

The NAEPPCC also fulfills charges, similar to those above, set forth in the Children's Health Act of 2000 (Pub. L. 106–310). In addition, the Children's Health Act of 2000 tasks the NHLBI, through the NAEPPCC, with submitting recommendations to Congress on ways to strengthen and improve coordination of asthma-related activities of the federal government.

The NAEPPCC consists of representatives from the major scientific, professional, governmental, and voluntary organizations interested in asthma. The Committee's primary mission is to advise the NHLBI on matters concerning asthma and to facilitate the exchange of information on asthma activities among the member agencies and voluntary health organizations.

The NHLBI administers and coordinates the Coordinating Committee. The Coordinating Committee meetings are open to the public and include presentations and discussion on a variety of topics concerning asthma, including activities and projects of the Committee.

NHLBI Asthma Guidelines

NHLBI produced its first asthma clinical practice guidelines in 1991 and an update was issued in 2007, Guidelines for the Diagnosis and Management of Asthma (EPR–3). In 2011, the National Asthma Education and Prevention Program concluded another update was needed and an Advisory Council of the NHLBI determined in 2012 that a needs assessment should be conducted prior to engaging in any guideline activity. In 2014, NHLBI Council convened an Asthma Expert Panel Working Group to conduct a needs assessment. The Working Group recommended that an update should be made to the 2007 clinical practice guidelines; identified five priority topics for immediate systematic review and update (subsequently changed to six priority topics); and recommended that the NHLBI maintain the NAEPP structure, coordinate the systematic reviews, and update the report. After public comments on the draft needs assessment report were received and reviewed, the Working Group recommended adding a sixth priority topic to the report.

The six priority topic areas identified by the Working Group are: (1) Adjustable medication dosing in recurrent wheezing and asthma (“intermittent therapy”), (2) long acting anti-muscarinic agents in asthma management as add-on to inhaled corticosteroids, (3) bronchial thermoplasty in adult severe asthma, (4)

fractional exhaled nitric oxide (FeNO) in diagnosis, medication selection, and monitoring treatment response, (5) remediation of indoor allergens (house dust mites/pets), and (6) the role of immunotherapy in the treatment of asthma.

The Working Group also recommended that several emerging topic areas be acknowledged and monitored, but did not yet merit systematic review.

NAEPPCC Expert Panel Report 4 (EPR–4) Working Group

The NAEPPCC Expert Panel Working Group 4 (EPR–4) was established in 2018 to update selected topics in the 2007 Guidelines for the Diagnosis and Management of Asthma, Expert Panel Report 3 (EPR–3). The Expert Panel Working Group members used findings from the following NHLBI-supported systematic reviews to develop updates to the 2007 guidelines.

- Role of Immunotherapy in the Treatment of Asthma
- Intermittent Inhaled Corticosteroids and Long-Acting Muscarinic Antagonist for Asthma
- Effectiveness of Indoor Allergen Reduction in Management of Asthma
- Effectiveness and Safety of Bronchial Thermoplasty in Management of Asthma
- The Clinical Utility of Fractional Exhaled Nitric Oxide (FeNO) in Asthma Management

The Expert Panel Working Group members include asthma content experts, specialists and primary care clinicians, health policy experts, implementation and dissemination experts and individuals with experience using the GRADE (Grading of Recommendations Assessment, Development and Evaluation) approach. A methodologist provided technical support to the Working Group.

National Institutes of Health

National Center for Advancing Translational Sciences; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Center for Advancing Translational Sciences Special Emphasis Panel—SBIR.

Date: December 18, 2019.

Time: 1:00 p.m. to 2:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, One Democracy Plaza, 6701 Democracy Boulevard, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Jing Chen, Ph.D., Scientific Review Officer, Office of Scientific Review, National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, 6701 Democracy Blvd., Democracy 1, Room 1080, Bethesda, MD 20892–4874, chenjing@mail.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.859, Pharmacology, Physiology, and Biological Chemistry Research; 93.350, B—Cooperative Agreements; 93.859, Biomedical Research and Research Training, National Institutes of Health, HHS)

Dated: November 25, 2019.

Melanie J. Pantoja,

Program Analyst, Office of Federal Advisory Committee Policy.
