SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87619; File No. SR-NYSENAT-2019-27]

Self-Regulatory Organizations; NYSE National, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule 7.37 To Specify in Exchange Rules the Exchange's Use of Data Feeds From NYSE American LLC

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 15, 2019, NYSE National, Inc. ("NYSE National" or the "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.37 to update the Exchange's source of data feeds from NYSE American LLC ("NYSE American") for purposes of order handling, order execution, order routing, and regulatory compliance. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change

¹⁷ Section 19(b)(2) of the Act, as amended by the Securities Acts Amendments of 1975, Public Law 94-29, 89 Stat. 97 (1975), grants the Commission flexibility to determine what type of proceeding—either oral or notice and opportunity for written comments—is appropriate for consideration of a particular proposal by a self-regulatory organization. See Securities Acts Amendments of 1975, Report of the Senate Committee on Banking, Housing and Urban Affairs to Accompany S. 249, S. Rep. No. 75, 94th Cong., 1st Sess. 30 (1975).

and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to update and amend the use of data feeds table in Rule 7.37, which sets forth on a market-by-market basis the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks related to each of those functions. Specifically, the table would be amended to reflect that the Exchange will receive a direct feed from NYSE American as its primary source of data for order handling, order execution, order routing, and regulatory compliance.

Rule 7.37 currently provides that the Exchange will utilize the securities information processor ("SIP") data feed as its primary source for the handling, execution, and routing of orders, as well as for regulatory compliance. In connection with NYSE American's elimination of its delay mechanism,³ the Exchange will begin using a direct feed from NYSE American as its primary data feed. To reflect this change, the Exchange proposes to amend the table in Rule 7.37(d) to specify that it will use a direct feed from NYSE American, rather than the SIP data feed, as the primary source for that market, and that the Exchange would use the SIP data feed as a secondary source for that market.

The Exchange will implement this change on the same date that NYSE American eliminates its delay mechanism, which, subject to effectiveness of proposed rule changes, will be implemented in November 2019. The Exchange will announce this date via Trader Update.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),⁴ in general, and furthers the

objectives of Section 6(b)(5),⁵ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes its proposal to amend the table in Rule 7.37(d) to update the data feed source for NYSE American will ensure that Rule 7.37 correctly identifies and publicly states on a market-by-market basis all of the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks for each of those functions. The proposed rule change also removes impediments to and perfects the mechanism of a free and open market and protects investors and the public interest by providing additional specificity, clarity, and transparency in the Exchange's rules.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change is not designed to address any competitive issue, but rather would provide the public and investors with up-to-date information about which data feeds the Exchange uses for the handling, execution, and routing of orders, as well as for regulatory compliance.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if

consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁶ and Rule 19b-4(f)(6) thereunder.⁷

A proposed rule change filed under Rule 19b-4(f)(6)⁸ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),⁹ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative immediately. The Exchange states that such waiver is consistent with the protection of investors and the public interest because NYSE American intends to eliminate the above-described delay mechanism in fewer than 30 days, and thus, the Exchange believes that waiver of the operative delay would allow NYSE National to immediately provide enhanced transparency in its rules regarding the data feed it intends to utilize for NYSE American, once NYSE American eliminates its delay mechanism. Based on the foregoing, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest in that it allows the Exchange to begin using the direct data feed from NYSE American at the same time that NYSE American eliminates its delay mechanism. For this reason, the Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule

⁷ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to update and amend the use of data feeds table in Rule 7.37-E, which sets forth on a market-by-market basis the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks related to each of those functions. Specifically, the table would be amended to reflect that the Exchange will receive a direct feed from NYSE American as its primary source of data for order handling, order execution, order routing, and regulatory compliance.

Rule 7.37-E currently provides that the Exchange will utilize the securities information processor ("SIP") data feed as its primary source for the handling, execution, and routing of orders, as well as for regulatory compliance. In connection with NYSE American's elimination of its delay mechanism,³ the Exchange will begin using a direct feed from NYSE American as its primary data feed. To reflect this change, the Exchange proposes to amend the table in Rule 7.37-E(d) to specify that it will use a direct feed from NYSE American, rather than the SIP data feed, as the primary source for that market, and that the Exchange would use the SIP data feed as a secondary source for that market.

The Exchange will implement this change on the same date that NYSE American eliminates its delay mechanism, which, subject to effectiveness of proposed rule changes, will be implemented in November 2019. The Exchange will announce this date via Trader Update.
