

Transmittal No. 19–54

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser*: Government of Japan.

(ii) *Total Estimated Value*:

Major Defense Equipment * ..	\$0 million
Other	140 million
Total	140 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase*:

Major Defense Equipment (MDE): None.

Non-MDE: Follow-On Technical Support (FOTS) sustainment and services in support of eight (8) Japan AEGIS Destroyers consisting of four (4) KONGO Class Destroyers, two (2) ATAGO Class Destroyers, two (2) MAYA Class Destroyers and one (1) Japanese Computer Test Site (JCPTS). The sustainment efforts will include AEGIS software updates, system integration and testing, U.S. Government and contractor technical assistance, and other related elements of logistics and program support.

(iv) *Military Department*: Navy (JA–P–QFA).

(v) *Prior Related Cases, if any*: JA–P–LYJ, JA–P–LZU, and JA–P–LZW.

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None.

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: None.

(viii) *Date Report Delivered to Congress*: October 1, 2019.

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Japan—Follow-On Technical Support (FOTS) for AEGIS Destroyers

The Government of Japan has requested to buy Follow-On Technical Support (FOTS) sustainment and services in support of eight (8) Japan AEGIS Destroyers consisting of four (4) KONGO Class Destroyers, two (2) ATAGO Class Destroyers, two (2) MAYA Class Destroyers and one (1) Japanese Computer Test Site (JCPTS). The sustainment efforts will include AEGIS software updates, system integration and testing, U.S. Government and contractor technical assistance, and other related elements of logistics and program support. The estimated cost is \$140 million.

This proposed sale will support the foreign policy and national security of the United States by improving the

security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region. It is vital to U.S. national interests to assist Japan in developing and maintaining a strong and effective self-defense capability.

The proposed follow-on technical support is critical to ensure Japan Maritime Self Defense Force's (JMSDF) Aegis Destroyer fleet and JCPTS remain ready to provide critical capabilities in the defense of Japan. Japan's AEGIS Destroyers provide ship-based ballistic missile defense capabilities and build upon a longstanding cooperative effort with the United States to provide enhanced capability with a valued partner in a geographic region of critical importance to Japan and the United States. Japan will have no difficulty absorbing this support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin, Moorestown, NJ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of two contractor representatives to Japan to support the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

BILLING CODE 5001–06–P

DEPARTMENT OF ENERGY

Proposed Agency Information Collection Extension

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years an information collection request with the Office of Management and Budget.

DATES: Comments regarding this proposed information collection must be received on or before February 3, 2020. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

ADDRESSES: Written comments should include DOCKET # EERE–2019–VT–0XXX in the subject line of the message

and be sent to: Mr. Dennis Smith, Office of Energy Efficiency and Renewable Energy (EE–3V), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585–0121, or by fax at 202–586–1600, or by email at Dennis.Smith@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Dennis Smith at Dennis.Smith@ee.doe.gov or via 202–586–1791.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of DOE, including whether the information shall have practical utility; (b) the accuracy of DOE's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

The Department of Energy is proposing to extend an information collection pursuant to the Paperwork Reduction Act of 1995. The approved collection is being used for three Clean Cities programmatic efforts. The first initiative is the collection of information for a voluntary plug-in electric vehicle (PEV) questionnaire that assists communities and DOE Clean Cities coalitions in assessing the level of readiness of their communities for PEVs. The second effort is intended to develop information that enables DOE to review the progress of DOE's National Clean Fleets Partnership (Partnership). The third effort is referred to as "Ride and Drive Surveys". DOE is not proposing to expand the scope of these information collection efforts.

This information collection request contains: (1) *OMB No.*: 1910–5171; (2) *Information Collection Request Title*: Clean Cities Vehicle Programs; (3) *Type of Review*: Renewal; (4) *Purpose*: DOE's Clean Cities initiative has developed three voluntary mechanisms by which communities, certain fleets, and the purchasing public can get a better understanding of their readiness for plug-in electric vehicles (PEVs), and to help DOE's Clean Cities coalitions prepare for the adoption of these vehicles review their progress in doing so. The voluntary PEV Scorecard is intended to assist communities and the coalitions in assessing the level of readiness of their communities for PEVs. The principal objectives of the questionnaire are to provide

respondents with an objective assessment and estimate of their respective community's readiness for PEVs as well as understand the respective community's goals related to integrating these vehicles, and allow communities to assess the magnitude of gaps in their readiness to achieve their goals. DOE intends the questionnaire to be completed by a city/county/regional sustainability or energy coordinator. As the intended respondent may not be aware of every aspect of local or regional PEV readiness, coordination among local stakeholders to gather appropriate information may be necessary.

DOE expects a total respondent population of approximately 1,250 respondents. Selecting the multiple-choice answers in completing a questionnaire is expected to take under 30 minutes, although additional time of no more than 20 hours may be needed to assemble information necessary to be able to answer the questions, leading to a total burden of approximately 25,625 hours. Assembling information to update questionnaire answers in the future on a voluntary basis would be expected to take less time, on the order of 10 hours, as much of any necessary time and effort needed to research information would have been completed previously.

For the Clean Fleets Partnership information collection, the Partnership is targeted at large, private-sector fleets that own or have contractual control over at least 50 percent of their vehicles and have vehicles operating in multiple States. DOE expects approximately 50 fleets to participate in the Partnership and, as a result, DOE expects a total respondent population of approximately 50 respondents. Providing initial baseline information for each participating fleet, which occurs only once, is expected to take 60 minutes. Follow-up questions and clarifications for the purpose of ensuring accurate analyses are expected to take up to 90 minutes. The total burden is expected to be 125 hours.

For the DOE Clean Cities initiative that involves the ride-and-drive surveys, DOE has developed a three-part voluntary survey to assist its coalitions and stakeholders in assessing the level of interest, understanding, and acceptance of PEVs and alternative fuel vehicles (AFV) by the purchasing public. DOE intends the surveys to be completed by individuals who are participating in one of many ride-and-drive events. There are three phases to the Survey: (1) Pre Ride-and-Drive; (2) post Ride-and-Drive; and (3) a few months/some time later to discern if the

respondent followed through with acquisition of a PEV or another AFV. Respondents provide answers in the first two phases through a user-friendly paper survey and on-line survey, and in the third phase they answer questions via an electronic interface, although a paper survey may be used for those lacking access to an electronic device or computer.

The Surveys' effort relies on responses to questions the respondent chooses to answer. The multiple-choice questions address the following topic areas: (1) Demographics; (2) Current vehicle background; (3) How they learned about ride and drive event; (3) Perceptions of PEVs before and after driving; (4) Post-drive vehicle experience; (5) Purchase expectations; (6) Follow-up survey regarding subsequent behaviors; (7) Purchase information; (8) Barriers; and (9) Future intentions. The survey is expected to take 30 minutes, leading to a total burden of approximately 28,250 hours (an increase 2,500 hours above the total burden in hours for the two currently approved collections).

(5) Type of Respondents: Public; (6) Annual Estimated Number of Respondents for all three information collections: 16,300; (7) Annual Estimated Number of Total Responses: 16,300; (7) Annual Estimated Number of Burden Hours: 28,250 (25,625 for PEV Scorecard, 125 for Clean Fleets Partnership, and 2,500 for the Ride and Drive Surveys); and (8) Annual Estimated Reporting and Recordkeeping Cost Burden: There is no cost associated with reporting and recordkeeping.

Statutory Authority: 42 U.S.C. 13233; 42 U.S.C. 13252 (a)–(b); 42 U.S.C. 13255.

Issued in Washington, DC, on: November 25, 2019.

David Howell,

Deputy Director, Vehicle Technologies Office, Energy Efficiency and Renewable Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings #1

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER19–878–002.

Applicants: Enel Green Power Hilltopper Wind, LLC.

Description: Compliance filing; Compliance Filing for ER19–878 to

submit updated tariff records to be effective 3/30/2019.

Filed Date: 11/26/19.

Accession Number: 20191126–5088.

Comments Due: 5 p.m. ET 12/17/19.

Docket Numbers: ER20–280–001.

Applicants: Skookumchuck Wind Energy Project, LLC.

Description: Supplement to November 1, 2019 Skookumchuck Wind Energy Project, LLC tariff filing.

Filed Date: 11/22/19.

Accession Number: 20191122–5145.

Comments Due: 5 p.m. ET 12/2/19.

Docket Numbers: ER20–459–000.

Applicants: WSPP Inc.

Description: § 205(d) Rate Filing: List of Members sections 4 and 6 2020 to be effective 1/25/2020.

Filed Date: 11/26/19.

Accession Number: 20191126–5006.

Comments Due: 5 p.m. ET 12/17/19.

Docket Numbers: ER20–460–000.

Applicants: ITC Midwest LLC.

Description: § 205(d) Rate Filing: Filing of 4th Amended and Restated Corn Belt-IPL IA to be effective 1/26/2020.

Filed Date: 11/26/19.

Accession Number: 20191126–5064.

Comments Due: 5 p.m. ET 12/17/19.

Docket Numbers: ER20–461–000.

Applicants: PJM Interconnection, L.L.C.

Description: § 205(d) Rate Filing: Original WMPA SA No. 5523; Queue No. AE1–162 to be effective 10/29/2019.

Filed Date: 11/26/19.

Accession Number: 20191126–5077.

Comments Due: 5 p.m. ET 12/17/19.

Docket Numbers: ER20–462–000.

Applicants: Indiana Michigan Power Company, PJM Interconnection, L.L.C.

Description: § 205(d) Rate Filing: AEPSC submits Interconnection Agreement, SA No. 1263 to be effective 10/17/2019.

Filed Date: 11/26/19.

Accession Number: 20191126–5086.

Comments Due: 5 p.m. ET 12/17/19.

Docket Numbers: ER20–463–000.

Applicants: Duke Energy Florida, LLC.

Description: § 205(d) Rate Filing: DEF–FMPA-Winter Park-FMPA Reimbursement Agreement (Rate Schedule No. 257) to be effective 1/1/2020.

Filed Date: 11/25/19.

Accession Number: 20191125–5260.

Comments Due: 5 p.m. ET 12/16/19.

Docket Numbers: ER20–464–000.

Applicants: Greenleaf Energy Unit 2 LLC.

Description: Baseline eTariff Filing: Market-Based Rate Application to be effective 12/9/2019.
