quality, accurate data on recreational fisheries. Task Force advice will support and contribute to the development of an Agency roadmap to advance and guide implementation, where appropriate, of electronic data collection in private recreational fisheries (both shore and boat mode angling). The initial actions for consideration by the Task Force include:

• Identify and prioritize known data gaps relative to NOAA Fisheries' role in supporting management of marine recreational fisheries that could be addressed through mandatory or voluntary private recreational angler electronic reporting programs.

• Identify realistic and achievable goals for voluntary (also known as opt-in) and mandatory electronic reporting for private recreational anglers, as well as associated challenges and solutions, where identifiable.

• Provide recommendations on how the aforementioned goals could be best supported or achieved by NOAA Fisheries.

The Task Force will report to MAFAC and will not provide advice or work products directly to NMFS. Recommendations generated by this Task Force's efforts will not result in any regulatory decision, or obligate any party to undertake certain activities.

This Task Force will consist of approximately 10 individuals who have demonstrated subject matter expertise and experience in one or more relevant fields including, but not limited to, sampling statistics, survey methodologies, citizen science, fishery stock assessment science, electronic monitoring or reporting, fisheries management, database development and/or management, mobile technology applications (apps), and marine recreational fishing. It is not intended that all Task Force members be scientists or researchers; however, other members should have experience with issues related to the generation, delivery, and or use of opt-in electronic data, public attitudes about participating in such programs, or similar ecological self-reporting data systems from which parallels can be drawn. In addition to external members, at least one member of MAFAC will serve on the Task Force.

It is intended that the Task Force membership represent a diversity of the overall expertise and experience being sought. It will be established for an initial period of two (2) years with a possibility of extending that term if deemed necessary by NMFS and MAFAC. Task Force members should be able to fulfill the time commitments required for up to one meeting per month (mostly by webinar or teleconference and potentially in-person), and interim work as necessary. Members of the Task Force are not compensated for their services, but will upon request be provided travel and per diem expenses as authorized by 5 U.S.C. 5701 *et seq.* To view the full Recreational Electronic Reporting Task Force Terms of Reference, please visit *https://www.fisheries.noaa.gov/national/partners/marine-fisheries-advisory-committee-subcommittees-and-task-forces#task-forces.*

Nomination Materials

Each nomination submission must include: resume or curriculum vitae of the nominee and a cover letter, not to exceed 3 pages, that describes the nominee's interest in serving on the Task Force and how the nominee's expertise, experience, and other qualifications relate to one or more relevant fields noted in the prior section. Self-nominations are acceptable. The following contact information should accompany each nominee's submission: full name, address, telephone number, and email address.

Nominations should be sent to (see **ADDRESSES**) and must be received by January 21, 2020. Information about MAFAC, its Committee charter, current membership, and activities can be viewed on the NMFS' website at *https://www.fisheries.noaa.gov/topic/partners#marine-fisheries-advisory-committee.*

To comply with this requirement, the CFTC is publishing notice of a proposed extension of the currently approved information collection listed below. Title: Practice by Former Members and Employees of the Commission (OMB Control No. 3038–0025). This is a request for an extension of a currently approved information collection.

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.,* permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish the CFTC to consider information that you believe is exempt from disclosure under the Freedom of Information Act (FOIA), a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the CFTC's regulations.[1]
