DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2019-0002; Internal Agency Docket No. FEMA-B-1976]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood

Insurance Program (NFIP). In addition, the FIRM and FIS report, once effective, will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings.

DATES: Comments are to be submitted on or before March 4, 2020.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location https://www.fema.gov/preliminary_floodhazarddata and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-1976, to Rick Sacbabit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbabit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbabit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbabit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard

determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP and are used to calculate the appropriate flood insurance premium rates for new buildings built after the FIRM and FIS report become effective.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and

technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://www.fema.gov/preliminary/floodhazarddata> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison. Notice of Intent To Prepare an Environmental Impact Statement To Consider a Highway Right-of-Way With Associated Issuance of an Incidental Take Permit, and Resource Management Plan Amendments, Washington County, UT

AGENCY: Bureau of Land Management, Interior; Fish and Wildlife Service, Interior.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), the Federal Land Policy and Management Act of 1976, as amended, and the Endangered Species Act of 1973 (ESA), as amended, the Bureau of Land Management (BLM), and the Fish and Wildlife Service (FWS), as co-lead agencies, intend to prepare an Environmental Impact Statement (EIS) to consider a right-of-way application submitted by the Utah Department of Transportation (referred to henceforth as the Northern Corridor project), potential amendments to the St. George Field Office and Red Cliffs National Conservation Area (NCA) Resource Management Plans (RMPs), and the issuance of an Incidental Take Permit (ITP) to Washington County, Utah, under Section 10(a)(1)(B) of the ESA.

DATES: This Notice initiates the public scoping process. Scoping comments may be submitted in writing until January 6, 2020. The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through a news release to local and regional media outlets and the BLM website at: <https://www.blm.gov/news/utah>. In order to be considered during the preparation of the Draft EIS, all comments must be received prior to the close of the 30-day scoping period or 15 days after the last public meeting, whichever is later. The BLM and FWS will provide additional opportunities for public participation upon publication of the Draft EIS.

ADDRESSES: You may submit written comments related to the proposed actions by any of the following methods:

- *Website:* <https://go.usa.gov/xpC6H>.
- *Email:* BLM_UT_NorthernCorridor@blm.gov.

- *Mail:* Bureau of Land Management, Attn: Northern Corridor, 345 East Riverside Drive, St. George, UT 84790.

Documents pertinent to this proposal may be examined at the BLM St. George Field Office, 345 East Riverside Drive, St. George, Utah 84790 and FWS Utah Ecological Services Field Office, 2369 W. Orton Circle, West Valley City, Utah 84119.

FOR FURTHER INFORMATION CONTACT: Gloria Tibbetts, Color Country District Planning and Environmental Coordinator, telephone (435) 865-3063; address 176 DL Sargent Dr., Cedar City, UT 84721; email BLM_UT_NorthernCorridor@blm.gov.

Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Tibbetts during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: On September 4, 2018, the Utah Department of Transportation submitted an application for a right-of-way (ROW) grant for the Northern Corridor project north of the city of St. George, Utah, on BLM-managed public lands in the Red Cliffs NCA and the Red Cliffs Desert Reserve—an area set aside for Mojave desert tortoise mitigation under the 1995 Washington County Habitat Conservation Plan (HCP). The FWS is working with Washington County (County) on an HCP pursuant to Section 10(a)(1)(B) of the ESA in response to the proposed Northern Corridor project and other development in the county. The BLM is also considering amendments to the St. George Field Office and Red Cliffs NCA RMPs that would allow consideration of and mitigation for the proposed Northern Corridor project.

The EIS will analyze four proposed actions: (1) Whether the BLM will approve a 1.75-mile ROW section of the approximately 4-mile long Northern Corridor project that crosses the 62,000-acre Red Cliffs Desert Reserve and the 45,000-acre congressionally established Red Cliffs NCA; (2) Whether the BLM will amend the Red Cliffs NCA RMP to allow for a transportation ROW and/or corridor within the NCA; (3) Whether the BLM will amend the St. George Field Office RMP to modify management on approximately 6,800 acres outside the Reserve and NCA to offset the ROW impacts; and (4) Whether the FWS will issue an associated ITP for the Mojave desert tortoise for specific land use and land development activities in Washington County.
