

identifying information from public review, the BLM cannot guarantee that it will be able to do so.

**Abstract:** The BLM uses the required information to collect information from those who wish to participate in the exploration, development, production, and utilization of geothermal resources. The BLM has authority to issue geothermal leases in BLM-managed lands, and in national forests and other lands administered by the USFS. In this ICR, the BLM is proposing to revise Form 3200–9, Notice of Intent to Conduct Geothermal Resource Exploration Operations. A respondent submits this form either to the BLM or to the USFS, depending upon which agency has surface-management jurisdiction. Upon receiving such a form, the relevant agency determines whether to grant a permit to conduct geophysical exploration activities for geothermal resources. Approval by the authorizing agency is required before any ground-disturbing activities beyond casual use may commence. At present, Form 3200–9 refers directly only to the BLM. The proposed revisions of the form would simplify its use by both agencies. The BLM is proposing that the remaining forms in this ICR be renewed without revision.

Businesses that wish to participate in the exploration, development, production, and utilization of geothermal resources on BLM-managed public lands, and lands managed by other Federal surface-management agencies.

**Total Estimated Number of Annual Responses:** 914.
