

725.535 requires that DOL Black Lung benefit payments to a beneficiary for any month be reduced by any other payments of state or federal benefits for workers' compensation due to pneumoconiosis. See 30 U.S.C. 932(g). To ensure compliance with this mandate, the Office of Workers' Compensation Programs' Division of Coal Mine Workers' Compensation must collect information regarding the status of any state or Federal workers' compensation claim, including dates of payments, weekly or lump sum amounts paid, and other fees or expenses paid out for this award, such as attorney fees and related expenses associated with pneumoconiosis. Form CM-905 is used to request the amount of those workers' compensation benefits. This information collection is currently approved for use through February 29, 2020. 30 U.S.C. 901 and 20 CFR 725.535 authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1240-0032.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
