901 and 20 CFR 725.535 authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of
