SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Pesticide Registration Fees Program.

EPA ICR number: EPA ICR No. 2330.04.

OMB control number: OMB Control No. 2070-0179.

ICR status: This ICR is currently approved through September 30, 2020. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA regulations in title 40 of the Code of Federal Regulations (CFR) are

displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the paperwork burden hours and costs associated with the information collection activities under the pesticide registration fee programs implemented through the Office of Pesticide Programs (OPP). Pesticide registrants are required by statute to pay an annual registration maintenance fee for all products registered under sections 3 and 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). In addition, the Pesticide Registration Improvement Act (PRIA) amended FIFRA in 2004 to create a registration service fee system for applications for specific pesticide registration, amended registration, and associated tolerance actions (Section 33). This ICR specifically covers the activities related to the collection of the annual registration maintenance fees, the registration service fees and the burden associated with the submission of requests for fees to be waived.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,700 hours for the Pesticide Registration Maintenance Fee program and 6,840 for the Pesticide Registration Service Fee Waiver program. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:
